Ex. Ord. No. 11200, Feb. 26, 1965, 30 F.R. 2645, provided:

WHEREAS it is desirable that all American people of present and future generations be assured adequate outdoor recreation resources, and it is desirable for all levels of government and private interests to take prompt and coordinated action to the extent practicable without diminishing or affecting their respective powers and functions to conserve, develop, and utilize such resources for the benefit and enjoyment of the American people; and

WHEREAS these resources are to a considerable extent located on lands administered by the Federal Government through the National Park Service, the Bureau of Land Management, the Bureau of Sport Fisheries and Wildlife, the Bureau of Reclamation, the Forest Service, the Corps of Engineers, the Tennessee Valley Authority and the United States Section of the International Boundary and Water Commission (United States and Mexico); and

WHEREAS the Act of May 28, 1963, 77 Stat. 49 [sections 460*l* to 460*l*–3 of the title], vested the Secretary of the Interior with legal authority to promote coordination of Federal plans and activities generally relating to outdoor recreation; and

WHEREAS it is fair and equitable that the users of certain recreation areas and facilities managed by such agencies pay a reasonable fee for the recreation benefits received; and

WHEREAS it is desirable to establish uniformity of practices among such Federal agencies regarding recreation user fees and related matters; and

WHEREAS the Congress, recognizing the need for urgent and effective action in this regard, enacted the Land and Water Conservation Fund Act of 1965, Public Law 88-578; 78 Stat. 897 [sections 460*l*–4 to 460*l*–11 of this title] (hereafter in this order referred to as "the Act");

NOW, THEREFORE, by virtue of the authority vested in me by the Act, by Section 301 of title 3 of the United States Code, and as President of the United States, it is ordered as follows:

SECTION 1. *Designation of areas for 1965.* (a) All areas administered by the National Park Service, Bureau of Land Management, Bureau of Sport Fisheries and Wildlife, Bureau of Reclamation, Forest Service, Corps of Engineers, Tennessee Valley Authority, and the United States Section of the International Boundary and Water Commission (United States and Mexico), at which entrance, admission, or other recreation user fees (hereafter in this order referred to as "recreation user fees") were collected directly by those Federal agencies during any part of 1964 are hereby designated, pursuant to Section 2(a) of the Act [subsec. (a) of this section], as areas at which recreation user fees shall be charged during 1965.

(b) The Secretary of the Interior, the Secretary of Agriculture, the Secretary of Defense, the Board of Directors of the Tennessee Valley Authority, and the Commissioner, United States Section of the International Boundary and Water Commission (United States and Mexico), or their designees, shall, by April 1, 1965, designate any additional areas under their respective jurisdictions at which recreation user fees are to be charged during 1965.

(c) Recreation user fees for such areas shall be prescribed as provided in Section 5 of this Order.

SEC. 2. *Designation of areas for years after 1965.* (a) Subject to the provisions of subsection (b) of this section, the areas designated by Section 1(a), or pursuant to Section 1(b), of this Order are hereby designated as areas for which recreation user fees shall be charged for years after 1965.

(b) The officials described in Section 1(b) of this Order shall, before January 1, 1966, and at least annually thereafter, review all areas then under their respective jurisdictions, including those described in subsection (a) of this section, to determine (1) whether any additional areas should, in accordance with the designation criteria prescribed by Section 3 of this Order (or under those designation criteria as revised by the Secretary of the Interior pursuant to Section 6(c) of this Order), be designated as areas for which recreation user fees shall be charged, or (2) whether the recreation user fee for any area theretofore designated should be increased, reduced, or eliminated under the designation criteria then in effect.

(c)(1) Whenever, in accordance with subsection (b) of this section, it is determined that the recreation user fee for an area should be reduced or eliminated, such action shall be taken forthwith.

(2) Whenever, in accordance with subsection (b) of this section, it is determined that a recreation user fee should be charged with respect to an area with respect to which no such fee has theretofore been charged, such new fee shall be charged only after the posting requirements of Section 4 of this Order have been satisfied.

SEC. 3. *Criteria for designation of areas.* Areas shall, in accordance with Section 1(b) and Section 2(b) of this Order and to the extent permitted by the Act, be designated as areas at which recreation user fees shall be charged if the following conditions are found to exist concurrently:

(2) The area is administered primarily for scenic, scientific, historical, cultural, or recreational purposes;

(3) The area has recreation facilities or services provided at Federal expense; and

(4) The nature of the area is such that fee collection is administratively and economically practical.

(b) Areas designated as those at which recreation user fees shall be charged shall hereafter in this Order be referred to as "designated areas."

SEC. 4. *Posting of designated areas.* The heads of administering agencies and departments shall provide for the posting of signs at all designated areas such as will clearly notify the visiting public that recreation user fees are charged therein. All areas designated pursuant to Sections 1 and 2 of this Order shall be so posted prior to the beginning of the recreation season or as soon as practicable following designation. No recreation user fee established pursuant to this Order shall be effective with respect to any designated area until that designated area has been posted.

SEC. 5. *Establishment of fees.* (a) Each official described in Section 1(b) of this Order shall, subject to the criteria prescribed by the Secretary of the Interior, establish a recreation user fee for each designated area administered under his jurisdiction by selecting from a schedule of fees, prescribed by the Secretary of the Interior pursuant to Section 6 of this Order, the fee which is appropriate for each such designated area under criteria prescribed by the Secretary pursuant to that section. Each such official shall also specify which designated areas shall be excluded from the coverage of the annual fee described in Section 2(a)(1) of the Act [subsec. (a)(i) of this section] and which, as a result of that exclusion will be subject to the fee described in Section 2(a)(iii) of the Act [subsec. (a)(iii) of this section]. The range of recreation user fees to be charged and the criteria for their selection shall be established under the procedures prescribed by Section 6 of this Order.

(b) The Secretary of the Interior shall prescribe the procedures for the production, distribution, and sale of the Land and Water Conservation Fund Sticker, which shall be issued to those individuals who elect to pay the annual fees. The Secretary of the Interior shall also prescribe the manner in which the Sticker shall be displayed. The conditions under which it may

be used shall be determinated under the procedures prescribed by Section 6 of this Order.

SEC. 6. *Coordination.* (a) The Secretary of the Interior shall after consultation with the heads of other affected departments and agencies, adopt such coordination measures as are necessary to carry out the purposes of Sections 2(a) and 4(a) of the Act [subsec. (a) of this section and section 460*l*–7(a) of this title] and the provisions of this order.

(b)(1) In order that the purposes of the Act and of this Order may be effectuated without delay, the Secretary of the Interior shall, subject to the limitations imposed by the Act and without regard to the other provisions of this section, forthwith issue a schedule of recreation user fees and criteria to be used in determining which such fees shall be charged with respect to each of the designated areas.

(2) Subject to the limitations imposed by the Act and subject to the provisions of subsections (a), (c), and (d) of this section, the Secretary of the Interior may, from time to time, amend or replace the schedule of fees and the criteria prescribed by him pursuant to subsection (b)(1) of this section.

(c) Subject to the limits set forth in the Act, the measures which the Secretary of the Interior may adopt pursuant to subsection (a) of this section may include, but are not limited to, the following—

(1) Initial preparation and coordination of the comprehensive statement of estimated requirements during the ensuing fiscal year for appropriations from the Land and Water Conservation Fund, as required by Section 4(a) of the act [section 460*l*–7(a) of this title].

(2) Development of such additional procedures and interpretive materials as are necessary to facilitate the implementation of this Order and related provisions of the Act.

(3) Review and revision, if needed, of the criteria for designation set forth in Section 3 of this Order.

(d) Except with respect to the schedule of fees and the criteria prescribed by the Secretary pursuant to subsection (b)(1) of this section, measures and regulations adopted by the Secretary pursuant to this Order shall not become effective until 30 days after they are presented for the consideration of the other officials described in Section 1(b). Any such official who does not concur in any such measure or regulation may, within that 30-day period, refer the matter to the Recreation Advisory Council established under Executive Order No. 11017 [superseded by Ex. Ord. No. 11278, which in turn was revoked by Ex. Ord. No. 11472 which is set out as a note under section 4321 of Title 42] for resolution. If a proposed measure is referred to the Council for resolution, it shall not become effective until approved by the Council. With the approval of all other officials described in Section 1(b) of this Order, the provisions of this subsection may be waived with respect to any specific measure or regulation adopted by the Secretary of the Interior pursuant to this order so that any such measure or regulation may be made effective before the expiration of the 30-day waiting period prescribed by the first sentence of this subsection.

SEC. 7. *Review of contracts.* The officials described in Section 1(b) of this Order shall, within a reasonable time, review all existing contracts and other arrangements between their respective agencies and any non-Federal public entity which relate to non-Federal management of Federally-owned outdoor recreation areas. Special attention shall be given to any provision in any such contract or other arrangement which prohibits or discourages in any way such non-Federal public entity from charging recreation user fees. Unless otherwise prohibited by law, each such restrictive provision shall be the subject of renegotiation designed to accomplish a modification thereof that will permit the charging of recreation user fees.

SEC. 8. *Regulations.* The Secretary of the Interior is authorized to issue such regulations as may be necessary to carry out his functions under this Order.

§ 460*l*–6a. Admission and special recreation use fees

(a) Admission fees at designated areas; "Golden Eagle Passport" annual admission permit; issuance and use of annual admission permit; single-visit fees; fee-free travel areas; "Golden Age Passport" annual entrance permit; issuance and use of annual entrance permit

Entrance or admission fees shall be charged only at designated units of the National Park System administered by the Department of the Interior and National Recreation Areas administered by the Department of Agriculture. No admission fees of any kind shall be charged or imposed for entrance into any other federally owned areas which are operated and maintained by a Federal agency and used for outdoor recreation purposes.

(1) For admission into any such designated area, an annual admission permit (to be known as the Golden Eagle Passport) shall be available, for a fee of not more than $10. The permittee and any person accompanying him in a single, private, noncommercial vehicle, or alternatively, the permittee and his spouse, children, and parents accompanying him where entry to the area is by any means other than private, noncommercial vehicle, shall be entitled to general admission into any area designated pursuant to this subsection. The annual permit shall be valid during the calendar year for which the annual fee is paid. The annual permit shall not authorize any uses for which additional fees are charged pursuant to subsections (b) and (c) of this section. The annual permit shall be nontransferable and the unlawful use thereof shall be punishable in accordance with regulations established pursuant to

subsection (e) of this section. The annual permit shall be available for purchase at any such designated area.

(2) Reasonable admission fees for a single visit at any designated area shall be established by the administering Secretary for persons who choose not to purchase the annual permit. A "single visit" means that length of time a visitor remains within the exterior boundary of a designated fee area beginning from the day he first enters the area until he leaves, except that on the same day such admission fee is paid, the visitor may leave and reenter without the payment of an additional admission fee to the same area.

(3) No admission fee shall be charged for travel by private, non-commercial vehicle over any national parkway or any road or highway established as a part of the National Federal Aid System, as defined in section 101 of title 23, which is commonly used by the public as a means of travel between two places either or both of which are outside the area. Nor shall any fee be charged for travel by private, noncommercial vehicle over any road or highway to any land in which such person has any property right if such land is within any such designated area. In the Smoky Mountains National Park, unless fees are charged for entrance into said park on main highways and thoroughfares, fees shall not be charged for entrance on other routes into said park or any part thereof.

(4) The Secretary of the Interior and the Secretary of Agriculture shall establish procedures providing for the issuance of a lifetime admission permit (to be known as the "Golden Age Passport") to any citizen of, or person domiciled in, the United States sixty-two years of age or older applying for such permit. Such permit shall be nontransferable, shall be issued without charge, and shall entitle the permittee and any person accompanying him in a single, private, noncommercial vehicle, or alternatively, the permittee and his spouse and children accompanying him where entry to the area is by any means other than private, noncommercial vehicle, to general admission into any area designated pursuant to this subsection. No other free permits shall be issued to any person: *Provided,* That no fees of any kind shall be collected from any persons who have a right of access for hunting or fishing privileges under a specific provision of law or treaty or who are engaged in the conduct of official Federal, State, or local Government business and *Provided further,* That for no more than three years after the date of enactment of this Act, visitors to the United States will be granted entrance, without charge, to any designated admission fee area upon presentation of a valid passport.

Each Federal agency developing, administering, providing or furnishing at Federal expense, specialized outdoor recreation sites, facilities, equipment, or services shall, in accordance with this subsection and subsection (d) of this section, provide for the collection of daily recreation use fees at the place of use or any reasonably convenient location: *Provided,* That in no event shall there be a charge by any such agency for the use, either singly or in any combination, of drinking water, wayside exhibits, roads, overlook sites, visitors' centers, scenic drives, toilet facilities, picnic tables, or boat ramps: *Provided, however,* That a fee shall be charged for boat launching facilities only where specialized facilities or services such as mechanical or hydraulic boat lifts or facilities are provided: *And provided further,* That in no event shall there be a charge for the use of any campground not having the following—tent or trailer spaces, drinking water, access road, refuse containers, toilet facilities, personal collection of the fee by an employee or agent of the Federal agency operating the facility, reasonable visitor protection, and simple devices for containing a campfire (where campfires are permitted). At each lake or reservoir under the jurisdiction of the Corps of Engineers, United States Army, where camping is permitted, such agency shall provide at least one primitive campground, containing designated campsites, sanitary facilities, and vehicular access, where no charge shall be imposed. Any Golden Age Passport permittee shall be entitled upon presentation of such permit to utilize such special recreation facilities at a rate of 50 per centum of the established use fee.

(c) Special recreation permits

Special recreation permits for uses such as group activities, recreation events, motorized recreation vehicles, and other specialized recreation uses may be issued in accordance with procedures and at fees established by the agency involved.

(d) Criteria, posting and uniformity of fees

All fees established pursuant to this section shall be fair and equitable, taking into consideration the direct and indirect cost to the Government, the benefits to the recipient, the public policy or interest served, the comparable recreation fees charged by non-Federal public agencies, the economic and administrative feasibility of fee collection and other pertinent factors.

Clear notice that a fee has been established pursuant to this section shall be prominently posted at each area and at appropriate locations therein and shall be included in publications distributed at such areas. It is the intent of this part that comparable fees should be charged by the several Federal agencies for comparable services and facilities.

(e) Rules and regulations; establishment; enforcement powers; penalty for violations

In accordance with the provisions of this section, the heads of appropriate departments and agencies may prescribe rules and regulations for areas under their administration for the collection of any fee established pursuant to this section. Persons authorized by the heads of such Federal agencies to enforce any such rules or regulations issued under this subsection may, within areas under the administration or authority of such agency head and with or, if the offense is committed in his presence, without a warrant, arrest any person who violates such rules and regulations. Any person so arrested may be tried and sentenced by the

United States magistrate specifically designated for that purpose by the court by which he was appointed, in the same manner and subject to the same conditions as provided in subsections (b), (c), (d), and (e) of section 3401 of title 18. Any violations of the rules and regulations issued under this subsection shall be punishable by a fine of not more than $100.

(f) Disposition of fees; contracts with public or private entities for visitor reservation services

Except as otherwise provided by law or as may be required by lawful contracts entered into prior to September 3, 1964, providing that revenues collected at particular Federal areas shall be credited to specific purposes, all fees which are collected by any Federal agency shall be covered into a special account in the Treasury of the United States to be administered in conjunction with, but separate from, the revenues in the Land and Water Conservation Fund: *Provided,* That the head of any Federal agency, under such terms and conditions as he deems appropriate, may contract with any public or private entity to provide visitor reservation services; and any such contract may provide that the contractor shall be permitted to deduct a commission to be fixed by the agency head from the amount charged the public for providing such services and to remit the net proceeds therefrom to the contracting agency. Revenues in the special account shall be available for appropriation, without prejudice to appropriations from other sources for the same purposes, for any authorized outdoor recreation function of the agency by which the fees were collected: *Provided, however,* That not more than forty per centum of the amount so credited may be appropriated during the five fiscal years following the enactment of this Act for the enhancement of the fee collection system established by this section, including the promotion and enforcement thereof.

(g) Federal and State laws unaffected

Nothing in this part shall authorize Federal hunting or fishing licenses or fees or charges for commercial or other activities not related to recreation, nor shall it affect any rights or authority of the States with respect to fish and wildlife, nor shall it repeal or modify any provision of law that permits States or political subdivisions to share in the revenues from Federal lands or any provision of law that provides that any fees or charges collected at particular Federal areas shall be used for or credited to specific purposes or special funds as authorized by that provision of law.

(h) Annual reports to Congress

Periodic reports indicating the number and location of fee collection areas, the number and location of potential fee collection areas, capacity and visitation information, the fees collected, and other pertinent data, shall be coordinated and compiled by the Bureau of Outdoor Recreation and transmitted to the Committees on Interior and Insular Affairs of the United States House of Representatives and United States Senate. Such reports, which shall be transmitted no later than March 31 annually, shall include any recommendations which the Bureau may have with respect to improving this aspect of the land and water conservation fund program.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 79c of this title.

§ 460*l*–8. Financial assistance to States

(a) Authority of Secretary of the Interior; payments to carry out purposes of land and water conservation provisions

The Secretary of the Interior (hereinafter referred to as the "Secretary") is authorized to provide financial assistance to the States from moneys available for State purposes. Payments may be made to the States by the Secretary as hereafter provided, subject to such terms and conditions as he considers appropriate and in the public interest to carry out the purposes of this part, for outdoor recreation: (1) planning, (2) acquisition of land, waters, or interests in land or waters, or (3) development.

(b) Apportionment among States; finality of administrative determination; formula; notification; reapportionment of unobligated amounts; definition of State

Sums appropriated and available for State purposes for each fiscal year shall be apportioned among the several States by the Secretary, whose determination shall be final, in accordance with the following formula:

(1) Forty per centum of the first $225,000,000; thirty per centum of the next $275,000,000; and twenty per centum of all additional appropriations shall be apportioned equally among the several States; and

(2) At any time, the remaining appropriation shall be apportioned on the basis of need to individual States by the Secretary in such amounts as in his judgment will best accomplish the purposes of this part. The determination of need shall include among other things a consideration of the proportion which the population of each State bears to the total population of the United States and of the use of outdoor recreation resources of individual States by persons from outside the State as well as a consideration of the Federal resources and programs in the particular States.

(3) The total allocation to an individual State under paragraphs (1) and (2) of this subsection shall not exceed 10 per centum of the total amount allocated to the several States in any one year.

(4) The Secretary shall notify each State of its apportionments; and the amounts thereof

shall be available thereafter for payment to such State for planning, acquisition, or development projects as hereafter prescribed. Any amount of any apportionment that has not been paid or obligated by the Secretary during the fiscal year in which such notification is given and for two fiscal years thereafter shall be reapportioned by the Secretary in accordance with paragraph (2) of this subsection, without regard to the 10 per centum limitation to an individual State specified in this subsection.

(5) For the purposes of paragraph (1) of this subsection, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands (when such islands achieve Commonwealth status) shall be treated collectively as one State, and shall receive shares of such apportionment in proportion to their populations. The above listed areas shall be treated as States for all other purposes of this title.

(c) Matching requirements

Payments to any State shall cover not more than 50 per centum of the cost of planning, acquisition, or development projects that are undertaken by the State. The remaining share of the cost shall be borne by the State in a manner and with such funds or services as shall be satisfactory to the Secretary. No payment may be made to any State for or on account of any cost or obligation incurred or any service rendered prior to September 3, 1964.

(d) Comprehensive State plan; necessity; adequacy; contents; correlation with other plans; factors for formulation of Housing and Home Finance Agency financed plans; planning projects

A comprehensive statewide outdoor recreation plan shall be required prior to the consideration by the Secretary of financial assistance for acquisition or development projects. The plan shall be adequate if, in the judgment of the Secretary, it encompasses and will promote the purposes of this part: *Provided,* That no plan shall be approved unless the Governor of the respective State certifies that ample opportunity for public participation in plan development and revision has been accorded. The Secretary shall develop, in consultation with others, criteria for public participation, which criteria shall constitute the basis for the certification by the Governor. The plan shall contain—

(1) the name of the State agency that will have authority to represent and act for the State in dealing with the Secretary for purposes of this part;

(2) an evaluation of the demand for and supply of outdoor recreation resources and facilities in the State;

(3) a program for the implementation of the plan; and

(4) other necessary information, as may be determined by the Secretary.

The plan shall take into account relevant Federal resources and programs and shall be correlated so far as practicable with other State, regional, and local plans. Where there exists or is in preparation for any particular State a comprehensive plan financed in part with funds supplied by the Housing and Home Finance Agency, any statewide outdoor recreation plan prepared for purposes of this part shall be based upon the same population, growth, and other pertinent factors as are used in formulating the Housing and Home Finance Agency financed plans.

The Secretary may provide financial assistance to any State for projects for the preparation of a comprehensive statewide outdoor recreation plan when such plan is not otherwise available or for the maintenance of such plan.

(e) Projects for land and water acquisition; development

In addition to assistance for planning projects, the Secretary may provide financial assistance to any State for the following types of projects or combinations thereof if they are in accordance with the State comprehensive plan:

(1) For the acquisition of land, waters, or interests in land or waters (other than land, waters, or interests in land or waters acquired from the United States for less than fair market value), but not including incidental costs relating to acquisition.

Whenever a State provides that the owner of a single-family residence may, at his option, elect to retain a right of use and occupancy for not less than six months from the date of acquisition of such residence and such owner elects to retain such a right, such owner shall be deemed to have waived any benefits under sections 4623, 4624, 4625, and 4626 of title 42 and for the purposes of those sections such owner shall not be considered a displaced person as defined in section 4601(6) of title 42.

(2) For development of basic outdoor recreation facilities to serve the general public, including the development of Federal lands under lease to States for terms of twenty-five years or more: *Provided,* That no assistance shall be available under this part to enclose or shelter facilities normally used for outdoor recreation activities, but the Secretary may permit local funding, and after September 28, 1976, not to exceed 10 per centum of the total amount allocated to a State in any one year to be used for sheltered facilities for swimming pools and ice skating rinks in areas where the Secretary determines that the severity of climatic conditions and the increased public use thereby made possible justifies the construction of such facilities.

(f) Requirements for project approval; conditions; progress payments; payments to Governors or State officials or agencies; State transfer of funds to public agencies; conversion of property to other uses; reports to Secretary; accounting; records; audit; evaluations by States; discrimination prohibited

(1) Payments may be made to States by the Secretary only for those planning, acquisition, or development projects that are approved by him. No payment may be made by the Secretary for or on account of any project with respect to which financial assistance has been given or promised under any other Federal program or activity, and no financial assistance may be given under any other Federal program or activity for or on account of any project with

respect to which such assistance has been given or promised under this part. The Secretary may make payments from time to time in keeping with the rate of progress toward the satisfactory completion of individual projects: *Provided,* That the approval of all projects and all payments, or any commitments relating thereto, shall be withheld until the Secretary receives appropriate written assurance from the State that the State has the ability and intention to finance its share of the cost of the particular project, and to operate and maintain by acceptable standards, at State expense, the particular properties or facilities acquired or developed for public outdoor recreation use.

(2) Payments for all projects shall be made by the Secretary to the Governor of the State or to a State official or agency designated by the Governor or by State law having authority and responsibility to accept and to administer funds paid hereunder for approved projects. If consistent with an approved project, funds may be transferred by the State to a political subdivision or other appropriate public agency.

(3) No property acquired or developed with assistance under this section shall, without the approval of the Secretary, be converted to other than public outdoor recreation uses. The Secretary shall approve such conversion only if he finds it to be in accord with the then existing comprehensive statewide outdoor recreation plan and only upon such conditions as he deems necessary to assure the substitution of other recreation properties of at least equal fair market value and of reasonably equivalent usefulness and location.

(4) No payment shall be made to any State until the State has agreed to (1) provide such reports to the Secretary, in such form and containing such information, as may be reasonably necessary to enable the Secretary to perform his duties under this part, and (2) provide such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement and accounting for Federal funds paid to the State under this part.

(5) Each recipient of assistance under this part shall keep such records as the Secretary shall prescribe, including records which fully disclose the amount and the disposition by such recipient of the proceeds of such assistance, the total cost of the project or undertaking in connection with which such assistance is given or used, and the amount and nature of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(6) The Secretary, and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipient that are pertinent to assistance received under this part.

(7) Each State shall evaluate its grant programs annually under guidelines set forth by the Secretary and shall transmit such evaluation to the Secretary, together with a list of all projects funded during that fiscal year, including, but not limited to, a description of each project, the amount of Federal funds employed in such project, the source of other funds, and the estimated cost of completion of the project. Such evaluation and the publication of same shall be eligible for funding on a 50-50 matching basis. The results of the evaluation shall be annually reported on a fiscal year basis to the Bureau of Outdoor Recreation, which agency shall forward a summary of such reports to the Committees on Interior and Insular Affairs of the United States Congress. Such report to the committees shall also include an analysis of the accomplishments of the fund for the period reported, and may also include recommendations as to future improvements for the operation of the Land and Water Conservation Fund program.

(8) With respect to property acquired or developed with assistance from the fund, discrimination on the basis of residence, including preferential reservation or membership systems, is prohibited except to the extent that reasonable differences in admission and other fees may be maintained on the basis of residence.

(g) Coordination with Federal agencies

In order to assure consistency in policies and actions under this part with other related Federal programs and activities (including those conducted pursuant to title VII of the Housing Act of 1961 [42 U.S.C. 1500 et seq.] and section 701 of the Housing Act of 1954 [40 U.S.C. 461]) and to assure coordination of the planning, acquisition, and development assistance to States under this section with other related Federal programs and activities, the President may issue such regulations with respect thereto as he deems desirable and such assistance may be provided only in accordance with such regulations.

SHORT TITLE

Section 12 of Pub. L. 89–72 provided that Pub. L. 89–72, which enacted sections 460*l*–12 to 460*l*–21 of this title and amended sections 460*l*–5(a) and 662(d) of this title, may be cited as the "Federal Water Project Recreation Act".

§ 460*l*–13. Non-Federal administration of project land and water areas; costs; compliance prerequisite to determination of economic benefits, allocation of costs, and Federal bearing of costs; execution of agreement before commencement of project construction; non-Federal share of costs

(a) If, before authorization of a project, non-Federal public bodies indicate their intent in writing to agree to administer project land and water areas for recreation or fish and wildlife enhancement or for both of these purposes pursuant to the plan for the development of the project approved by the head of the agency having administrative jurisdiction over it and to bear not less than one-half the separable costs of the project allocated to recreation, and to bear one-quarter of such costs allocated to fish and wildlife enhancement and all the costs of operation, maintenance, and replacement incurred therefor—

(1) the benefits of the project to said purpose or purposes shall be taken into account in determining the economic benefits of the project;

(2) costs shall be allocated to said purpose or purposes and to other purposes in a manner which will insure that all project purposes share equitably in the advantages of multiple-purpose construction: *Provided*, That the costs allocated to recreation or fish and wildlife enhancement shall not exceed the lesser of the benefits from those functions or the costs of providing recreation or fish and wildlife enhancement benefits or reasonably equivalent use and location by the least costly alternative means; and

(3) not more than one-half the separable costs of the project allocated to recreation and exactly three-quarters of such costs allocated to fish and wildlife enhancement and all the joint costs of the project allocated to recreation and fish and wildlife enhancement shall be borne by the United States and be nonreimbursable.

Projects authorized during the calendar year 1965 may include recreation and fish and wildlife enhancement on the foregoing basis without the required indication of intent. Execution of an agreement as aforesaid shall be a prerequisite to commencement of construction of any project to which this subsection is applicable.

(b) The non-Federal share of the separable costs of the project allocated to recreation and fish and wildlife enhancement shall be borne by non-Federal interests, under either or both of the following methods as may be determined appropriate by the head of the Federal agency having jurisdiction over the project: (1) payment, or provision of lands, interests therein, or facilities for the project; or (2) repayment, with interest at a rate comparable to that for other interest-bearing functions of Federal water resource projects, within fifty years of first use of project recreation or fish and wildlife enhancement facilities: *Provided*, That the source of repayment may be limited to entrance and user fees or charges collected at the project by non-Federal interests if the fee schedule and the portion of fees dedicated to repayment are established on a basis calculated to achieve repayment as aforesaid and are made subject to review and renegotiation at intervals of not more than five years.

(Pub. L. 89–72, § 2, July 9, 1965, 79 Stat. 214; Pub. L. 93–251, title I, § 77(a)(1), (2), Mar. 7, 1974, 88 Stat. 33.)

AMENDMENTS

1974—Subsec. (a). Pub. L. 93–251 substituted in text preceding item (1) "separable costs of the project allocated to recreation, and to bear one-quarter of such costs allocated to fish and wildlife enhancement" for "separable costs of the project allocated to either or both of said purposes, as the case may be" and in item (3) "separable costs of the project allocated to recreation and exactly three-quarters of such costs allocated to fish and wildlife enhancement" for "separable costs", respectively.

EFFECTIVE DATE OF 1974 AMENDMENT

Section 77(b) of Pub. L. 93–251 provided that: "The amendments made by this section [to subsec. (a) of this section and section 460*l*–14(b)(1) of this title] shall apply to all projects the construction of which is not substantially completed on the date of enactment of this Act [Mar. 7, 1974]."

COST SHARING REQUIREMENTS

Section 77(c) of Pub. L. 93–251 provided that: "In the case of any project (1) authorized subject to specific cost-sharing requirements which were based on the same percentages as those established in the Federal Water Project Recreation Act [section 460*l*–12 et seq. of this title], and (2) construction of which is not substantially completed on the date of enactment of this Act [Mar. 7, 1974], the cost-sharing requirements for such project shall be the same percentages as are established by the amendments made by subsection (a) of this section [to subsec. (a) of this section and section 460*l*–14(b)(1) of this title] for projects which are subject to the Federal Water Project Recreation Act [section 460*l*–12 et seq. of this title]."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 460*l*–14, 460*l*–17 of this title.

§ 460*l*–14. Facilities of project modifications to be provided without written indication of intent

(a) Other project purposes as justification; public health and safety requirement of minimum facilities at access points; basis for calculation of benefits; nonreimbursable costs

No facilities or project modifications which will furnish recreation or fish and wildlife enhancement benefits shall be provided in the absence of the indication of intent with respect thereto specified in section 460*l*–13(a) of this title unless (1) such facilities or modifications serve other project purposes and are justified thereby without regard to such incidental recreation or fish and wildlife enhancement benefits as they may have or (2) they are minimum facilities which are required for the public health and safety and are located at access points provided by roads existing at the time of project construction or constructed for the administration and management of the project. Calculation of the recreation and fish and wildlife enhancement benefits in any such case shall be based on the number of visitor-days anticipated in the absence of recreation and fish and wildlife enhancement facilities or modifications except as hereinbefore provided and on the value per visitor-day of the project without such facilities or modifications. Project costs allocated to recreation and fish and wildlife enhancement on this basis shall be nonreimbursable.

(b) Preservation of recreation and fish and wildlife enhancement potential; execution of agreements within ten year period; disposition of lands in absence of such agreements, prohibition against uses conflicting with project purposes, and preference to uses promoting and not detracting from such potential

Notwithstanding the absence of an indication of intent as specified in section 460*l*–13(a) of this title, lands may be provided in connection with project construction to preserve the recreation and fish and wildlife enhancement potential of the project:

(1) If non-Federal public bodies execute an agreement within ten years after initial operation of the project (which agreement shall provide that the non-Federal public bodies will administer project land and water areas for recreation or fish and wildlife enhancement or both pursuant to the plan for the development of the project approved by the head of the agency having administrative jurisdiction over it and will bear not less than one-half the costs of lands, facilities, and project modifications provided for recreation, and will bear one-quarter of such costs for fish and wildlife enhancement, and all costs of operation, maintenance, and replacement attributable thereto) the remainder of the costs of lands, facilities, and project modifications provided pursuant to this paragraph shall be nonreimbursable. Such agreement and subsequent development, however, shall not be the basis for any reallocation of joint costs of the project to recreation or fish and wildlife enhancement.

(2) If, within ten years after initial operation of the project, there is not an executed agreement as specified in paragraph (1) of this subsection, the head of the agency having jurisdiction over the project may utilize the lands for any lawful purpose within the jurisdiction of his agency, or may offer the land for sale to its immediate prior owner or his immediate heirs at its appraised fair market value as approved by the head of the agency at the time of offer or, if a firm agreement by said owner or his immediate heirs is not executed within ninety days of the date of the offer, may transfer custody of the lands to another Federal agency for use for any lawful purpose within the jurisdiction of that agency, or may lease the lands to a non-Federal public body, or may transfer the lands to the Administrator of General Services for disposition in accordance with the surplus property laws of the United States. In no case shall the lands be used or made available for use for any purpose in conflict with the purposes for which the project was constructed, and in every case except that of an offer to purchase made, as hereinbefore provided, by the prior owner or his heirs preference shall be given to uses which will preserve and promote the recreation and fish and wildlife enhancement potential of the project or, in the absence thereof, will not detract from that potential.

(Pub. L. 89–72, § 3, July 9, 1965, 79 Stat. 214; Pub. L. 93–251, title I, § 77(a)(3), Mar. 7, 1974, 88 Stat. 33.)

Where any project lands are transferred hereunder to the jurisdiction of the Secretary of Agriculture, the lands involved shall become national forest lands: *Provided,* That the lands and waters within the flow lines of any reservoir or otherwise needed or used for the operation of the project for other purposes shall continue to be administered by the Secretary of the Interior to the extent he determines to be necessary for such operation. Nothing herein shall limit the authority of the Secretary of the Interior granted by existing provisions of law relating to recreation or fish and wildlife development in connection with water resource projects or to disposition of public lands for such purposes.

PART D—LAND TRANSFERS

§ 460*l*-22. Conveyance of property and interests in property in national park system and miscellaneous areas

(a) Freehold and leasehold interests; competitive bidding

With respect to any property acquired by the Secretary of the Interior within a unit of the national park system or miscellaneous area, except property within national parks, or within national monuments of scientific significance, the Secretary may convey a freehold or leasehold interest therein, subject to such terms and conditions as will assure the use of the property in a manner which is, in the judgment of the Secretary, consistent with the purpose for which the area was authorized by the Congress. In any case in which the Secretary exercises his discretion to convey such interest, he shall do so to the highest bidder, in accordance with such regulations as the Secretary may prescribe, but such conveyance shall be at not less than the fair market value of the interest, as determined by the Secretary; except that if any such conveyance is proposed within two years after the property to be conveyed is acquired by the Secretary, he shall allow the last owner or owners of record of such property thirty days following the date on which they are notified by the Secretary in writing that such property is to be conveyed within which to notify the Secretary that such owners wish to acquire such interest. Upon receiving such timely request, the Secretary shall convey such interest to such person or persons, in accordance with such regulations as the Secretary may prescribe, upon payment or agreement to pay an amount equal to the highest bid price.

(b) Exchange of lands; other disposal; equal land values

The Secretary of the Interior is authorized to accept title to any non-Federal property or interest therein within a unit of the National Park System or miscellaneous area under his administration, and in exchange therefor he may convey to the grantor of such property or interest any Federally-owned property or interest therein under his jurisdiction which he determines is suitable for exchange or other disposal and which is located in the same State as the non-Federal property to be acquired: *Provided, however,* That timber lands subject to harvest under a sustained yield program shall not be so exchanged. Upon request of a State or a political subdivision thereof, or of a party in interest, prior to such exchange the Secretary or his designee shall hold a public hearing in the area where the lands to be exchanged are located. The values of the properties so exchanged, either shall be approximately equal, or if they are not approximately equal, the values shall be equalized by the payment of cash to the grantor from funds appropriated for the acquisition of land for the area, or to the Secretary as the circumstances require.

(c) Proceeds credited to land and water conservation fund

The proceeds received from any conveyance under this section shall be credited to the land and water conservation fund in the Treasury of the United States.

The Secretary may thereafter alter such boundaries from time to time, except that the total acreage in the Ozark National Scenic Riverways shall not exceed sixty-five thousand acres, exclusive of land donated by the State of Missouri or its political subdivisions and of federally owned land transferred pursuant to section 460m-1 of this title.

SUBCHAPTER LXXI—BUFFALO NATIONAL RIVER

§ 460m-8. Establishment

For the purposes of conserving and interpreting an area containing unique scenic and scientific features, and preserving as a free-flowing stream an important segment of the Buffalo River in Arkansas for the benefit and enjoyment of present and future generations, the Secretary of the Interior (hereinafter referred to as the "Secretary") may establish and administer the Buffalo National River. The boundaries of the national river shall be as generally depicted on the drawing entitled "Proposed Buffalo National River" numbered NR-BUF-7103 and dated December 1967, which shall be on file and available for public inspection in the offices of the National Park Service, Department of the Interior. The Secretary is authorized to make minor revisions of the boundaries of the national river when necessary, after advising the Committees on Interior and Insular Affairs of the United States House of Representatives and the United States Senate in writing, but the total acreage within such boundaries shall not exceed ninety-five thousand seven hundred and thirty acres.

(Pub. L. 92-237, § 1, Mar. 1, 1972, 86 Stat. 44.)

CHANGE OF NAME

The Committee on Interior and Insular Affairs of the Senate was abolished and replaced by the Committee on Energy and Natural Resources of the Senate, effective Feb. 11, 1977. See Rule XXV of the Standing Rules of the Senate, as amended by Senate Resolution

4 (popularly cited as the "Committee System Reorganization Amendments of 1977"), approved Feb. 4, 1977.

§ 460m–9. Acquisition of lands and waters

(a) Donation, purchase, and exchange; reimbursement of State of Arkansas

Within the boundaries of the Buffalo National River, the Secretary may acquire lands and waters or interests therein by donation, purchase or exchange, except that lands owned by the State of Arkansas or a political subdivision thereof may be acquired only by donation: *Provided,* That the Secretary may, with funds appropriated for development of the area, reimburse such State for its share of the cost of facilities developed on State park lands if such facilities were developed in a manner approved by the Secretary and if the development of such facilities commenced subsequent to March 1, 1972: *Provided further,* That such reimbursement shall not exceed a total of $375,000. When an individual tract of land is only partly within the boundaries of the national river, the Secretary may acquire all of the tract by any of the above methods in order to avoid the payment of severance costs. Land so acquired outside of the boundaries of the national river may be exchanged by the Secretary for non-Federal lands within the national river boundaries, and any portion of the land not utilized for such exchanges may be disposed of in accordance with the provisions of the Federal Property and Administrative Services Act of 1949, as amended [40 U.S.C. 471 et seq.]. With the concurrence of the agency having custody thereof, any Federal property within the boundaries of the national river may be transferred without consideration to the administrative jurisdiction of the Secretary for administration as part of the national river.

(b) Retention of rights

Except for property which the Secretary determines to be necessary for the purposes of administration, development, access or public use, an owner or owners (hereafter referred to as "owner") of any improved property which is used solely for noncommercial residential purposes on the date of its acquisition by the Secretary or any owner of lands used solely for agricultural purposes (including, but not limited to, grazing) may retain, as a condition of the acquisition of such property or lands, a right of use and occupancy of such property for such residential or agricultural purposes. The term of the right retained shall expire upon the death of the owner or the death of his spouse, whichever occurs later, or in lieu thereof, after a definite term which shall not exceed twenty-five years after the date of acquisition. The owner shall elect, at the time of conveyance, the term of the right reserved. The Secretary shall pay the owner the fair market value of the property on the date of such acquisition, less the fair market value of the term retained by the owner. Such right may, during its existence, be conveyed or transferred, but all rights of use and occupancy shall be subject to such terms and conditions as the Secretary deems appropriate to assure the use of such property in accordance with the purposes of this subchapter. Upon a determination that the property, or any portion thereof, has ceased to be used in accordance with such terms and conditions, the Secretary may terminate the right of use and occupancy by tendering to the holder of such right an amount equal to the fair market value, as of the date of the tender, of that portion of the right which remains unexpired on the date of termination.

(c) Improved property

As used in this section the term "improved property" means a detached year-round one-family dwelling which serves as the owner's permanent place of abode at the time of acquisition, and construction of which was begun before September 3, 1969, together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use.

§ 460m–10. Hunting and fishing; rules and regulations

Nothing contained in the foregoing sentence, however, shall preclude licensing of, or assistance to, developments below or above the Buffalo National River or on any stream tributary thereto which will not invade the area or unreasonably diminish the scenic, recreational, and fish and wildlife values present in the area on March 1, 1972. No department or agency of the United States shall rec-

ommend authorization of any water resources project that would have a direct and adverse effect on the values for which such river is established, as determined by the Secretary, nor shall such department or agency request appropriations to begin construction on any such project, whether heretofore or hereafter authorized, without, at least sixty days in advance, (i) advising the Secretary, in writing, of its intention so to do and (ii) reporting to the Committees on Interior and Insular Affairs of the United States House of Representatives and the United States Senate, respectively, the nature of the project involved and the manner in which such project would conflict with the purposes of this subchapter or would affect the national river and the values to be protected by it under this subchapter.

In acquiring these lands, the Secretary of the Army may utilize such statutory authorities as are available to him for the acquisition of project lands: *Provided,* That the Secretary of the Army shall acquire no lands or interests in land by exchange for lands or interests in land in Federal ownership unless the latter are in the States of Pennsylvania, New Jersey, or New York. Periodically, and as soon as practicable after such lands and interests within the area are acquired, the Secretary of the Army shall transfer jurisdiction thereover to the Secretary of the Interior for the purposes of this subchapter.

(b) Omission of designated lands from area

Notwithstanding the provisions of subsection (a) of this section, the Secretary of the Interior is authorized, after consultation with appropriate public officials of the affected political subdivisions of the States of Pennsylvania or New Jersey, as the case may be, to designate not more than three hundred acres adjacent and contiguous to the Borough of Milford, Pennsylvania, and not more than one thousand acres in Sussex County, New Jersey, for omission from the Delaware Valley National Recreation Area and the lands so designated shall not be acquired for said national recreation area under authority of this subchapter.

The price payable to the owner of such property shall be reduced by an amount equal to the value of the right retained. As used in this subchapter "improved residential property" means a single-family year-round dwelling, the construction of which was begun before January 21, 1963, which dwelling serves as the owner's permanent place of abode at the time of its acquisition by the United States, together with not more than three acres of land on which the dwelling and appurtenant buildings are located which land the Secretary of the Interior or the Secretary of the Army, as the case may be, finds is reasonably necessary for the owner's continued use and occupancy of the dwelling: *Provided, further,* That whenever an owner of property elects to retain a right of use and occupancy pursuant to this subchapter, such owner shall be deemed to have waived any benefits or rights under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 [42 U.S.C. 4601 et seq.].

SUBCHAPTER LXXV—WHISKEYTOWN-SHASTA-TRINITY NATIONAL RECREATION AREA

§ 460q. Establishment; purposes and uses; boundaries; administration; integrated management policies

In order to provide, in a manner coordinated with the other purposes of the Central Valley project, for the public outdoor recreation use and enjoyment of the Whiskeytown, Shasta, Clair Engle, and Lewiston reservoirs and surrounding lands in the State of California by present and future generations and the conservation of scenic, scientific, historic, and other values contributing to public enjoyment of such lands and waters, there is hereby established, subject to valid existing rights, the Whiskeytown-Shasta-Trinity National Recreation Area in the State of California (hereinafter referred to as the "recreation area"). The boundaries of the recreation area, which consists of the Whiskeytown unit, the Shasta unit, and the Clair Engle-Lewiston unit, shall be those shown in drawing numbered BOR-WST 1004, dated July 1963, entitled "Proposed Whiskeytown-Shasta-Trinity National Recreation Area", which is on file and available for public inspection in the office of the Director of the Bureau of Outdoor Recreation, Department of the Interior. The Whiskeytown unit shall be administered by the Secretary of the Interior; and the Shasta and Clair Engle-Lewiston units shall be administered by the Secretary of Agriculture, except that lands or waters needed or used for the operation of the Central Valley project shall continue to be administered by the Secretary of the Interior to the extent he determines to be required for such operation. The two Secretaries shall coordinate their planning and administration of the respective units in such manner as to provide integrated management policies for the recreation area as a whole for the purposes of this subchapter in order to bring about uniformity to the fullest extent feasible in the administration and use of the recreation area.

(Pub. L. 89-336, § 1, Nov. 8, 1965, 79 Stat. 1295.)

§ 460q-1. Acquisition of property

(a) Authority of Secretary concerned; manner and place; concurrence of State owner; transfer from Federal agency to administrative jurisdiction of appropriate Secretary; limitation of acquisition of easements during existence of zoning ordinance; uniform policy considerations

Within the boundaries of the portion of the recreation area under his jurisdiction and outside such boundaries when required for the construction or improvement of access roads thereto, each Secretary is authorized to acquire lands, waters, or other property, or any interest therein, in such manner, including exchange as hereinafter provided, as he considers to be in the public interest to carry out the purposes of this subchapter. In connection with any such acquisition, each Secretary may permit the grantor a reservation of all or any part of the minerals or of any other interest or right of use in such lands or waters on such terms and conditions as the Secretary may deem appropriate. Any property or interest therein owned by the State of California or any political subdivision thereof within the recreation area may be acquired under the authority of this subchapter only with the concurrence of the owner. Notwithstanding any other provision of law, any Federal property located within the recreation area may, with the concurrence of the agency having custody thereof, be transferred without consideration to the administrative jurisdiction of the appropriate Secretary for use by him in carrying out the purposes of this subchapter.

The Secretary of the Interior, in order to assure public access to Clear Creek and to provide hiking and horseback riding trails for the public, may, as he deems necessary for these purposes acquire such easements or other interests on either or both sides of Clear Creek between the south boundary of the Whiskeytown unit and the highway at Igo, California.

The Secretary of Agriculture is authorized to acquire scenic easements or such other interests, including ownership of the land therein, as he determines to be appropriate to protect and assure the appearance of a strip of land not to exceed six hundred and sixty feet on each side of the centerline of Federal Aid Secondary Highway Numbered 1089 between the points where said highway crosses the south line of sections 19 and 20, township 35 north, range 8 west, and where it crosses the south line of section 18, township 36 north, range 7 west, on the northwesterly side of the Clair Engle-Lewiston unit: *Provided,* That such easements or interests shall not be acquired without the consent of the owners so long as the appropriate local zoning agency shall have in force and applicable to such property a duly adopted, valid, zoning ordinance that, in the judgment of the Secretary of Agriculture, conforms to the zoning standards set forth in regulations issued pursuant to subsection (e) of this section.

The two Secretaries shall engage in mutual consultation with respect to such acquisition and to exchange transactions so as to promote uniform policies therefor insofar as practicable, taking into consideration the purposes of the recreation area as a whole, the responsibility of the Secretary of the Interior for the administration of federally owned minerals and of the Central Valley project, and the responsibility of the Secretary of Agriculture for the administration of national forests.

(b) Exchange of property; cash equalization payments; value of mineral interests

When the public interests will be benefited thereby, the Secretary of the Interior and the Secretary of Agriculture are each authorized to accept title to any non-Federal property within

any part of the recreation area and in exchange therefor convey to the grantor of such property any federally owned property under his jurisdiction within the State of California which he classifies as suitable for exchange or other disposal, notwithstanding any other provision of law. The properties so exchanged shall be approximately equal in fair market value: *Provided,* That the Secretary of the Interior or the Secretary of Agriculture, as the case may be, may accept cash from or pay cash to the grantor in such exchange in order to equalize the value of the properties exchanged. The Secretary of Agriculture shall obtain the concurrence of the Secretary of the Interior with respect to the value of any mineral interests in any such exchange proposed to be made by the Secretary of Agriculture.

(c) Reservation of use and occupancy of improved property for noncommercial residential purposes; term; valuation

Any owner or owners of improved residential property on the date of its acquisition by either Secretary may, as a condition to such acquisition, retain the right of use and occupancy of the property by himself and members of his immediate family for noncommercial residential purposes for a term ending at the death of such owner, the death of his spouse, or the day his last surviving child reaches the age of thirty, whichever is the latest. The value of the right retained shall be taken into consideration by the respective Secretary in determining the value of the property being acquired.

(d) Limitation of acquisition of improved property during existence of zoning ordinance; improved property defined

Privately owned "improved property" or interests therein shall not be acquired under this subchapter without the consent of the owner so long as an appropriate local zoning agency shall have in force and applicable to such property a duly adopted, valid, zoning ordinance that is approved by the Secretary having jurisdiction of the unit wherein the property is located. The term "improved property" as used in this subchapter shall mean any building or group of related buildings the actual construction of which was begun before February 7, 1963, together with not more than three acres of the land in the same ownership on which the building or group of buildings is situated: *Provided,* That the respective Secretary may exclude from improved property any shore or waters, together with so much of the land adjoining such shore or waters as he deems necessary for public access thereto.

(e) Zoning regulations; amendments; standards for ordinances; commercial or industrial use prohibition; use, acreage, frontage, setback, density, height, or other requirements; notice of variances; approval of ordinances

Prior to the approval of any zoning ordinance for the purposes of this section, the Secretary of the Interior and the Secretary of Agriculture shall jointly issue regulations, which may be amended from time to time, specifying standards for such zoning ordinances. Standards specified in such regulations shall have the object of (1) prohibiting new commercial or industrial uses, other than commercial or industrial uses which the Secretaries consider to be consistent with the purposes of this subchapter; (2) promoting the protection and development of properties for purposes of this subchapter by means of use, acreage, frontage, setback, density, height, or other requirements; and (3) providing that the appropriate Secretary shall receive notice of any variance granted under, or any exception made to, the application of the zoning ordinance. Following issuance of such regulations, each Secretary shall approve any zoning ordinance or any amendment to an approved zoning ordinance submitted to him that conforms to the standards contained in the regulations in effect at the time of adoption of the ordinance or amendment. Such approval shall remain effective for so long as such ordinance or amendment remains in effect as approved.

(f) Termination of suspension of authority for acquisition without owner's consent because of nonconforming variances and uses

The suspension of the respective Secretary's authority to acquire any improved property without the owner's consent shall automatically cease if (1) such property is made the subject of a variance or exception to any applicable zoning ordinance that does not conform to any applicable standard contained in regulations issued pursuant to this section; or (2) if such property is put to any use which does not conform to any applicable zoning ordinance.

(g) Certificate of suspension of authority for acquisition without owner's consent

Each Secretary shall furnish to any party in interest upon request a certificate indicating the property with respect to which the Secretary's authority to acquire without the owner's consent is suspended.

(h) Development plans; certification of Secretary of Agriculture; suspension of authority for acquisition without owner's consent; exception

Within the Shasta and Clair Engle-Lewiston units any owner of unimproved property who proposes to develop his property or a part thereof for service to the public may submit to the Secretary of Agriculture a development plan which shall set forth the manner in which and the time by which the property is to be developed and the use to which it is proposed to be put. If upon review of such plan the Secretary determines that the development and use of the property in the manner prescribed conforms to a zoning ordinance approved in accordance with the provisions of this section and that such use and development would serve the purposes of this subchapter, the Secretary of Agriculture may in his discretion issue to such owner a certificate to that effect. Upon the issuance of any such certificate and so long as such property is developed, maintained, and used in conformity therewith, the authority of the Secretary of Agriculture to acquire such property or any interest therein without the consent of the owner shall be suspended. This subsection shall not apply to any property which the Secretary of Agriculture determines to be needed for easements and rights-of-way for access, utilities, or facilities, or for administrative sites, campgrounds, or other areas

needed for use by the United States for visitors to the national recreation area.

(Pub. L. 89-336, § 2, Nov. 8, 1965, 79 Stat. 1295.)

§ 460q-2. Establishment of units; publication in Federal Register; boundary descriptions

(a) Shasta; Clair Engle-Lewiston

When the Secretary of Agriculture determines that sufficient lands, waters, or interest therein are owned or have been acquired by the United States within the boundaries of the Shasta unit or within the boundaries of the Clair Engle-Lewiston unit to permit efficient initial development and administration for the purposes of this subchapter, he shall publish in the Federal Register a notice to that effect and a detailed description of the boundaries of such unit.

(b) Whiskeytown

When the Secretary of the Interior determines that sufficient lands, waters, or interest therein are owned or have been acquired by the United States within the boundaries of the Whiskeytown unit to permit efficient initial development and administration for the purposes of this subchapter, he shall publish in the Federal Register a notice to that effect and a detailed description of the boundaries of the unit.

(c) Acquisition of property

Following the publication of any such notice, the respective Secretaries may continue to acquire the remaining property within the recreation area.

(Pub. L. 89-336, § 3, Nov. 8, 1965, 79 Stat. 1297.)

Such administration shall be carried out under land and water use management plans which each Secretary shall prepare and may from time to time revise in consultation with the other.

(b) In the administration of the portion of the recreation area under his jurisdiction—

(1) the Secretary of Agriculture shall utilize statutory authorities relating to the national forests in such manner as he deems appropriate to carry out the purposes of this subchapter; and

Regulations prescribing any such restrictions shall be issued after consultation with the California Department of Fish and Game.

The lands within the recreation area, subject to valid existing rights, are hereby withdrawn from location, entry, and patent under the United States mining laws. The Secretary of the Interior, under such regulations as he deems appropriate, may permit the removal of the nonleasable minerals from lands or interests in lands under his jurisdiction within the recreation area in the manner prescribed by section 387 of title 43, and from those under the jurisdiction of the Secretary of Agriculture within the recreation area in accordance with the provisions of section 192c of title 30, and he may permit the removal of leasable minerals from lands or interests in lands within the recreation area in accordance with the Mineral Leasing Act of February 25, 1920, as amended [30 U.S.C. 181 et seq.], or the Acquired Lands Mineral Leasing Act of August 7, 1947 [30 U.S.C. 351 et seq.], if he finds that such disposition would not have significant adverse effects on the purposes of the Central Valley project or the administration of the recreation area: *Provided,* That any lease or permit respecting such minerals in lands administered by the Secretary of Agriculture shall be issued only with his consent and subject to such conditions as he may prescribe.

All receipts derived from permits and leases issued under the authority of this section on lands administered by the Secretary of Agriculture shall be paid into the same funds or accounts in the Treasury of the United States and shall be distributed in the same manner as provided for other receipts from the lands affected by the lease or permit, except that any receipts derived from permits or leases issued on those or other lands in the recreation area under the Mineral Leasing Act of February 25, 1920, as amended, or the Act of August 7, 1947, shall be disposed of as provided in the applicable Act; and receipts from the disposition of nonleasable minerals from public lands under the jurisdiction of the Secretary of the Interior shall be disposed of in the same manner as moneys received from the sale of public lands.

(a) The Congress finds that certain outstanding natural features, including forests, beaches, dune formations, and ancient glacial phenomena, exist along the mainland shore of Lake Michigan and on certain nearby islands in Benzie and Leelanau Counties, Michigan, and that such features ought to be preserved in their natural setting and protected from developments and uses which would destroy the scenic beauty and natural character of the area. In order to accomplish this purpose for the benefit, inspiration, education, recreation, and enjoyment of the public, the Secretary of the Interior (hereinafter referred to as the "Secretary") is authorized to take appropriate

action, as herein provided, to establish in the State of Michigan the Sleeping Bear Dunes National Lakeshore. In carrying out the provisions of this subchapter, the Secretary shall administer and protect the Sleeping Bear Dunes National Lakeshore in a manner which provides for recreational opportunities consistent with the maximum protection of the natural environment within the area.

(b) In preserving the lakeshore and stabilizing its development, substantial reliance shall be placed on cooperation between Federal, State, and local governments to apply sound principles of land use planning and zoning. In developing the lakeshore, full recognition shall be given to protecting the private properties for the enjoyment of the owners.

(Pub. L. 91-479, § 1, Oct. 21, 1970, 84 Stat. 1075.)

§ 460x-1. Description of area; establishment of lakeshore; publication in Federal Register

(a) The Sleeping Bear Dunes National Lakeshore (hereinafter referred to as the "lakeshore") shall comprise the land and water area generally depicted on the map entitled "A Proposed Sleeping Bear Dunes National Lakeshore Boundary Map", numbered NL-SBD-91,000 and dated May 1969, which shall be on file and available for public inspection in the offices of the National Park Service of the Department of the Interior.

(b) As soon as practicable after October 21, 1970, and following the acquisition by the Secretary of those lands owned by the State of Michigan within the boundaries of the area designated for inclusion in the lakeshore (excepting not to exceed three hundred acres in the Platte Bay area) and of such additional lands, if any, as are necessary to provide an area which in his opinion is efficiently administrable for the purposes of this subchapter, he shall establish the Sleeping Bear Dunes National Lakeshore by publication of notice thereof in the Federal Register.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 460x-3, 460x-11 of this title.

§ 460x-2. Designation of lakeshore areas

(a) Area categories; publication in Federal Register

Within thirty days, or as soon as possible thereafter, after October 21, 1970, the Secretary shall publish in the Federal Register a map or other description of the lakeshore delineating areas constituting the following categories:

Category I, public use and development areas.

Category II, environmental conservation areas.

Category III, private use and development areas.

(b) Acquisition of lands and interests therein of category I areas

Lands and interests therein designated as category I may be acquired by the Secretary in accordance with section 460x-7 of this title.

(c) Designation of lands as within categories II and III for acquisition by Secretary; publication in Federal Register

Within one hundred and fifty days after October 21, 1970, the Secretary shall publish in the Federal Register an additional map or other description of those lands, if any, designated as within categories II and III for acquisition by him in fee in accordance with section 460x-7 of this title.

(d) Acquisition of interests in lands designated as category II; limitations

Except as provided in subsection (f) of this section, the Secretary may, after the publication provided for in subsection (c) of this section, acquire only such interests in lands designated as category II, other than those to be acquired in fee simple, as he deems appropriate to insure the continued conservation and preservation of the environmental quality of the lakeshore.

(e) Acquisition of interests in lands designated as category III; limitations

Except as provided in subsection (f) of this section, the Secretary may, after the publication provided for in subsection (c) of this section, acquire only such interests in lands designated as category III, other than those lands to be acquired in fee simple, as he deems appropriate to protect lands designated for acquisition.

(f) Restrictions on use and development of real property in categories II and III; notification of owners by Secretary of minimum restrictions on use and development for retention of property; compliance with restrictions as barring acquisition by Secretary; applicability to owners not notified by Secretary; acquisition from owners not agreeing to use of property in accordance with notice; acquisition of fee simple title

If the owner of any real property in categories II and III agrees to the use and development of his property in accordance with such restrictions, the Secretary may not acquire, without the consent of such owner, such property or interests therein for so long as the property affected is used in accordance with such restrictions, unless he determines that such property is needed for public use development. The foregoing limitations on acquisition shall also apply to any owners of real property to whom the Secretary did not, within the time set forth, give such a notice, except that if any property owner has not, within ninety days of the notice agreed to use the property in accordance with the notice, then the Secretary may acquire, without limitation, fee or lesser interests in property by any of the methods set forth in section 460x-7 of this title: *Provided,* That nothing contained in subsections (d) and (e) of this section, and in this subsection, which limits the acquisition of the fee simple title to property within the lakeshore, shall prevent the Secretary from acquir-

ing, without the consent of the owner, the fee simple title whenever in the Secretary's judgment the estimated cost of acquiring the lesser interest would be a substantial percentage of the estimated cost of acquiring the fee simple title.

The administration, protection, and development of the lakeshore shall be exercised by the Secretary, subject to the provisions of this subchapter and of sections 1 and 2 to 4 of this title, as amended and supplemented, relating to the areas administered and supervised by the Secretary through the National Park Service; except that authority otherwise available to the Secretary for the conservation and management of natural resources may be utilized to the extent he finds such authority will further the purposes of this subchapter.

(b) Land and water use management plan; preparation and implementation by Secretary; required provisions

In the administration, protection, and development of the area, the Secretary shall prepare and implement a land and water use management plan, which shall include specific provisions for—

(1) development of facilities to provide the benefits of public recreation;

(2) protection of scenic, scientific, and historic features contributing to public enjoyment; and

(c) Area review by Secretary; report to President; recommendations for preservation of any area within lakeshore as wilderness; designation as a wilderness

Within four years from October 21, 1970, the Secretary of the Interior shall review the area within the Sleeping Bear Dunes National Lakeshore and shall report to the President, in accordance with subsections (c) and (d) of section 1132 of this title, his recommendation as to the suitability or nonsuitability of any area within the lakeshore for preservation as wilderness, and any designation of any such area as a wilderness shall be accomplished in accordance with said subsections.

The Secretary is authorized to acquire by donation, purchase with donated or appropriated funds, transfer funds, transfer from any Federal agency, or exchange lands and interests therein for the purposes of this subchapter. When an individual tract of land is only partly within the area designated, the Secretary may acquire the entire tract by any of the above methods to avoid the payment of severance costs. Land so acquired outside the designated area may be exchanged by the Secretary for non-Federal lands within such area, and any portion of the land not utilized for such exchanges may be disposed of in accordance with the provisions of the Federal Property and Administrative Services Act of 1949 [40 U.S.C. 471 et seq.].

(b) Sale offers; hardship from delay; time and manner of purchase

In exercising his authority to acquire property under this subchapter, the Secretary shall give immediate and careful consideration to any offer made by an individual owning property within the lakeshore to sell such property to the Secretary. An individual owning property within the lakeshore may notify the Secretary that the continued ownership by such individual of that property would result in hardship to him, and the Secretary shall immediately consider such evidence and shall within one year following the submission of such notice, subject to the availability of funds, purchase such property offered for a price which does not exceed its fair market value.

(c) State donations; transfer from Federal agency to administrative jurisdiction of Secretary

Any property or interests therein, owned by the State of Michigan or any political subdivisions thereof, may be acquired only by donation. Notwithstanding any other provision of law, any property owned by the United States on October 21, 1970, located within such area may, with the concurrence of the agency having custody thereof, be transferred without consideration to the administrative jurisdiction of the Secretary for use by him in carrying out the provisions of this subchapter.

(d) Initiation of condemnation proceeding subsequent to failure of Secretary to negotiate for purchase of property; certificate of compliance with negotiation procedure

With respect to that property which the Secretary is authorized to acquire by condemnation under the terms of this subchapter, the Secretary shall initiate no condemnation proceedings until after he has made every reasonable effort to acquire such property by negotiation and purchase. The certificate of the determination by the Secretary or his designated representative that there has been compliance with the provisions of this subsection and of subsection (b) of this section shall be prima facie evidence of such compliance.

(e) Condemnation to acquire clear, marketable, and encumberance-free title

Nothing in this subchapter shall be construed to prohibit the use of condemnation as a means of acquiring a clear and marketable title, free of any and all encumbrances.

§ 460x-8. Zoning bylaws

(a) Authority of Secretary to assist any township or county in or adjacent to lakeshore; payments for technical aid

The Secretary shall, at the request of any township or county in or adjacent to the lakeshore affected by this subchapter, assist and consult with the appropriate officers and employees of such township or county in establishing zoning bylaws for the purpose of this subchapter. Such assistance may include payments to the county or township for technical aid.

(b) Suspension of condemnation power over improved property

No improved property within the area designated for inclusion in the lakeshore shall be acquired by the Secretary by condemnation so long as the affected county or township has in force and applicable thereto a duly adopted, valid zoning bylaw approved by the Secretary in accordance with the provisions of subsection (d) of this section and the use of improved property is in compliance therewith. In the event that the affected county or township does not have in effect and applicable to any improved property a duly adopted, valid zoning bylaw so approved, the Secretary shall be prohibited from acquiring such property by condemnation, if the owner thereof notifies the Secretary in writing of such owner's agreement to use his property in a manner consistent with the applicable standard set forth in subsection (d) of this section, and such prohibition against condemnation shall remain in effect for so long as such property is so used.

(c) Notification of owner by Secretary of use of property inconsistent with applicable bylaws or standards; requirements of notice; discontinuance of use by owner; condemnation upon failure to discontinue use

If the Secretary determines that any such property referred to in subsection (b) of this section covered by any such bylaw is being used in a way which is not in substantial compliance with such bylaw, or that any such property referred to in subsection (b) of this section with respect to which an agreement has been made is being used in a manner which is not substantially consistent with such applicable standards, he shall so notify the owner of any such property in writing. Such notice shall contain a detailed statement as to why the Secretary believes that such use is not in substantial compliance with such zoning bylaw or why such use is

not substantially consistent with such applicable standards, as the case may be. Any such owner shall have sixty days following the receipt by him of that written notification within which to discontinue the use referred to in such notification. Discontinuance of such use within such sixty-day period shall have the effect of prohibiting the Secretary from acquiring such property by condemnation by reason of such use. In any case in which such use is not discontinued within such sixty-day period. The Secretary may, in his discretion, acquire such property by condemnation.

(d) Conditions for approval by Secretary

Any zoning bylaw or amendment thereto submitted to the Secretary for approval for the purposes of this subchapter shall be approved by him if such bylaw or amendment contains provisions which—

(1) contribute to the effect of prohibiting the commercial and industrial use (other than a use for a commercial purpose as authorized under section 460x-12 of this title) of all property within the boundaries of such area which is situated within the county or township adopting such bylaw or amendment;

(2) are consistent with the objectives and purposes of this subchapter so that, to the extent possible under Michigan law, the scenic and scientific values of the lakeshore area will be protected;

(3) are designed to preserve the lakeshore character of the area by appropriate restrictions upon the burning of cover, cutting of timber (except tracts managed for sustained yield), removal of sand or gravel, and dumping, storage, or piling of refuse and other unsightly objects or other uses which would detract from the natural or traditional lakeshore scene;

(4) provide that no construction, reconstruction, moving, alteration, or enlargement of any property, including improved property as defined in this subchapter, within the lakeshore area shall be permitted, if such construction, reconstruction, moving, ateration, or enlargement would afford less than a fifty-foot setback from all streets measured at a right angle with the street line, and a twenty-five-foot distance from all contiguous properties. Any owner or zoning authority may request the Secretary of the Interior to determine whether a proposed move, alteration, construction, reconstruction, or enlargement of any such property would subject such property to acquisition by condemnation, and the Secretary, within sixty days of the receipt of such request, shall advise the owner or zoning authority in writing whether the intended use will subject the property to acquisition by condemnation; and

(5) have the effect of providing that the Secretary shall receive notice of any variance granted under, and of any exception made to the application of, such bylaw or amendment.

(e) Withdrawal or revocation of approval by Secretary; retroactive effect

The approval of any bylaw or amendment pursuant to subsection (d) of this section shall not be withdrawn or revoked by the Secretary for so long as such bylaw or amendment remains in effect as approved. Any such bylaw or amendment so approved shall not be retroactive in its application.

Right of retention of owner of improved property of use and occupancy for residential purposes for term of years or life; adjustment of compensation; conveyance or lease of right for noncommercial residential purposes; termination right of Secretary upon determination of noncompliance with statutory uses; adjustment of compensation

(a) Any owner or owners of improved property situated within the area designated for inclusion in the lakeshore on the date of its acquisition by the Secretary may, as a condition of such acquisition, retain, for a term of not to exceed twenty-five years, or for a term ending at the death of such owner or owners, the right of use and occupancy of such property for any residential purpose which is not incompatible with the purposes of this subchapter, or which does not impair the usefulness and attractiveness of the area designated for inclusion. The Secretary shall pay to the owner the value of the property on the date of such acquisition, less the value on such date of the right retained by the owner. Where any such owner retains a right of use and occupancy as herein provided, such right during its existence may be conveyed or leased for noncommercial residential purposes in accordance with the provisions of this section.

(b) Any deed or other instrument used to transfer title to property, with respect to which a right of use and occupancy is retained under this section, shall provide that such property shall not be used for any purpose which is incompatible with purposes of this subchapter, or which impairs the usefulness and attractiveness of such area and if it should be so used, the Secretary shall have authority to terminate such right. In the event the Secretary exercises his power of termination under this subsection he shall pay to the owner of the right terminated an amount equal to the value of that portion of such right which remained unexpired on the date of such termination.

SUBCHAPTER LXXXIX—BIG SOUTH FORK NATIONAL RIVER AND RECREATION AREA

§ 460ee. Establishment of National Area

(a) Secretary defined; statement of purposes; boundaries; acquisition of outside sites for administrative, visitor orientation, and recreation facilities

As used in this section the term "Secretary" shall mean the Secertary of the Army, acting through the Chief of Engineers. The Secretary, in accordance with the national recreation area concept included in the interagency report prepared pursuant to section 218 of the Flood Control Act of 1968 (Public Law 90-483) by the Corps of Engineers, the Department of the Interior, and the Department of Agriculture, as modified by this section, is authorized and directed to establish on the Big South Fork of the Cumberland River in Kentucky and Tennessee the Big South Fork National River and Recreation Area (hereafter in this section referred to as the "National Area") for the purposes of conserving and interpreting an area containing unique cultural, historic, geologic, fish and wildlife, archeologic, scenic, and recreational values, preserving as a natural, free-flowing stream the Big South Fork of the Cumberland River, major portions of its Clear Fork and New River stems, and portions of their various tributaries for the benefit and enjoyment of present and future generations, the preservation of the natural integrity of the scenic gorges and valleys, and the development of the area's potential for healthful outdoor recreation. The boundaries shall be as generally depicted on the drawing prepared by the Corps of Engineers and entitled "Big South Fork National River and Recreation Area" identified as map number BSF-NRRA(1)(A) and dated October 1972, which shall be on file and available for public inspection in the office of the District Engineer, U.S. Army Engineer District, Nashville, Tennessee. The Secretary may acquire sites at locations outside such boundaries, as he determines necessary, for administrative and visitor orientation facilities. The Secretary may also acquire a site outside such boundaries at or near the location of the historic Tabard Inn in Ruby, Tennessee, including such lands as he deems necessary, for the establishment of a lodge with recreational facilities as provided in subsection (e)(3) of this section.

(b) Publication in Federal Register; transfer from Secretary to administrative jurisdiction of Secretary of Interior; boundary revisions; acreage limitation; interim management by Department of Interior; transfer of funds

(1) The Secretary shall establish the National Area by publication of notice thereof in the Federal Register when he determines that the United States has acquired an acreage within the boundaries of the National Area that is efficiently administrable for the purposes of this section. After publication of notice, and after he has completed the construction of necessary access roads, day-use facilities, campground facilities, lodges, and administrative buildings, the Secretary shall transfer the jurisdiction of the National Area to the Secretary of the Interior who shall administer the National Area in

accordance with sections 1 and 2 to 4 of this title, as amended and supplemented. In the administration of the National Area the Secretary may utilize such statutory authority available to him for the conservation and management of wildlife and natural resources as he deems appropriate to carry out the purposes of this section. The Secretary of the Interior may, after transfer to him, revise the boundaries from time to time, but the total acreage within such boundaries shall not exceed one hundred and twenty-five thousand acres. Following such transfer the authorities available to the Secretary in subsection (c) of this section shall likewise be available to the Secretary of the Interior. The Secretary may, prior to the transfer to the Secretary of the Interior, revise the boundaries from time to time, but the total acreage within such boundaries shall not exceed one hundred and twenty-five thousand acres.

(2) The Secretary may by agreement with the Secretary of the Interior provide for interim management by the Department of the Interior, in accordance with the provisions of sections 1 and 2 to 4 of this title, as amended and supplemented, of any portion or portions of the project which constitute a logically and efficiently administrable area. The Secretary is authorized to transfer funds to the Department of the Interior for the costs of such interim management out of funds appropriated for the project.

(c) Acquisition of property; tracts; exchange and disposal of property; transfer from Federal agency to administrative jurisdiction of Secretary; residential property, right of use and occupancy; fair market value; transfer or assignment; lifetime residence of tenant or spouse; accrual of obligation or rental to United States; improved property defined; mineral rights

(1) Within the boundaries of the National Area, the Secretary may acquire lands and waters or interests therein by donation, purchase with donated or appropriated funds, or exchange or otherwise, except that lands (other than roads and rights-of-way for roads) owned by the States of Kentucky and Tennessee or any political subdivisions thereof which were in public ownership on October 22, 1976, may be acquired only by donation. When an individual tract of land is only partly within the boundaries of the National Area, the Secretary may acquire all of the tract by any of the above methods in order to avoid the payment of severance costs. Land so acquired outside of the boundaries of the National Area may be exchanged by the Secretary for non-Federal lands within the National Area boundaries, and any portion of the land not utilized for such exchanges may be disposed of in accordance with the provisions of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377; 40 U.S.C. 471 et seq.), as amended. Notwithstanding any other provision of law, any Federal property within the boundaries of the National Area shall be transferred without consideration to the administrative jurisdiction of the Secretary for the purposes of this section.

(2) With the exception of property or any interest in property that the Secretary determines is necessary for purposes of administration, preservation, or public use, any owner or owners (hereafter in this section referred to as "owner") of improved property used solely for noncommercial residential purposes on the date of its acquisition by the Secretary may retain the right of use and occupancy of such property for such purposes for a term, as the owner may elect, ending either (A) upon the death of the owner or his spouse, whichever occurs later, or (B) not more than twenty-five years from the date of acquisition. The Secretary shall pay to the owner the fair market value of the property on the date of such acquisition, less the fair market value on such date of the term retained by the owner. Such right: shall be subject to such terms and conditions as the Secretary deems appropriate to assure that the property is used in accordance with the purposes of this section; may be transferred or assigned; and may be terminated with respect to the entire property by the Secretary upon his determination that the property or any portion thereof has ceased to be used for noncommercial residential purposes, and upon tender to the holder of the right an amount equal to the fair market value, as of the date the tender, of that portion of the right which remains unexpired on the date of termination. Any person residing upon improved property, subject to the right of acquisition by the Secretary as a tenant or by the sufferance of the owner or owners of the property may be allowed to continue in such residence for the lifetime of such person or his spouse, whichever occurs later, subject to the same restrictions as applicable to owners residing upon such property and provided that any obligation or rental incurred as consideration for such tenancy shall accrue during such term to the United States to be used in the administration of this section.

(3) As used in this section the term "improved property" means a detached year-round one-family dwelling which serves as the owner's permanent place of abode at the time of acquisition, and construction of which was begun before January 1, 1974, together with so much of the land on which the dwelling is situated, such land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, except that the Secretary may exclude from any improved property any waters or land fronting thereon, together with so much of the land adjoining such waters or land as he deems necessary for public access thereto.

(4) In any case where the Secretary determines that underlying minerals are removable consistent with the provisions of subsection (e)(3) of this section, the owner of the minerals underlying property acquired for the purposes of this section may retain such interest. The Secretary shall reserve the right to inspect and regulate the extraction of such minerals to insure that the values enumerated in subsection (a) of this section are not reduced and that the purposes declared in subsection (e)(1) of this section are not interfered with.

(d) Hunting, fishing, and trapping; rules and regulations after consultations with State agencies

The Secretary, and the Secretary of the Interior after jurisdiction over the National Area

has been transferred to him under subsection (b) of this section, shall permit hunting, fishing, and trapping on lands and waters under his jurisdiction within the boundaries of the National Area in accordance with applicable Federal and State laws, except that he may designate zones where, and establish periods when, no hunting, fishing, or trapping shall be permitted for reasons of public safety, administration, fish or wildlife management, or public use and enjoyment. Except in emergencies, any rules and regulations of the Secretary or the Secretary of the Interior pursuant to this subsection shall be put into effect only after consultation with the appropriate State agency responsible for hunting, fishing, and trapping activities.

(e) Gorge areas division: restrictions, limited motorboat access, operation and maintenance of rail line, access routes, maintenance of roads for nonvehicular traffic, ingress and egress of residents, protection of values; adjacent areas division; restrictions, boundaries; Rugby area; Federal consultations with involved agencies respecting development and management of adjacent National area; Blue Heron Mine community, restoration; rail and alternative transportation study; report to Congress

The area within the boundary of the National Area shall be divided into two categories; namely, the gorge areas and adjacent areas as hereinafter defined.

(2)(A) Within the gorge area, no extraction of, or prospecting for minerals, petroleum products, or gas shall be permitted. No timber shall be cut within the gorge area except for limited clearing necessary for establishment of day-use facilities, historical sites, primitive campgrounds, and access roads. No structures shall be constructed within the gorge except for reconstruction and improvement of the historical sites specified in paragraphs (5) and (6) of this subsection and except for necessary day-use facilities along the primary and secondary access routes specified herein and within five hundred feet of such roads, and except for primitive campgrounds accessible only by water or on foot. No motorized transportation shall be allowed in the gorge area except on designated access routes and except that motorboat access into the gorge area shall be permitted up to a point one-tenth of a mile downstream from Devil's Jumps; and except for the continued operation and maintenance of the rail line currently operated and known as the K & T Railroad. The Secretary shall acquire such interest in the K & T Railroad right-of-way by easement as he deems necessary to protect the scenic, esthetic, and recreational values of the gorge area and the adjacent areas.

(B) Primary access routes into the gorge area may be constructed or improved upon the general route of the following designated roads: Tennessee Highway Numbered 52, FAS 2451 (Leatherwood Ford Road), the road into the Blue Heron Community, and Kentucky Highway Numbered 92.

Development within the area adjacent to Rugby, Tennessee, shall be designed toward preserving and enhancing the historical integrity of the community and any historical sites within the boundary of the National Area.

(6) The Secretary, or the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, shall provide for the restoration of the Blue Heron Mine community in a manner which will preserve and enhance the historical integrity of the community and will contribute to the public's understanding and enjoyment of its historical value. Nothing contained in the preceding sentence shall preclude licensing of, or assistance to, developments below or above the National Area or on any stream tributary thereto which will not invade the National Area or unreasonably diminish the scenic, recreation, and fish and wildlife values present in the area on March 7, 1974. No department or agency of the United States shall recommend authorization of any water resources project that would have a direct and adverse effect on the values for which the National Area was established, or request appropriations to begin construction of any such project, whether heretofore or hereafter authorized, without advising the Secretary or the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, in writing of its intention so to do at least sixty days in advance, and without specifically reporting to the Congress in writing at the time it makes its recommendations or request in what respect construction of such project would be in conflict with the purposes of this section and would affect the National Area and the values to be protected under this section.

(g) Transportation facilities; study and establishment

The Secretary shall study transportation facilities in the region served by the National Area and shall establish transportation facilities to enhance public access to the National Area. In this connection the Secretary is authorized to acquire and maintain public roads, other than State highways, necessary to serve the public use facilities within the National Area, and to establish and maintain, at Federal cost an interior and circulating road system sufficient to meet the purposes of this section. Any existing public road, which at the time of its acquisition continues to be a necessary and essential part of the county highway system, may, upon mutual agreement between the Secretary and the owner of such road, be relocated outside of the National Area and if not so relocated such road shall be maintained at Federal expense and kept open at all times for general travel purposes. Nothing in this subsection shall abrogate the right of egress and ingress of those persons who may remain in occupancy under subsection (c) of this section. Nothing in this subsection shall preclude the adjustment, relocation, reconstruction, or abandonment of State highways situated in the National Area, with the concurrence of the agency having the custody of such highways upon entering into such arrangements as the Secretary or the Secretary of the Interior, after jurisdiction over the National Area has been transferred to him under subsection (b) of this section, deems appropriate and in the best interest of the general welfare.

SUBCHAPTER XC—CUYAHOGA VALLEY NATIONAL RECREATION AREA

§ 460ff. Establishment; statement of purposes; utilization of resources

For the purpose of preserving and protecting for public use and enjoyment, the historic, scenic, natural, and recreational values of the Cuyahoga River and the adjacent lands of the Cuyahoga Valley and for the purpose of providing for the maintenance of needed recreational open space necessary to the urban environment, the Cuyahoga Valley National Recreation Area, hereafter referred to as the "recreation area", shall be established within six months after December 27, 1974. In the management of the recreation area, the Secretary of the Interior (hereafter referred to as the "Secretary") shall utilize the recreation area resources in a manner which will preserve its scenic, natural, and historic setting while providing for the recreational and educational needs of the visiting public.

(Pub. L. 93-555, § 1, Dec. 27, 1974, 88 Stat. 1784.)

§ 460ff-1. Acquisition of land

(a) Composition and boundaries; boundary revisions

The recreational area shall comprise the lands and waters generally depicted on the map entitled "Boundary Map, Cuyahoga Valley National Recreation Area, Ohio", numbered 90,000-A, and dated September 1976, which shall be on file and available for inspection in the offices of the National Park Service, Department of the Interior, Washington, District of Columbia, and in the main public library of Akron, Ohio, and Cleveland, Ohio. After advising the Committees on Interior and Insular Affairs of the United States Congress, in writing, the Secretary may make minor revisions of the boundaries of the recreation area when necessary by publication of a revised drawing or other boundary description in the Federal Register.

(b) Manner of acquisition; donation of State lands; private lands essential to area; transfer of Federal property to Secretary

Within the boundaries of the recreation area, the Secretary, after consultation with the Gov-

ernor of the State of Ohio and the Advisory Commission established in section 460ff-4 of this title, may acquire lands, improvements, waters, or interests therein by donation, purchase with donated or appropriated funds, exchange, or transfer. Any lands or interests owned therein, as well as any lands hereafter acquired, by the State of Ohio or any political subdivision thereof (including any park district or other public entity) may be acquired only by donation. The Secretary shall not acquire privately owned lands which are held and used for public recreation uses unless he determines that such lands are essential to carry out the purposes of this subchapter. Notwithstanding any other provisions of law, any Federal property located within the boundaries of the recreation area may, with the concurrence of the agency having custody thereof, be transferred without transfer of funds to the administrative jurisdiction of the Secretary for the purposes of the recreation area.

(c) Scenic easements or other interests in improved property; prerequisites to acquisition of fee title

With respect to improved properties, as defined in this subchapter, the Secretary may acquire scenic easements or such other interests as, in his judgment, are necessary for the purposes of the recreation area. Fee title to such improved properties shall not be acquired unless the Secretary finds that such lands are being used, or are threatened with uses, which are detrimental to the purposes of the recreation area, or unless such acquisition is necessary to fulfill the purposes of this subchapter.

(d) Acquired lands partly outside boundaries; exchange for non-Federal lands within boundaries; report to General Services Administration for disposal

When any tract of land is only partly within the boundaries of the recreation area, the Secretary may acquire all or any portion of the land outside of such boundaries in order to minimize the payment of severance costs. Land so acquired outside of the boundaries may be exchanged by the Secretary for non-Federal lands within the boundaries. Any portion of the land acquired outside the boundaries and not utilized for exchange shall be reported to the General Services Administration for disposal under the Federal Property and Administrative Services Act of 1949, as amended [40 U.S.C. 471 et seq.]: *Provided* That, no disposal shall be for less than the fair market value of the lands involved.

(e) Improved property defined; determination by Secretary

For the purposes of this subchapter, the term "improved property" means: (i) a detached single family dwelling, the construction of which was begun before January 1, 1975 (hereafter referred to as "dwelling"), together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures necessary to the dwelling which are situated on the land so designated, or (ii) property developed for agricultural uses, together with any structures accessory thereto which were so used on or before January 1, 1975. In determining when and to what extent a property is to be considered an "improved property", the Secretary shall take into consideration the manner of use of such buildings and lands prior to January 1, 1975, and shall designate such lands as are reasonably necessary for the continued enjoyment of the property in the same manner and to the same extent as existed prior to such date.

(f) Retention by owner of right of use and occupancy for noncommercial residential or agricultural purposes; term; payment of fair market value; termination by Secretary for use inconsistent with statutory purpose

The owner of an improved property, as defined in this subchapter, on the date of its acquisition, as a condition of such acquisition, may retain for himself, his heirs and assigns, a right of use and occupancy of the improved property for noncommercial residential or agricultural purposes, as the case may be, for a definite term of not more than twenty-five years, or, in lieu thereof, for a term ending at the death of the owner or the death of his spouse, whichever is later. The owner shall elect the term to be reserved. Unless the property is wholly or partially donated, the Secretary shall pay to the owner the fair market value of the property on the date of its acquisition, less the fair market value on that date of the right retained by the owner. A right retained by the owner pursuant to this section shall be subject to termination by the Secretary upon his determination that it is being exercised in a manner inconsistent with the purposes of this subchapter, and it shall terminate by operation of law upon notification by the Secretary to the holder of the right of such determination and tendering to him the amount equal to the fair market value of that portion which remains unexpired.

(g) Offers to sell by owners claiming undue hardship

In exercising his authority to acquire property under this subchapter, the Secretary shall give prompt and careful consideration to any offer made by an individual owning property within the recreation area to sell such property, if such individual notifies the Secretary that the continued ownership of such property is causing, or would result in, undue hardship.

In the exercise of his exchange authority, the Secretary may utilize authorities and procedures available to him in connection with exchanges of national forest lands.

(g) Acquisition of mineral interests

Notwithstanding any other provision of law, the Secretary is authorized to acquire mineral interests in lands within the recreation area, with or without the consent of the owner. Upon acquisition of any such interest, the lands and/or minerals covered by such interest are by this subchapter withdrawn from entry or appropriation under the United States mining laws and from disposition under all laws pertaining to mineral leasing and all amendments thereto.

In order to provide for public outdoor recreation use and enjoyment of Arbuckle Reservoir and land adjacent thereto, and to provide for more efficient administration of other adjacent area containing scenic, scientific, natural, and historic values contributing to public enjoyment of the area and to designate the area in such manner as will constitute a fitting memorialization of the Chickasaw Indian Nation, there is hereby established the Chickasaw National Recreation Area (hereinafter referred to as the "recreation area") consisting of lands and interests in lands within the area as generally depicted on the drawing entitled "Boundary Map, Chickasaw National Recreation Area," numbered 107-20004-A and dated February 1974, which shall be on file and available for inspection in the offices of the National Park Service, Department of the Interior. The Secretary of the Interior (hereinafter referred to as the "Secretary") may from time to time revise the boundaries of the recreation area by publication of a map or other boundary description in the Federal Register, but the total acreage of the recreation area may not exceed ten thousand acres.

(Pub. L. 94-235, § 1, Mar. 17, 1976, 90 Stat. 235.)

§ 460hh-1. Acquisition of property

(a) Authority of Secretary; manner of acquisition

The Secretary may acquire land or interests in lands within the boundaries of the recreation area by donation, purchase with donated or appropriated funds, or exchange. When any tract of land is only partly within such boundaries, the Secretary may acquire all or any portion of the land outside of such boundaries in order to minimize the payment of severance costs. Land so acquired outside of the boundaries may be exchanged by the Secretary for non-Federal lands within the boundaries, and any land so acquired and not utilized for exchange shall be reported to the General Services Administration for disposal under the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), as amended [40 U.S.C. 471 et seq.]. (b) Acquisition of improved residential property; retention by owners of right of use and occupancy for noncommercial residential purposes; terms; payment of fair market value

With respect to improved residential property acquired for the purposes of this subchapter, which is beneficially owned by a natural person and which the Secretary determines can be continued in that use for a limited period of time without undue interference with the administration, development, or public use of the recreation area, the owner thereof may on the date of its acquisition by the Secretary retain a right of use and occupancy of the property for noncommercial residential purposes for a term, as the owner may elect, ending either (1) at the death of the owner or his spouse, whichever occurs later, or (2) not more than twenty-five years from the date of acquisition. Any right so retained may, during its existence, be transferred or assigned. The Secretary shall pay to the owner the fair market value of the property on the date of such acquisition, less the fair market value on such date of the right retained by the owner.

(c) Improved residential property defined; determination by Secretary

As used in this subchapter, "improved residential property" means a single-family year-round dwelling, the construction of which began before March 1, 1975, and which serves as the owner's permanent place of abode at the time of its acquisition by the United States, together with not more than three acres of land on which the dwelling and appurtenant buildings are located that the Secretary finds is reasonably necessary for the owner's continued use and occupancy of the dwelling: *Provided,* That the Secretary may exclude from improved residential property any waters and adjoining land that the Secretary deems is necessary for public access to such waters.

(d) Termination of right of use and occupancy; determination by Secretary

The Secretary may terminate a right to use and occupancy retained pursuant to this section upon his determination that such use and occupancy is being exercised in a manner not consistent with the purposes of this subchapter, and upon tender to the holder of the right an amount equal to the fair market value of that portion of the right which remains unexpired on the date of termination.

SHORT TITLE

Pub. L. 89-665, Oct. 15, 1966, 80 Stat. 915, which is classified to sections 470 to 470t of this title, is popularly known as the "National Historic Preservation Act of 1966".

EX. ORD. NO. 11593. PROTECTION AND ENHANCEMENT OF THE CULTURAL ENVIRONMENT

Ex. Ord. No. 11593, May 13, 1971, 36 F.R. 8921, provided:

By virtue of the authority vested in me as President of the United States and in furtherance of the purposes and policies of the National Environmental Policy Act of 1969 (83 Stat. 852, 42 U.S.C. 4321 et seq.), the National Historic Preservation Act of 1966 (80 Stat. 915, 16 U.S.C. 470 et seq.), the Historic Sites Act of 1935 (49 Stat. 666, 16 U.S.C. 461 et seq.), and the Antiquities Act of 1906 (34 Stat. 225, 16 U.S.C. 431 et seq.), it is ordered as follows:

SECTION 1. *Policy.* The Federal Government shall provide leadership in preserving, restoring and maintaining the historic and cultural environment of the Nation. Agencies of the executive branch of the Government (hereinafter referred to as "Federal agencies") shall (1) administer the cultural properties under their control in a spirit of stewardship and trusteeship for future generations, (2) initiate measures necessary to direct their policies, plans and programs in such a way that federally owned sites, structures, and objects of historical, architectural or archaeological significance are preserved, restored and maintained for the inspiration and benefit of the people, and (3), in consultation with the Advisory Council on Historic Preservation (16 U.S.C. 470i), institute procedures to assure that Federal plans and programs contribute to the preservation and enhancement of non-federally owned sites, structures and objects of historical, architectural or archaeological significance.

SEC. 2. *Responsibilities of Federal agencies.* Consonant with the provisions of the acts cited in the first paragraph of this order, the heads of Federal agencies shall:

(a) no later than July 1, 1973, with the advice of the Secretary of the Interior, and in cooperation with the liaison officer for historic preservation for the State or territory involved, locate, inventory, and nominate to the Secretary of the Interior all sites, buildings, districts, and objects under their jurisdiction or control that appear to qualify for listing on the National Register of Historic Places.

(b) exercise caution during the interim period until inventories and evaluations required by subsection (a) are completed to assure that any federally owned property that might qualify for nomination is not inadvertently transferred, sold, demolished or substantially altered. The agency head shall refer any questionable actions to the Secretary of the Interior for an opinion respecting the property's eligibility for inclusion on the National Register of Historic Places. The Secretary shall consult with the liaison officer for historic preservation for the State or territory involved in arriving at his opinion. Where, after a reasonable period in which to review and evaluate the property, the Secretary determines that the property is likely to meet the criteria prescribed for listing on the National Register of Historic Places, the Federal agency head shall reconsider the proposal in light of national environmental and preservation policy. Where, after such reconsideration, the Federal agency head proposes to transfer, sell, demolish or substantially alter the property he shall not act with respect to the property until the Advisory Council on Historic Preservation shall have been provided an opportunity to comment on the proposal.

(c) initiate measures to assure that where as a result of Federal action or assistance a property listed on the National Register of Historic Places is to be substantially altered or demolished, timely steps be taken to make or have made records, including measured drawings, photographs and maps, of the property, and that copy of such records then be deposited in the Library of Congress as part of the Historic American Buildings Survey or Historic American Engineering Record for future use and reference. Agencies may call on the Department of the Interior for advice and technical assistance in the completion of the above records.

(d) initiate measures and procedures to provide for the maintenance, through preservation, rehabilitation, or restoration, of federally owned and registered sites at professional standards prescribed by the Secretary of the Interior.

(e) submit procedures required pursuant to subsection (d) to the Secretary of the Interior and to the Advisory Council on Historic Preservation no later than January 1, 1972, and annually thereafter, for review and comment.

(f) cooperate with purchasers and transferees of a property listed on the National Register of Historic Places in the development of viable plans to use such property in a manner compatible with preservation objectives and which does not result in an unreasonable economic burden to public or private interests.

SEC. 3. *Responsibilities of the Secretary of the Interior.* The Secretary of the Interior shall:

(a) encourage State and local historic preservation officials to evaluate and survey federally owned historic properties and, where appropriate, to nominate such properties for listing on the National Register of Historic Places.

(b) develop criteria and procedures to be applied by Federal agencies in the reviews and nominations required by section 2(a). Such criteria and procedures shall be developed in consultation with the affected agencies.

(c) expedite action upon nominations to the National Register of Historic Places concerning federally owned properties proposed for sale, transfer, demolition or substantial alteration.

(d) encourage State and Territorial liaison officers for historic preservation to furnish information upon request to Federal agencies regarding their properties

which have been evaluated with respect to historic, architectural or archaeological significance and which as a result of such evaluations have not been found suitable for listing on the National Register of Historic Places.

(e) develop and make available to Federal agencies and State and local governments information concerning professional methods and techniques for preserving, improving, restoring and maintaining historic properties.

(f) advise Federal agencies in the evaluation, identification, preservation, improvement, restoration and maintenance of historic properties.

(g) review and evaluate the plans of transferees of surplus Federal properties transferred for historic monument purposes to assure that the historic character of such properties is preserved in rehabilitation, restoration, improvement, maintenance and repair of such properties.

(h) review and comment upon Federal agency procedures submitted pursuant to section 2(e) of this order.

The Secretary of Agriculture shall advertise all sales unless he determines that extraordinary conditions exist, as defined by regulation, or that the appraised value of the sale is less than $10,000. If, upon proper offering, no satisfactory bid is received for a sale, or the bidder fails to complete the purchase, the sale may be offered and sold without further advertisement.

(e) Prevention of collusive bidding practices

The Secretary of Agriculture shall take such action as he may deem appropriate to obviate collusive practices in bidding for trees, portions of trees, or forest products from National Forest System lands, including but not limited to—

(1) establishing adequate monitoring systems to promptly identify patterns of noncompetitive bidding;

(2) requiring sealed bidding on all sales except where the Secretary determines otherwise by regulation; and

(3) requiring that a report of instances of such collusive practices or patterns of noncompetitive bidding be submitted to the Attorney General of the United States with any and all supporting data.

(f) Research and demonstration projects

The Secretary of Agriculture, under such rules and regulations as he may prescribe, is authorized to dispose of, by sale or otherwise, trees, portions of trees, or other forest products related to research and demonstration projects.

(g) Designation, marking, and supervision of harvesting; personnel

Designation, marking when necessary, and supervision of harvesting of trees, portions of trees, or forest products shall be conducted by persons employed by the Secretary of Agriculture. Such persons shall have no personal interest in the purchase or harvest of such products and shall not be directly or indirectly in the employment of the purchaser thereof.

(h) Utilization standards, methods of measurement, and harvesting practices; monetary deposits by purchasers of salvage harvests; nature, purposes and availability of designated fund; return of surplus to Treasury

The Secretary of Agriculture shall develop utilization standards, methods of measurement, and harvesting practices for the removal of trees, portions of trees, or forest products to provide for the optimum practical use of the wood material. Such standards, methods, and practices shall reflect consideration of opportunities to promote more effective wood utilization, regional conditions, and species characteristics and shall be compatible with multiple use resource management objectives in the affected area. To accomplish the purpose of this subsection in situations involving salvage of insect-infested, dead, damaged, or down timber, and to remove associated trees for stand improvement,

the Secretary is authorized to require the purchasers of such timber to make monetary deposits, as a part of the payment for the timber, to be deposited in a designated fund from which sums are to be used, to cover the cost to the United States for design, engineering, and supervision of the construction of needed roads and the cost for Forest Service sale preparation and supervision of the harvesting of such timber. Deposits of money pursuant to this subsection are to be available until expended to cover the cost to the United States of accomplishing the purposes for which deposited: *Provided,* That such deposits shall not be considered as moneys received from the national forests within the meaning of sections 500 and 501 of this title: *And provided further,* That sums found to be in excess of the cost of accomplishing the purposes for which deposited on any national forest shall be transferred to miscellaneous receipts in the Treasury of the United States.

(i) Purchaser credit for permanent road construction; right of election of small business concerns; estimated cost; date of completion; use of funds for construction; effective date

(1) For sales of timber which include a provision for purchaser credit for construction of permanent roads with an estimated cost in excess of $20,000, the Secretary of Agriculture shall promulgate regulations requiring that the notice of sale afford timber purchasers qualifying as "small business concerns" under the Small Business Act, as amended [15 U.S.C. 631 et seq.], and the regulations issued thereunder, an estimate of the cost and the right, when submitting a bid, to elect that the Secretary build the proposed road: *Provided,* That the provisions of this subsection shall not apply to sales of timber on National Forest System lands in the State of Alaska.

(2) If the purchaser makes such an election, the price subsequently paid for the timber shall include all of the estimated cost of the road. In the notice of sale, the Secretary of Agriculture shall set a date when such road shall be completed which shall be applicable to either construction by the purchaser or the Secretary, depending on the election. To accomplish requested work, the Secretary is authorized to use from any receipts from the sale of timber a sum equal to the estimate for timber purchaser credits, and such additional sums as may be appropriated for the construction of roads, such funds to be available until expended, to construct a road that meets the standards specified in the notice of sale.

(3) The provisions of this subsection shall become effective on October 1, 1976.

§ 478a. Townsites

When the Secretary of Agriculture determines that a tract of National Forest System land in Alaska or in the eleven contiguous Western States is located adjacent to or contiguous to an established community, and that transfer of such land would serve indigenous community objectives that outweigh the public objectives and values which would be served by maintaining such tract in Federal ownership, he may, upon application, set aside and designate as a townsite an area of not to exceed six hundred and forty acres of National Forest System land for any one application. After public notice, and satisfactory showing of need therefor by any county, city, or other local governmental subdivision, the Secretary may offer such area for sale to a governmental subdivision at a price not less than the fair market value thereof: *Provided, however,* That the Secretary may condition conveyances of townsites upon the enactment, maintenance, and enforcement of a valid ordinance which assures any land so conveyed will be controlled by the governmental subdivision so that use of the area will not interfere with the protection, management, and development of adjacent or contiguous National Forest System lands.

Before any such exchange is effected notice of the contemplated exchange reciting the lands involved shall be published once each week for four successive weeks in some newspaper of general circulation in the county or counties in which may be situated the lands to be accepted, and in some like newspaper published in any county in which may be situated any lands or timber to be given in such exchange. Timber given in such exchanges shall be cut and removed under the laws and regulations relating to the national forests, and under the direction and supervision and in accordance with the requirements of the Secretary of Agriculture. Lands conveyed to the United States under this section and section 486 of this title shall, upon acceptance of title, become parts of the national forest within whose exterior boundaries they are located.

REFERENCES IN TEXT

Section 471(b) of this title, referred to in text, was repealed by section 704(a) of Pub. L. 94-579. For further details, see Codification note below.

CODIFICATION

Section is a combination provision the basis for which is Act Mar. 4, 1907, which superseded previous provisions relating to the disposal of money received from sale of products or use of any land or resources of the forest reserves, contained in Act Feb. 1, 1905, ch. 288, § 5, 33 Stat. 628.

Act Mar. 4, 1911, is the source of the last portion of the section beginning with the words, "and also so much as may be necessary," etc. That Act provides that so much of the former Act "which provides for refunds by the Secretary of Agriculture to depositors of moneys to secure the purchase price of timber or the use of lands or resources of the national forests such sums as may be found to be in excess of the amounts found actually due the United States, be, and is hereby, amended hereafter to appropriate and to include so much;".

The words of this section reading, "including moneys received from sale of products from or use of lands in national forests created under section 471(b) of this title" were derived from the fourth sentence of section 9 of Act of June 7, 1924, which reads as follows: "All receipts from the sale of products from or for the use of lands in such national forests shall be covered into the Treasury as miscellaneous receipts, forest reserve fund, and shall be disposed of in like manner as the receipts from other national forests as provided by existing law." Section 471(b) of this title, referred to in text, was based on the first and fifth sentences of section 9 of the 1924 act, and was repealed by section 704(a) of Pub. L. 94-579. Section 505 of this title is based on the second and third sentences of section 9 of the 1924 act.

The words "and moneys received on account of permits for hunting, fishing, or camping on lands acquired under authority of sections 513 to 517 and 521 of this title," are from a provision of Act Mar. 4, 1917, which reads, "Hereafter, all moneys received on account of permits for hunting, fishing, or camping, on lands acquired under authority of said Act [Act Mar. 1, 1911, ch. 186, 36 Stat. 961] or any Amendment or extension thereof, shall be disposed of as is provided by existing law for the disposition of receipts from national forests."

The words of this section reading, "except as provided in sections 500 and 501 of this title" are intended to relate this section to the apparent exceptions contained in later law.

AMENDMENTS

1928—Act May 29, 1928, deleted provision which required the Secretary of Agriculture to make an annual report to Congress of the amounts refunded under this section.

§ 500. Payment and evaluation of receipts to State for schools and roads; moneys received; projections of revenues and estimated payments

On and after May 23, 1908, twenty-five per centum of all moneys received during any fiscal year from each national forest shall be paid, at the end of such year, by the Secretary of the Treasury to the State in which such national forest is situated, to be expended as the State legislature may prescribe for the benefit of the

public schools and public roads of the county or counties in which such national forest is situated: *Provided,* That when any national forest is in more than one State or county the distributive share to each from the proceeds of such forest shall be proportional to its area therein. In sales of logs, ties, poles, posts, cordwood, pulpwood, and other forest products the amounts made available for schools and roads by this section shall be based upon the stumpage value of the timber. Beginning October 1, 1976, the term "moneys received" shall include all collections under the Act of June 9, 1930, and all amounts earned or allowed any purchaser of national forest timber and other forest products within such State as purchaser credits, for the construction of roads on the National Forest Transportation System within such national forests or parts thereof in connection with any Forest Service timber sales contract. The Secretary of Agriculture shall, from time to time as he goes through his process of developing the budget revenue estimates, make available to the States his current projections of revenues and payments estimated to be made under the Act of May 23, 1908, as amended, or any other special Acts making payments in lieu of taxes, for their use for local budget planning purposes.

AMENDMENTS

1976—Pub. L. 91-383, § 10(a)(2), as added Pub. L. 94-458, struck out "and national parks" following "national forests" and "or national park" following "jurisdiction the forest".

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 567b, 567c of this title.

§ 567b. Conditions and requirements for cooperation in acquisition and management of State forests

No cooperative agreement shall be entered into or continued in force under the authority of sections 567a to 567c of this title or any land acquired hereunder turned over to the cooperating State for administration, development, and management unless the State concerned, as a consideration for the benefits extended to it thereunder, complies in a manner satisfactory to the Secretary of Agriculture with the following conditions and requirements which shall constitute a part of every such agreement:

(a) In order to reduce the need for public expenditures in the acquisition of lands which may be brought into public ownership through the enforcement of appropriate tax delinquency laws, and, by bringing about the handling of such lands upon a sound social and economic basis, to terminate a system of indeterminate and unsound ownership injurious to the private

and public interest alike, no additional lands shall be acquired within any State by the United States under sections 567a to 567c of this title after June 30, 1942, unless the State concerned has prior thereto provided by law for the reversion of title to the State or a political unit thereof of tax-delinquent lands and for blocking into State or other public forests the areas which are more suitable for public than private ownership, and which in the public interest should be devoted primarily to the production of timber crops and/or the maintenance of forests for watershed protection, and for the enforcement of such law: *Provided,* That in the administration of sections 567a to 567c of this title prior to June 30, 1942, preference will be given to States applying for cooperation hereunder which provided by law for such reversion of title under tax delinquency laws.

(b) In order to insure a stable and efficient organization for the development and administration of the lands acquired under sections 567a to 567c of this title, the State shall provide for the employment of a State forester, who shall be a trained forester of recognized standing.

(c) The Secretary of Agriculture and the appropriate authorities of each cooperating State shall work out a mutually satisfactory plan defining forest areas within the State which can be most effectively and economically administered by said State, which plan shall constitute a part of the cooperative agreement between the United States and the State concerned: *Provided,* That nothing herein shall be held to prevent the Secretary of Agriculture from later agreeing with the proper State authorities to desirable modifications in such plan.

(d) No payment of Federal funds shall be made for land selected for purchase by the United States under sections 567a to 567c of this title until such proposed purchase has been submitted to and approved by the National Forest Reservation Commission created by section 513 of this title.

(e) Subject to the approval of the National Forest Reservation Commission, the Secretary of Agriculture is authorized to pay out of any available money appropriated for carrying out the purposes of sections 567a to 567c of this title any State, county, and/or town taxes, exclusive of penalties, due or accrued on any forest lands acquired by the United States under donations from the owners thereof and which lands are to be included in a State or other public forest pursuant to said sections.

(f) The State shall prepare such standards of forest administration, development, and management as are necessary to insure maximum feasible utility for timber production and watershed protection, and are acceptable to the Secretary of Agriculture and shall apply the same to lands acquired and placed under the jurisdiction of the State pursuant to sections 567a to 567c of this title.

(g) That with the exception of such Federal expenditures as may be made for unemployment relief, the State shall pay without assistance from the Federal Government the entire future cost of administering, developing, and managing all forest lands acquired and over which it has been given jurisdiction under sections 567a to 567c of this title.

(h) During the period any cooperative agreement made under sections 567a to 567c of this title remains in force, one-half of the gross proceeds from all lands covered by said agreement and to which the United States holds title shall be paid by the State to the United States and covered into the Treasury. All such payments shall be credited to the purchase price the State is to pay the United States for said land, such purchase price to be an amount equal to the total sum expended by the United States in acquiring said lands. Upon payments of the full purchase price, either as herein provided or otherwise, title to said lands shall be transferred from the Federal Government to the State, and the Secretary of Agriculture is authorized to take such action and incur such expenditures, as may be necessary to effectuate such transfer.

(i) Upon the request of the State concerned, any agreement made pursuant to sections 567a to 567c of this title may be terminated by the Secretary of Agriculture. The Secretary of Agriculture may, with the consent and approval of the National Forest Reservation Commission, after due notice given the State and an opportunity for hearing by said Commission, terminate any such agreement for violations of its terms and/or the provisions of said sections of this title. If such agreement is terminated, the United States shall reimburse the State for so much of the State funds as have been expended in the administration, development, and management of the lands involved as the Secretary of Agriculture may decide to be fair and equitable.

(j) The State shall furnish the Secretary of Agriculture with such annual, periodic, or special reports as he may require respecting the State's operations under its agreement with him.

(k) When a State or political unit thereof acquires under tax delinquency laws title to forest lands without cost to the United States and which lands are included within a State or other public forest, the Secretary of Agriculture, on behalf of the Federal Government, may contribute annually out of any funds made available under sections 567a to 567c of this title not to exceed one-half the cost of administering, developing, and managing said lands.

§ 568e. Assistance to States for tree planting and reforestation

(a) Declaration of policy

The Congress finds and declares that building up and maintaining a level of timber growing stocks adequate to meet the Nation's domestic needs for a dependable future supply of industrial wood is essential to the public welfare and security; that assisting in improving and protecting the more than fifty million acres of idle non-Federal and Federal lands for this purpose would not only add to the economic strength of the Nation, but also bring increased public benefits from other values associated with forest cover; and that it is the policy of the Congress that the Secretary of Agriculture in order to encourage, promote, and assure fully adequate future resources of readily available timber should assist the States in undertaking needed programs of tree planting.

(b) Plan for forest land tree planting and reforestation

Any State forester or equivalent State official may submit to the Secretary of Agriculture a plan for forest land tree planting and reforestation for the purpose of effecting the policy hereinbefore stated.

(c) Approval of plan by Secretary of Agriculture; advice, technical assistance, and financial contributions; limitation on contributions

When the Secretary of Agriculture has approved the plan, he is authorized and directed to assist the State in carrying out such plan, which assistance may include giving of advice and technical assistance and furnishing financial contributions: *Provided,* That, for the non-Federal forest land tree planting and reforestation, the financial contribution expended by the Federal Government during any fiscal year to assist the State to carry out the plan shall not exceed the amount expended by the State for the same purposes during the same fiscal year, and the Secretary of Agriculture is authorized to make financial contributions on the certificate of the State official in charge of the administration of the plan as to the amount of expenditures made by the State.

(d) Cooperation of Federal agencies and State foresters

In any plan that coordinates forest lands under the jurisdiction of any Federal agency other than the Department of Agriculture, the Secretary of Agriculture shall obtain the cooperation and assistance of the Federal agency having jurisdiction and the appropriate State forester in the approval and carrying out of the plan.

(e) Rules and regulations

The Secretary of Agriculture may prescribe such rules and regulations as may be appropriate to carry out the purposes of this section.

(f) Authorization of appropriations

There are authorized to be appropriated such sums as may be necessary to carry out the objects of this section, such sums to remain available until expended.

L. 87-492, June 25, 1962, 76 Stat. 107, provided: "That the Congress recognizes that for many years the United States and certain States have cooperated in the production of tree planting stock for use in the reforestation of the public and private lands of the Nation; that the program of production of tree planting stock which was initiated and pursued under the Soil Bank Act (7 U.S.C. 1801 et seq.) [repealed] was

carried on under written agreements which provided for (a) cooperation between the Forest Service, on behalf of the United States, and the States which participated in the program, (b) payments to said States for costs and expenses incurred in the development of nursery facilities, (c) the holding of such funds by the States in trust for the purpose of carrying out the provisions of said agreements, and (d) restoration to the trust fund of an amount equal to the residual value of any supplies, materials, equipment, or improvements acquired or constructed with trust funds and transferred to State forestry work other than the soil bank program; that such program under said Soil Bank Act has been discontinued, but the need for the trees continues to be great; that the States and Federal Government are cooperating in the procurement, production, and distribution of forest-tree seeds and plants under section 4 of the Clarke-McNary Act of June 7, 1924 (16 U.S.C. 567), and in the reforestation of lands under title IV of the Agricultural Act of 1956 (16 U.S.C. 568e and 568g); and that said participating States need the said supplies, materials, equipment, or improvements for use in connection with their respective forestry programs, and it is in the public interest to permit these States to use said property without the requirement that payment be made for the residual value thereof.

"SEC. 2. For the purpose of assisting those States which participated in the program carried on under the Soil Bank Act [section 1801 et seq. of Title 7, Agriculture] in continuing the production of needed tree planting stock and in other forestry programs, the Secretary of Agriculture is authorized to permit any supplies, materials, equipment, or improvements acquired or constructed with trust funds under the agreements referred to in section 1 to be used in such State forestry work as may further the objectives of related Federal programs, as he may approve, without the requirement that any payment be made by the State into the trust funds."

§ 569. Donations to United States of lands for timber purposes

To enable owners of lands chiefly valuable for the growing of timber crops to donate or devise such lands to the United States in order to assure future timber supplies for the agricultural and other industries of the State or for other national forest purposes, the Secretary of Agriculture is authorized, in his discretion, to accept on behalf of the United States title to any such land so donated or devised, subject to such reservations by the donor of the present stand of merchantable timber or of mineral or other rights for a period not exceeding twenty years as the Secretary of Agriculture may find to be reasonable and not detrimental to the purposes of this section, and to pay out of any moneys appropriated for the general expenses of the Forest Service the cost of recording deeds or other expenses incident to the examination and acceptance of title. Each elected local advisory board existing for such purpose on April 24, 1950, and recognized as such by the Department of Agriculture, shall continue to be the local advisory board for the unit or area it represents, until replaced by a local advisory board or boards constituted and elected as hereinafter provided.

(2) Each such local advisory board shall be constituted and elected under rules and regulations, consistent herewith, now or hereafter approved by the Secretary of Agriculture, and shall be recognized by him as representing the grazing permittees of the national forest or administrative subdivision thereof for which such local advisory board has been constituted and elected.

(3) Each such local advisory board shall consist of not less than three nor more than twelve members, who shall be national forest grazing permittees in the area for which such board is constituted, elected, and recognized. In addition, a wildlife representative may be appointed as a member of each such board by the State game commission, or the corresponding public body of the State in which the advisory board is located, to advise on wildlife problems.

(4) Each such local advisory board shall meet at least once annually, at a time to be fixed by such board, and at such other time or times as its members may determine, or on the call of the chairman thereof or of the Secretary of Agriculture or his authorized representative.

If as a result of this notice the Secretary of Agriculture shall receive any recommendation respecting the issuance of the proposed regulation and shall overrule, disregard, or modify any such regulations, he or his representative shall furnish in writing to the local advisory board his reasons for such action.

(2) Any such local advisory board may at any time recommend to the Secretary of Agricul-

The preamble to act Oct. 11, 1949, provided that:

"Whereas the national forests of the United States contain approximately eighty million acres of the Nation's commercial timber lands and approximately eighty-three million acres of the Nation's important grazing lands; and

"Whereas these national-forest lands comprise the principal source of water supply for domestic, irrigation, and industrial purposes for thousands of communities, farms, and industries, and good forest and other vegetative cover is essential for watershed protection; and

"Whereas these lands annually supply approximately four billion board-feet of forest products through twenty-seven thousand sales transactions and the demand for national forest timber is steadily increasing; and

"Whereas these lands are the sole or main source of summer range for ten million cattle and sheep grazed by thirty thousand livestock permittees whose livelihood is wholly or partially dependent upon livestock grazed on national-forest ranges; and

"Whereas these lands contain over four million acres of denuded and unsatisfactorily stocked timberlands

and an additional four million acres of seriously depleted range lands; and

"Whereas all of these lands are potentially capable of producing an important part of the timber and forage needs of local communities, and contributing to the protection of watersheds, thereby alleviating flood damage and insuring a continuing water supply, increasing opportunity for local employment, bringing greater stability to local communities, and increasing returns to counties in the national forests from their share of national forests receipts, together with other benefits; and

"Whereas these lands will not restock or revegetate satisfactorily or within a reasonable time except through reforestation and revegetation or other measures to induce restocking or revegetation; and

"Whereas it is practical to reforest these denuded and unsatisfactorily stocked timber lands and revegetate these seriously depleted range lands in a period of fifteen years; and

"Whereas it is necessary to provide reasonable continuity of reforestation and revegetation programs in order to insure effective, efficient, and economical operations: Therefore be it".

§ 581k. Authorization of appropriations for reforestation and revegetation

For the purpose of carrying out the provisions of this joint resolution on national-forest lands and other lands under the administration or control of the Forest Service of the Department of Agriculture, including the acquisition of land or interests therein for nurseries, there is authorized to be appropriated to remain available until December 31 of the ensuing fiscal year, $3,000,000 for the fiscal year ending June 30, 1951; $5,000,000 for the fiscal year ending June 30, 1952; $7,000,000 for the fiscal year ending June 30, 1953; $8,000,000 for the fiscal year ending June 30, 1954; $10,000,000 for the fiscal year ending June 30, 1955; a like amount for each subsequent year through the fiscal year ending June 30, 1965, and thereafter such amounts as may be needed for reforestation; and $1,500,000 for the fiscal year ending June 30, 1951; $1,750,000 for the fiscal year ending June 30, 1952; $2,000,000 for the fiscal year ending June 30, 1953; $2,500,000 for the fiscal year ending June 30, 1954; $3,000,000 for the fiscal year ending June 30, 1955; a like amount for each subsequent year through the fiscal year ending June 30, 1965, and thereafter such amounts as may be needed for range revegetation.

SUBCHAPTER III—RESEARCH PROGRAMS

§ 582a. Congressional findings

It is recognized that research in forestry is the driving force behind progress in developing and utilizing the resources of the Nation's forest and related rangelands. The production, protection, and utilization of the forest resources depend on strong technological advances and continuing development of the knowledge necessary to increase the efficiency of forestry practices and to extend the benefits that flow from forest and related rangelands. It is recognized that the total forestry research efforts of the several State colleges and universities and of the Federal Government are more fully effective if there is close coordination between such programs, and it is further recognized that forestry schools are especially vital in the training of research workers in forestry.

(Pub. L. 87-788, § 1, Oct. 10, 1962, 76 Stat. 806.)

§ 582a-1. Cooperation by Secretary of Agriculture with States; assistance: plans, eligible institutions and amount

In order to promote research in forestry, the Secretary of Agriculture is authorized to cooperate with the several States for the purpose of encouraging and assisting them in carrying out programs of forestry research.

Such assistance shall be in accordance with plans to be agreed upon in advance by the Secretary and (a) land-grant colleges or agricultural experiment stations established under the Morrill Act of July 2, 1862, as amended [7 U.S.C. 301 et seq.], and the Hatch Act of March 2, 1887, as amended [7 U.S.C. 361a et seq.], and (b) other State-supported colleges and universities offering graduate training in the sciences basic to forestry and having a forestry school; however, an appropriate State representative designated by the State's Governor shall, in any agreement drawn up with the Secretary of Agriculture for the purposes of this subchapter, certify those eligible institutions of the State which will qualify for assistance and shall determine the proportionate amounts of assistance to be extended these certified institutions.

Funds appropriated and made available to the States under this subchapter shall be in addition to allotments or grants that may be made under other authorizations.

The Secretary is authorized to make such expenditures on the certificate of the appropriate official of the college or university having charge of the forestry research for which the expenditures as herein provided are to be made. If any or all of the colleges or universities certified for receipt of funds under this subchapter fails to make available and budget for expenditure for forestry research in any fiscal year sums at least as much as the amount for which it would be eligible for such year under this subchapter, the difference between the Federal funds available and the funds made available and budgeted for expenditure by the college or university shall be reapportioned by the Secretary to other eligible colleges or universities of the same State if there be any which qualify therefor and, if there be none, the Secretary shall reapportion such differences to the qualifying colleges and universities of other States participating in the forestry research program.

SUBCHAPTER IV—SUSTAINED-YIELD FOREST MANAGEMENT

§ 583. Establishment of sustained-yield units to stabilize forest industries, employment, communities and taxable wealth

In order to promote the stability of forest industries, of employment, of communities, and of taxable forest wealth, through continuous supplies of timber; in order to provide for a continuous and ample supply of forest products; and in order to secure the benefits of forests in maintenance of water supply, regulation of stream flow, prevention of soil erosion, amelioration of climate, and preservation of wildlife, the Secretary of Agriculture and the Secretary of the Interior are severally authorized to establish by formal declaration, when in their respective judgments such action would be in the public interest, cooperative sustained-yield units which shall consist of federally owned or administered forest land under the jurisdiction of the Secretary establishing the unit and, in addition thereto, land which reasonably may be expected to be made the subject of one or more of the cooperative agreements with private landowners authorized by section 583a of this title.

(Mar. 29, 1944, ch. 146, § 1, 58 Stat. 132.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 583a, 583d of this title.

§ 583a. Cooperative agreements with private owners; privileges of private owners; recordation of agreements

The Secretary of Agriculture, with respect to forest land under his jurisdiction, and the Secretary of the Interior, with respect to forest land under his jurisdiction, are severally authorized, for the purposes specified in section 583 of this title, to enter into cooperative agreements with private owners of forest land within a cooperative sustained-yield unit, established pursuant to said section, providing for the coordinated management of such private forest land and of federally owned or administered forest lands within the sustained-yield unit involved. Each cooperative agreement may give the cooperating private landowner the privilege of purchasing without competitive bidding at prices not less than their appraised value, subject to periodic readjustments of stumpage rates and to such other conditions and requirements as the Secretary may prescribe, timber and other forest products from federally owned or administered forest land within the unit, in accordance with the provisions of sustained-yield management plans formulated or approved by the Secretary for the unit; shall limit the time, rate, and method of cutting or otherwise harvesting timber and other forest products from the land of the cooperating private landowner, due consideration being given to the character and condition of the timber, to the relation of the proposed cutting to the sustained-yield plan for the unit, and to the productive capacity of the land; shall prescribe the terms and conditions, but not the price, upon which the cooperating private landowner may sell to any person timber and other forest products from his land, compliance by the purchaser with such conditions to be required by the contract of sale; shall contain such provisions as the Secretary deems necessary to protect the reasonable interest of other owners of forest land within the unit; and shall contain such other provisions as the Secretary believes necessary to carry out the purposes of this subchapter.

Each cooperative agreement shall be placed on record in the county or counties in which the lands of the cooperating private landowner covered thereby are located, and the costs incident to such recordation may be paid out of any funds available for the protection or management of federally owned or administered

forest land within the unit. When thus recorded, the agreement shall be binding upon the heirs, successors, and assigns of the owner of such land, and upon purchasers of timber or other forest products from such land, throughout the life of such cooperative agreement.

(Mar. 29, 1944, ch. 146, § 2, 58 Stat. 132.)

§ 583b. Establishment of sustained-yield units to stabilize sale of timber and forest products

The Secretary of Agriculture and the Secretary of the Interior are further severally authorized, whenever in their respective judgments the maintenance of a stable community or communities is primarily dependent upon the sale of timber or other forest products from federally owned or administered forest land and such maintenance cannot effectively be secured by following the usual procedures in selling such timber or other forest products, to establish by formal declaration for the purpose of maintaining the stability of such community or communities a sustained-yield unit consisting of forest land under the jurisdiction of the Secretary establishing such unit, to determine and define the boundaries of the community or communities for whose benefit such unit is created, and to sell, subject to such conditions and requirements as the Secretary believes necessary, federally owned or administered timber and other forest products from such unit without competitive bidding at prices not less than their appraised values, to responsible purchasers within such community or communities.

(Mar. 29, 1944, ch. 146, § 3, 58 Stat. 133.)

Each of the said Secretaries is further authorized in his discretion to enter into cooperative agreements with the other Secretary, or with any Federal agency having jurisdiction over federally owned or administered forest land, or with any State or local agency having jurisdiction over publicly owned or administered forest land, providing for the inclusion of such land in any coordinated plan of management otherwise authorized by the provisions of this subchapter when by such a cooperative agreement he may be aided in accomplishing the purposes of this subchapter; but no federally or publicly owned or administered forest land not under the jurisdiction of the Secretary establishing the sustained-yield unit concerned shall be included in any such plan except in pursuance of a cooperative agreement made under this section.

(Mar. 29, 1944, ch. 146, § 4, 58 Stat. 133.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 583d of this title.

This notice shall state: (1) the location of the proposed unit; (2) the name of each proposed cooperator; (3) the duration of the proposed cooperative agreement or agreements; (4) the location and estimated quantity of timber on the land of each proposed cooperator and on the Federal land involved; (5) the expected rate of cutting of such timber; and (6) the time and place of a public hearing to be held not less than thirty days after the first publication of said notice for the presentation of the advantages and disadvantages of the proposed action to the community or communities affected.

Before any sale agreement made without competition and involving more than $500 in stumpage value of federally owned or administered timber shall be entered into under this subchapter, advance notice thereof shall be given by publication once weekly for four consecutive weeks in one or more newspapers of general circulation in the vicinity of the place where the timber is located, and the costs incident to such publication may be paid out of any funds available for the protection or management of federally owned or administered forest land within the unit concerned. This notice shall state: (1) the quantity and appraised value of the timber; (2) the time and place of a public hearing to be held not less than thirty days after the first publication of said notice if requested by the State or county where the timber is located or by any other person deemed to have a reasonable interest in the proposed sale or in its terms; and (3) the place where any request for a public hearing shall be made. Such requests need be considered only if received at the place designated in the notice not later than fifteen days after the first publication of such notice. If a request for a hearing is received within the time designated, notice of the holding of the hearing shall be given not less than ten days before the time set for such hearing, in the same manner as provided for the original notice.

The determination made by the Secretary having jurisdiction upon the proposals considered at any such hearing, which determination may include the modification of the terms of such proposals, together with the minutes or other record of the hearing, shall be available for public inspection during the life of any coordinated plan of management or agreement entered into in consequence of such determination.

The powers conferred under this section and sections 590h, 590i, and 590j to 590n of this title shall be used to assist voluntary action calculated to effectuate the purposes specified in this section. Such powers shall not be used to discourage the production of supplies of foods and fibers sufficient to maintain normal domestic human consumption as determined by the Secretary from the records of domestic human consumption in the years 1920 to 1929, inclusive, taking into consideration increased population, quantities of any commodity that were forced into domestic consumption by decline in exports during such period, current trends in domestic consumption and exports of particular commodities, and the quantities of substitutes available for domestic consumption within any general class of food commodities. In carrying out the purposes of this section due regard shall be given to the maintenance of a continuous and stable supply of agricultural commodities adequate to meet consumer demand at prices fair to both producers and consumers.

§ 590h. Payments and grants of aid

(a) Repealed. Pub. L. 87-703, title I, § 101(2), Sept. 27, 1962, 76 Stat. 605

(b) Payments and grants of aid; local, county, State committees; rules and regulations; rural environmental protection contracts: terms and conditions, period, modification or termination

The Secretary shall have power to carry out the purposes specified in clauses (1), (2), (3), (4), (5), and (6) of section 590g(a) of this title by making payments or grants of other aid to agricultural producers, including tenants and sharecroppers, in amounts determined by the Secretary to be fair and reasonable in connection with the effectuation of such purposes during the year with respect to which such payments or grants are made, and measured by (1) their treatment or use of their land, or a part thereof, for soil restoration, soil conservation, the prevention of erosion, or the prevention or abatement of agriculture-related pollution; (2) changes in the use of their land; (3) their equitable share, as determined by the Secretary, of the normal national production of any commodity or commodities required for domestic consumption; (4) their equitable share, as determined by the Secretary, of the national production of any commodity or commodities required for domestic consumption and exports adjusted to reflect the extent to which their utilization of cropland on the farm conforms to farming practices which the Secretary determines will best effectuate the purposes specified in section 590g(a) of this title; or (5) any combination of the above. Clauses (1) and (2) above shall be construed to cover water conservation and the beneficial use of water on individual farms, including measures to prevent run-off, the building of check dams and ponds, and providing facilities for applying water to the land. In determining the amount of any payment or grant measured by (1) or (2) the Secretary shall take into consideration the productivity of the land affected by the farming practices adopted during the year with respect to which such payment is made. In carrying out the provisions of this section in the States of the Union, except Alaska, the Secretary is directed to utilize the services of local and State committees selected as hereinafter provided. The Secretary shall designate local administrative areas as units for administration of programs under this section. No such local area shall include more than one county or parts of different counties. Farmers within any such local administrative area, and participating or cooperating in programs administered within such area, shall elect annually from among their number a local committee of not more than three members for such area. The members of the local committees shall, in a county convention, nominate and elect a county committee which shall consist of three members who are farmers in the county. At the first county convention held on or after January 1, 1965, one member of the county committee shall be elected for one year; one member shall be elected for two years; and one member shall be elected for three years. Thereafter, each member of a county committee shall be elected for a term of three years. No member of the county committee shall be elected for more than three consecutive terms (exclusive of any term which began prior to January 1, 1965). The local committee shall select a secretary and may utilize the county agricultural extension agent for such purpose. The county committee shall select a secretary who may be the county agricultural extension agent. If such county agricultural extension agent shall not have been elected secretary of such committee, he shall be ex officio a member of the county committee. The county agricultural extension agent shall not have the power to vote. In any county in which there is only one local committee the local committee shall also be the county committee. In each State there shall be a State committee for the State composed of not less

than three or more than five farmers who are legal residents of the State and who are appointed by the Secretary. The State director of the Agricultural Extension Service shall be ex officio a member of such State committee. The ex officio members of the county and State committees shall be in addition to the number of members of such committees hereinbefore specified. The Secretary shall make such regulations as are necessary relating to the selection and exercise of the functions of the respective committees, and to the administration, through such committees, of such programs. In carrying out the provisions of this section, the Secretary shall, as far as practicable, protect the interests of tenants and sharecroppers; is authorized to utilize the agricultural extension service and other approved agencies; shall accord such recognition and encouragement to producer-owned and producer-controlled cooperative associations as will be in harmony with the policy toward cooperative associations set forth in existing Acts of Congress and as will tend to promote efficient methods of marketing and distribution; shall not have power to acquire any land or any right or interest therein; shall, in every practicable manner, protect the interests of small producers; and shall in every practical way encourage and provide for soil-conserving and soil-rebuilding practices rather than the growing of soil-depleting crops. Rules and regulations governing payments or grants under this subsection shall be as simple and direct as possible, and, wherever practicable, they shall be classified on two bases: (a) Soil-depleting crops and practices, (b) soil-building crops and practices.

Notwithstanding any other provision of law, in making available conservation materials consisting of seeds, seed inoculants, fertilizers, liming and other soil-conditioning materials, trees, or plants, or in making available soil-conserving and soil-building services or pollution prevention or abatement aids, to agricultural producers under this subsection, the Secretary may make payments, in advance of determination of performance by the producers, to persons who will purchase orders covering approved conservation materials or covering soil-conserving or soil-building services or pollution prevention or abatement aids, furnished to producers, or who render services to the Secretary in delivering to producers approved conservation materials, for the carrying out, by the producers, of soil-building or soil-conserving practices or pollution prevention or abatement practices approved by the Secretary. The price at which purchase orders for any conservation materials or services are filled may be limited to a fair price fixed in accordance with regulations prescribed by the Secretary.

Appropriations are authorized for the purchase in advance of the program year for which the appropriation is made of seeds, fertilizers, lime, trees, or any other farming materials or any soil-terracing services, and making grants thereof to agricultural producers to aid them in carrying out farming practices approved by the Secretary in programs under this chapter; for the reimbursement of any Federal, State, or local government agency for fertilizers, seeds, lime, trees, or other farming materials, or any soil-terracing services, furnished by such agency; and for the payment of all expenses necessary in making such grants, including all or part of the costs incident to the delivery thereof.

In carrying out the purposes of subsection (a) of section 590g of this title, the Secretary may enter into agreements with agricultural producers for periods not to exceed ten years, on such terms and conditions as the Secretary deems desirable, creating obligations in advance of appropriations not to exceed such amounts as may be specified in annual appropriation Acts. Such agreements (i) shall be based on conservation plans approved by the soil and water conservation district or districts in which the lands described in the agreements are situated, and (ii) may be modified or terminated by mutual consent if the Secretary determines such action would be in the public interest. The Secretary also may terminate agreements if he determines such action to be in the national interest and provides public notice in ample time to give producers a reasonable opportunity to make arrangements for appropriate changes in the use of their land.

(c) Apportionment of acreage allotments

(1) In apportioning acreage allotments under this section in the case of wheat and corn, the National and State allotments and the allotments to counties shall be apportioned annually on the basis of the acreage seeded for the production of the commodity during the ten calendar years immediately preceding the calendar year in which the national acreage allotment is determined (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during the applicable period.

(2) In the case of wheat, the allotment to any county shall be apportioned annually by the Secretary, through the local committees, among the farms within such county on the basis of tillable acres, crop-rotation practices, type of soil, and topography. Not more than 3 per centum of such county allotment shall be apportioned to farms on which wheat has not been planted during any of the three marketing years immediately preceding the marketing year in which the allotment is made. Notwithstanding any other provision of this section, the allotments established, or which would have been established, for any farm acquired in 1940 or thereafter by the United States for national-defense purposes shall be placed in an allotment pool and shall be used only to establish allotments for other farms owned or acquired by the owner of the farm so acquired by the United States. The allotments so made for any farm, including a farm on which wheat has not been planted during any of the three marketing years preceding the marketing year in which the allotment is made, shall compare with the allotments established for other farms in the same area which are similar except for the past acreage of wheat.

(3) In the case of corn, the allotment to any county shall be apportioned annually by the Secretary, through the local committees, among the farms within such county on the

basis of tillable acreage, type of soil, topography, and crop rotation practices.

(4) Repealed. Apr. 10, 1939, ch. 48, 53 Stat. 573.

(5) In determining normal yield per acre for any county under this section in the case of wheat or corn, the normal yield shall be the average yield per acre therein for such commodity during the ten calendar years immediately preceding the calendar year in which such yield is determined, adjusted for abnormal weather conditions and trends in yields. If for any reason there is no actual yield, or the data therefor are not available for any year, then an appraised yield for such year, determined in accordance with regulations of the Secretary, shall be used. If, on account of drought, flood, insect pests, plant disease, or other uncontrollable natural cause, the yield in any year of such ten-year period is less than 75 per centum of the average (computed without regard to such year), such year shall be eliminated in calculating the normal yield per acre. Such normal yield per acre for any county need be redetermined only when the actual average yield for the ten calendar years immediately preceding the calendar year in which such yield is being reconsidered differs by at least 5 per centum from the actual average yield for the ten years upon which the existing normal yield per acre for the county was based.

(6) In determining normal yield per acre for any farm under this section in the case of wheat or corn, the normal yield shall be the average yield per acre thereon for such commodity during the ten calendar years immediately preceding the calendar year in which such yield is determined, adjusted for abnormal weather conditions and trends in yields. If for any such year the data are not available, or there is no actual yield, then the normal yield for the farm shall be appraised in accordance with regulations of the Secretary, taking into consideration abnormal weather conditions, the normal yield for the county, and the yield in years for which data are available.

(d) Conditions affecting payments or grants of aid

Any payment or grant of aid made under subsection (b) of this section shall be conditioned upon the utilization of the land, with respect to which such payment is made, in conformity with farming practices which the Secretary finds tend to effectuate any one or more of the purposes specified in clauses (1), (2), (3), (4), (5), or (6) of section 590g(a) of this title.

Any payment made under subsection (b) of this section with respect to any farm (except for lands which the Secretary determines should not be utilized for the harvesting of crops but should be permanently used for grazing purposes only) shall, if the number of cows kept on such farm, and in the county in which such farm is located, for the production of milk or products thereof (for market), exceeds the normal number of such cows, be further conditioned upon the utilization of the land, with respect to which such payment is made, so that soil-building and soil-conserving crops planted or produced on an acreage equal to the land normally used for the production of soil-depleting crops but, as a condition of such payment, not permitted to be so used, shall be used for the purpose of building and conserving the fertility of the soil, or for the production of agricultural commodities to be consumed on the farm, and not for market. Whenever it is determined that a county, as a whole, is in substantial compliance with the provisions of this paragraph, no payment shall be denied any individual farmer in the county by reason of this paragraph; and no payment shall be denied a farmer by reason of this paragraph unless it has been determined that the farmer has not substantially complied with the provisions of this paragraph. Whenever the Secretary finds that by reason of drought, flood, or other disaster, a shortage of feed exists in any area, he shall so declare, and to the extent and for the period he finds necessary to relieve such shortage, the operation of the condition provided in this paragraph shall be suspended in such area and, if necessary to relieve such shortage, in other areas defined by him. As used in this paragraph, the term "for market" means for disposition by sale, barter, or exchange, or by feeding (in any form) to dairy livestock which, or the products of which, are to be sold, bartered, or exchanged; and such term shall not include consumption on the farm. An agricultural commodity shall be deemed consumed on the farm if consumed by the farmer's family, employees, or household, or if fed to poultry or livestock other than dairy livestock on his farm; or if fed to dairy livestock on his farm and such dairy livestock, or the products thereof, are to be consumed by his family, employees, or household. Whenever the Secretary has reason to believe the income of producers of livestock (other than dairy cattle) or poultry in any area from such sources is being adversely affected by increases in the supply for market of such livestock or poultry, as the case may be, arising as a result of programs carried out under this chapter, he shall make an investigation with respect to the existence of such facts. If, upon investigation, the Secretary finds that the income of producers of such livestock or poultry, as the case may be, in any area from any such source is being adversely affected by such increases, he shall, as soon as practicable, make such provisions in the administration of this chapter, with respect to the use of diverted acres as he may find necessary to protect the interests of producers of such livestock or poultry in the affected area.

(e) Distribution of payments among landlords, tenants, and sharecroppers

Payments made by the Secretary to farmers under subsection (b) of this section shall be divided among the landlords, tenants, and sharecroppers of any farm, with respect to which such payments are made, in the same proportion that such landlords, tenants, and sharecroppers are entitled to share in the proceeds of the agricultural commodity with respect to which such payments are made, or, effective with respect to the 1942 and subsequent farm programs, in the event of acquisition of title to, or lease of, any farm for use in connection with the national war effort which caused the producers on such farms to lose, prior to the time of harvest, their interests in the crops planted thereon, or the proceeds thereof, payments with respect to such crops, to the extent that

71-999 O - 77 - 35

full compensation for the loss of payments with respect thereto in connection with such acquisition or lease was not made to such producers, shall be divided among the landlords, tenants, and sharecroppers on such farm in the proportion which it is determined that such producers would have been entitled to share in the proceeds of such crops but for such acquisition or lease: *Provided,* That payments based on soil-building or soil-conserving practices or agriculture-related pollution prevention or abatement practices shall be divided in proportion to the extent which such landlords, tenants, and sharecroppers contribute to the carrying out of such practices. Such payments shall be paid by the Secretary directly to the landlords, tenants, or sharecroppers entitled thereto, and shall be computed at rates which will permit the Secretary to set aside out of the funds available for the making of such payments for each year an amount sufficient to permit the increases herein specified to be made within the limits of the funds so available. If with respect to any farm the total payment to any person for any year would be:

(1) Not more than $20, the payment shall be increased by 40 per centum;

(2) More than $20 but not more than $40, the payment shall be increased by $8, plus 20 per centum of the excess over $20;

(3) More than $40 but not more than $60, the payment shall be increased by $12, plus 10 per centum of the excess over $40;

(4) More than $60 but not more than $186, the payment shall be increased by $14; or

(5) More than $186 but less than $200, the payment shall be increased to $200.

In the case of payments of more than $1, the amount of the payment which shall be used to calculate the 40-, 20-, and 10-per-centum increases under clauses (1), (2), and (3) of this paragraph shall not include that part, if any, of the payment which is a fraction of a dollar.

Beginning with the calendar year 1939, no total payment for any year to any person under subsection (b) of this section shall exceed $10,000. In the case of payments made to any individual, partnership, or estate on account of performance on farms in different States, Territories, or possessions, the $10,000 limitation shall apply to the total of the payments for each State, Territory, or possession, for a year and not to the total of all such payments.

Persons who carry out farming operations as tenants or sharecroppers on cropland owned by the United States Government and who comply with the terms and conditions of the conservation program, formulated pursuant to this section, and sections 590g, 590i, and 590j to 590q of this title, shall be entitled to apply for and receive payments, or to retain payments heretofore made, for their participation in said program to the same extent as other producers. Persons who carry out conservation practices on federally owned noncropland which directly conserve or benefit nearby or adjoining privately owned lands of such persons and who maintain and use such Federal land under agreement with the Federal agency having jurisdiction thereof and who comply with the terms and conditions of the agricultural conservation program formulated pursuant to this section, and sections 590g, 590i, and 590j to 590q of this title, shall be entitled to apply for and receive payments under such program to the same extent as other producers.

(f) Change between landlord and tenants or sharecroppers affecting landlord's payments

Any change in the relationship between the landlord and the tenants or sharecroppers, with respect to any farm, that would increase over the previous year the amount of payments or grants of other aid under subsection (b) of this section that would otherwise be made to any landlord shall not operate to increase such payment or grant to such landlord. Any reduction in the number of tenants below the average number of tenants on any farm during the preceding three years that would increase the payments or grants of other aid under such subsection that would otherwise be made to the landlord shall not hereafter operate to increase any such payment or grant to such landlord. Such limitations shall not apply if on investigation the local committee finds that the change is justified and approves such change in relationship or reduction. Such action of local committees shall be subject to approval or disapproval by State committees.

(g) Assignment of payment; procedure for assignment; rules and regulations

A payment which may be made to a farmer under this section, may be assigned, without discount, by him in writing as security for cash or advances to finance making a crop, handling or marketing an agricultural commodity, or performing a conservation practice. Such assignment shall be signed by the farmer and witnessed by a member of the county committee or by an employee of such committee, except that where the assignee is a bank whose deposits are insured by the Federal Deposit Insurance Corporation, the Farmers Home Administration, or a production credit association supervised by the Farm Credit Administration, such assignment may be witnessed by a bonded officer of the lending institution. Such assignment shall be filed with the county committee. Such assignment shall not be made to pay or secure any preexisting indebtedness. This provision shall not authorize any suit against or impose any liability upon the Secretary or any disbursing agent if payment to the farmer is made without regard to the existence of any such assignment. The Secretary shall prescribe such regulations as he determines necessary to carry out the provisions of this subsection.

Advances shall only be made to producers who are participating or who agree to participate in a program formulated pursuant to section 590h of this title. Except as otherwise provided in this subsection, the terms and conditions of such advances shall be fixed by the Secretary. In carrying out the provisions of this subsection, the Secretary may transfer to the Federal Crop Insurance Corporation, prior to the execution of applications for insurance or requests for advances by producers, the funds estimated as necessary to cover the advances which will be requested for the payment of premiums under a crop-insurance program, and any portion of such funds not used for advances to producers under such program shall be returned to the Secretary by the Federal Crop Insurance Corporation.

§ 590o. Authorization of appropriations for purposes of sections 590g and 590h; allocation of funds among commodities

To enable the Secretary of Agriculture to carry out the purposes of sections 590g and 590h of this title there is authorized to be appropriated for any fiscal year not exceeding $500,000,000.

The funds available for payments (after allowing for estimated administrative expenses, and not to exceed 5 per centum for payments with respect to range lands, noncrop pasture lands, and naval stores) shall be allocated among the commodities produced with respect to which payments or grants are to be computed. In allocating funds among the commodities the Secretary shall take into consideration and give equal weight to (1) the average acreages planted to the various commodities (including rotation pasture), for the ten years 1928 to 1937, adjusted for abnormal weather and other conditions, including acreage diverted from production under the agricultural adjustment and soil conservation programs; (2) the value at parity prices of the production from the allotted acreages of the various commodities for the year with respect to which the payment is made; (3) the average acreage planted to the various commodities during the ten years 1928 to 1937, including the acreage diverted from production under the agricultural adjustment and soil conservation programs, in excess of the allotted acreage for the year with respect to which the payment is made; and (4) the value based on average prices for the preceding ten years of the production of the excess acreage determined under item (3). The rate of payment used in making payments to the producers of each commodity shall be such that the estimated payments with respect to such commodity shall equal the amount of funds allocated to such commodity as herein provided. For the purpose of allocating funds and computing payments or grants the Secretary is authorized to consider as a commodity a group of commod-

ities or a regional or market classification of a commodity. For the purpose of computing payments or grants, the Secretary is authorized to use funds allocated to two or more commodities produced on farms of a designated regional or other classification to compute payments with respect to one of such commodities on such farms, and to use funds, in an amount equal to the estimated payments which would be made in any county, for making payments pursuant to a special program under section 590h of this title approved by the Secretary for such county: *Provided,* That farm acreage allotments shall be made for wheat in 1938, but in determining compliance wheat shall be considered in the group with other crops for which special acreage allotments are not made.

Notwithstanding the foregoing provisions of this section and the provisions of section 590g(g) of this title, programs of soil-building practices, soil- and water-conserving practices, and agriculture-related pollution prevention and abatement practices shall be based on a distribution of the funds available for payments and grants among the several States in accordance with their conservation needs, as determinated by the Secretary, except that the proportion allocated to any State shall not be reduced by more than 15 per centum from the distribution of such funds for the next preceding program year. In carrying out such programs, the Secretary shall give particular consideration to conservation problems on farm lands diverted from crops under acreage allotment programs and to the maintenance of a proper balance between soil conserving and soil depleting crops on the farm.

1954—Act Aug. 28, 1954, added last paragraph.

1938—Act Feb. 16, 1938, added paragraph beginning "The funds available".

EFFECTIVE DATE OF 1938 AMENDMENT

Section 105 of act Feb. 16, 1938, as amended by section 1 of act Apr. 7, 1938, provided that amendment of this act affecting this section, "shall first be effective with respect to farming operations carried out in the calendar year 1938. Notwithstanding such amendments, payments with respect to farming operations carried out in the calendar year 1938 and based upon any soil-depleting crop for which special acreage allotments are established shall be made at not less than 90 per centum of the rates announced by the Secretary prior to the enactment of this act. Nothing contained herein shall require reconstituting, for 1938, any county or other local committee which has been constituted prior to February 1, 1938."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 590h, 590h-4, 590n, 590p of this title; title 7 sections 1292, 1301, 1330, 1388, 1391, 1392; title 12 section 1150a.

§ 590p. Limitation on obligations incurred; Great Plains conservation program

(a) General limitation

The obligations incurred for the purpose of carrying out, for any calendar year, the provisions of sections 590g, 590h, 590i, and 590j to 590n of this title shall not exceed $500,000,000.

(b) Contracts with landowners in Great Plains area; purpose; timeliness; land use plans; costs; termination; wheat acreage; authorization of appropriations

Notwithstanding any other provision of law—

(1) The Secretary is authorized, within the amounts of such appropriations as may be provided therefor, to enter into contracts of not to exceed ten years with owners and operators of land in the Great Plains area having such control as the Secretary determines to be needed of the farms, ranches, or other lands covered thereby; but such contracts shall be entered into with respect to lands, other than farms or ranches, only where erosion is so serious as to make such contracts necessary for the protection of farm or ranch lands. Such contracts shall be designed to assist farm, ranch, or other land owners or operators to make, in orderly progression over a period of years, changes in their cropping systems or land uses which are needed to conserve, develop, protect, and utilize the soil and water resources of their farms, ranches, and other lands and to install the soil and water conservation measures and carry out the practices needed under such changed systems and uses. Such contracts may be entered into during the period ending not later than December 31, 1981, with respect to farms, ranches, and other lands in counties in the Great Plains area of the States of Colorado, Kansas, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, and Wyoming, designated by the Secretary as susceptible to serious wind erosion by reason of their soil types, terrain, and climatic and other factors. The land owner or operator shall furnish to the Secretary a plan of farming operations or land use which incorporates such soil and water conservation practices and principles as may be determined by him to be practicable for maximum mitigation of climatic hazards of the area in which such land is located, and which outlines a schedule of proposed changes in cropping systems or land use and of the conservation measures which are to be carried out on the farm, ranch, or other land during the contract period to protect the farm, ranch, or other land from erosion and deterioration by natural causes. Such plan may also include prac-

tices and measures for (a) enhancing fish and wildlife and recreation resources, (b) promoting the economic use of land, and (c) reducing or controlling agricultural related pollution. Inclusion in the farm plan of these practices shall be the exclusive decision of the land owner or operator. Approved conservation plans of land owners and operators developed in cooperation with the soil and water conservation district in which their lands are situated shall form a basis for contracts. Under the contract the land owner or operator shall agree—

(i) to effectuate the plan for his farm, ranch, or other land substantially in accordance with the schedule outlined therein unless any requirement thereof is waived or modified by the Secretary pursuant to paragraph (3) of this subsection;

(ii) to forfeit all rights to further payments or grants under the contract and refund to the United States all payments or grants received thereunder upon his violation of the contract at any stage during the time he has control of the land if the Secretary, after considering the recommendations of the soil and water conservation district board, determines that such violation is of such a nature as to warrant termination of the contract, or to make refunds or accept such payment adjustments as the Secretary may deem appropriate if he determines that the violation by the owner or operator does not warrant termination of the contract;

(iii) upon transfer of his right and interest in the farm, ranch, or other land during the contract period to forfeit all rights to further payments or grants under the contract and refund to the United States all payments or grants received thereunder unless the transferee of any such land agrees with the Secretary to assume all obligations of the contract;

(iv) not to adopt any practice specified by the Secretary in the contract as a practice which would tend to defeat the purposes of the contract;

(v) to such additional provisions as the Secretary determines are desirable and includes in the contract to effectuate the purposes of the program or to facilitate the practical administration of the program.

In return for such agreement by the landowner or operator the Secretary shall agree to share the cost of carrying out those conservation practices and measures set forth in the contract for which he determines that cost sharing is appropriate and in the public interest. The portion of such cost (including labor) to be shared shall be that part which the Secretary determines is necessary and appropriate to effectuate the physical installation of the conservation practices and measures under the contract;

(2) the Secretary may terminate any contract with a land owner or operator by mutual agreement with the owner or operator if the Secretary determines that such termination would be in the public interest, and may agree to such modification of contracts previously entered into as he may determine to be desirable to carry out the purposes of the program or facilitate the practical administration thereof or to accomplish equitable treatment with respect to other similar conservation, land use, or commodity programs administered by the Secretary;

(3), (4) Repealed. Pub. L. 89-321, title VI, § 602(g), Nov. 3, 1965, 79 Stat. 1208.

(5) in applying the provisions of paragraph (6) of section 1340 of title 7, relating to the reduction of storage amount of wheat, any acreage diverted from the production of wheat under the program carried out under this subsection shall be regarded as wheat acreage;

(6) the Secretary shall utilize the technical services of agencies of the Department of Agriculture in determining the scope and provisions of any plan and the acceptability of the plan for effectuating the purposes of the program. In addition the Secretary shall take into consideration programs of State and local agencies, including soil conservation districts, having for their purposes the objectives of maximum soil and water conservation;

(7) there is hereby authorized to be appropriated, without fiscal year limitations, such sums as may be necessary to carry out this subsection: *Provided,* That the total cost of the program (excluding administrative costs) shall not exceed $300,000,000, and for any program year payments shall not exceed $25,000,000. The funds made available for the program under this subsection may be expended without regard to the maximum payment limitation and small payment increases required under section 590h(e) of this title, and may be distributed among States without regard to distribution of funds formulas of section 590o of this title. The program authorized under this subsection shall be in addition to, and not in substitution of, other programs in such area authorized by this chapter or any other Act.

(c) 1961 agricultural conservation program

Notwithstanding any other provision of law—

(1) The Secretary shall formulate and carry out a special agricultural conservation program for 1961, without regard to provisions which would be applicable to the regular agricultural conservation program, under which, subject to such terms and conditions as the Secretary determines, conservation payments in amounts determined by the Secretary to be fair and reasonable shall be made to producers who divert acreage from the production of corn and grain sorghums to an approved conservation use and increase their average acreage devoted in 1959 and 1960 to designated soil conserving crops or practices by an equal amount: *Provided, however,* That any producer may elect in lieu of such payment to devote such diverted acreage to castor beans, safflower, sunflower, or sesame, if designated by the Secretary. Such special agricultural conservation program shall require the producer to take such measures as the Secretary may deem appropriate to keep such diverted acreage free from insects, weeds, and rodents. The acreage eligible for payments in cash or in an equivalent amount in kind under such

conservation program shall be an acreage equivalent to 20 per centum of the average acreage on the farm planted to corn and grain sorghums in the crop years 1959 and 1960 or up to twenty acres, whichever is greater. Such payments in cash or in kind at the basic county support rate may be made on an amount of corn and grain sorghums not in excess of 50 per centum of the normal production of the acreage diverted from corn and grain sorghums on the farm based on its average yield per acre for the 1959 and 1960 crop acreage. Payments in kind only may be made by the Secretary for the diversion of up to an additional 20 per centum of such corn and grain sorghum acreage. Payments in kind on such additional acreage may be made at the basic county support rate on an amount of corn and grain sorghums not in excess of 60 per centum of the normal production of the acreage diverted from corn and grain sorghums on the farm based on its average yield per acre for the 1959 and 1960 crop acreage. The Secretary may make such adjustments in acreage and yields for the 1959 and 1960 crop years as he determines necessary to correct for abnormal factors affecting production, and to give due consideration to tillable acreage, crop rotation practices, type of soil, and topography. The Secretary may make not to exceed 50 per centum of any payments to producers in advance of determination of performance.

(2) There are authorized to be appropriated such amounts as may be necessary to enable the Secretary to carry out this subsection. Obligations may be incurred in advance of appropriations therefor and the Commodity Credit Corporation is authorized to advance from its capital funds such sums as may be necessary to pay administrative expenses in connection with such program during the fiscal year ending June 30, 1961, and to pay such costs as may be included in carrying out section 3 of the Act which added this subsection to this Act.

(3) The Secretary shall provide by regulations for the sharing of payments under this subsection among producers on the farm on a fair and equitable basis and in keeping with existing contracts.

(d) 1962 agricultural conservation program

Notwithstanding any other provision of law—

(1) The Secretary shall formulate and carry out a special agricultural conservation program for 1962, without regard to provisions which would be applicable to the regular agricultural conservation program, under which, subject to such terms and conditions as the Secretary determines, conservation payments in amounts determined by the Secretary to be fair and reasonable shall be made to producers who divert acreage from the production of corn and grain sorghums, and barley, respectively, to an approved conservation use and increase their average acreage of cropland devoted in 1959 and 1960 to designated soil conservation crops or practices including summer fallow and idle land by an equal amount: *Provided,* That the Secretary may permit such diverted acreage to be devoted to the production of guar, sesame, safflower, sunflower, castor beans, other annual field crops for which price support is not made available, and flax, when such crops are not in surplus supply and will not be in surplus supply if permitted to be grown on the diverted acreage, subject to the condition that payment with respect to diverted acreage devoted to any such crop shall be at a rate determined by the Secretary to be fair and reasonable, taking into consideration the use of such acreage for the production of such crops, but in no event shall the payment exceed one-half the rate which would otherwise be applicable if such acreage were devoted to conservation uses and no price support shall be made available for the production of any such crop on such diverted acreage. In order to be eligible for a payment a producer (other than a producer of malting barley as described in section 105(c)(4) of the Agricultural Act of 1949, or a producer of barley on a summer-fallow farm as described in such section) who participates in the special agricultural conservation program of 1962 for corn and grain sorghums must not knowingly devote an acreage on the farm in excess of the average acreage devoted on the farm to barley in 1959 and 1960, and a producer who participates in the special agricultural conservation program for 1962 for barley must not knowingly devote an acreage on the farm to corn and grain sorghums in excess of the average acreage devoted on the farm to corn and grain sorghums in 1959 and 1960. The excess, if any, of the acreage devoted to barley in 1962 on a summer-fallow farm as described in section 105(c)(4) of the Agricultural Act of 1949 over the average acreage devoted to barley on such farm in 1959 and 1960 shall be considered as planted to corn and grain sorghums for the purpose of determining extent of participation and payments under the special agricultural conservation program for 1962 for corn and grain sorghums. Such special agricultural conservation program shall require the producer to take such measures as the Secretary may deem appropriate to keep such diverted acreage free from insects, weeds, and rodents. The acreage eligible for payments in cash or in an equivalent amount in kind under such conservation program shall be an acreage equivalent to 20 per centum of the average acreage on the farm planted to corn and grain sorghums, or barley, in the crop years 1959 and 1960 or up to twenty acres, whichever is greater. Such payments in cash or in kind at the basic county support rate for the 1961 crop in effect at the time payment rates for the special feed grain program for 1962 are established, adjusted to reflect any changes between the national support rates for the 1961 and 1962 crops may be made on an amount of the commodity not in excess of 50 per centum of the normal production of the acreage diverted from the commodity on the farm based on its adjusted average yield per acre for the 1959 and 1960 crop acreage. Payments in kind only may be made by the Secretary for the diversion of up to an additional 20 per centum of the average acreage on the farm planted to corn and grain sorghums, or barley, in the crop years 1959 and 1960. Pay-

ments in kind on such additional acreage may be made at the basic county support rate for the 1961 crop in effect at the time payment rates for the special feed grain program for 1962 are established, adjusted to reflect any changes between the national support rates for the 1961 and 1962 crops on an amount of corn and grain sorghums, or barley, not in excess of 60 per centum of the normal production of the acreage diverted from the commodity on the farm based on its adjusted average yield per acre for the 1959 and 1960 crop acreage. The Secretary may make such adjustments in acreage and yields for the 1959 and 1960 crop years as he determines necessary to correct for abnormal factors affecting production, and to give due consideration to tillable acreage, crop rotation practices, type of soil, soil and water conservation measures, and topography. To the extent that a producer proves the actual acreages and yields for the farm for the 1959 and 1960 crop years, such acreages and yields shall be used in making determinations. The Secretary may make not to exceed 50 per centum of any payments to producers in advance of determination of performance.

(2) There are authorized to be appropriated such amounts as may be necessary to enable the Secretary to carry out this subsection. Obligations may be incurred in advance of appropriations therefor and the Commodity Credit Corporation is authorized to advance from its capital funds such sums as may be necessary to pay administrative expenses in connection with such program during the fiscal year ending June 30, 1962, and to pay such costs as may be incurred in carrying out section 133 of the Agricultural Act of 1961.

(3) The Secretary shall provide by regulations for the sharing of payments under this subsection among producers on the farm on a fair and equitable basis and in keeping with existing contracts.

(e) Changes in cropping systems and land uses; agreements with retired resident landowners; land uses; safeguards; modification of prior agreements; regulations; transfer of funds; authorization of appropriations

(1)(A) For the purpose of promoting the conservation and economic use of land and of assisting farmers who because of advanced age, poor health, or other reasons, desire to retire from farming but wish to continue living on their farms, the Secretary, without regard to the foregoing provisions of this chapter, except those relating to the use of the services of State and local committees, is authorized to enter into agreements during the calendar years 1971, 1972, and 1973, to be carried out during such period not to exceed ten years as he may determine, with farm and ranch owners and operators providing for changes in cropping systems and land uses and for practices or measures to be carried out primarily on any lands owned or operated by them and regularly used in the production of crops (including crops such as tame hay, alfalfa, and clovers, which do not require annual tillage, and including lands covered by conservation reserve contracts under subtitle B of the Soil Bank Act) for the purpose of conserving and developing soil, water, forest, wildlife, and recreation resources. Such agreements shall include such terms and conditions as the Secretary may deem desirable to effectuate the purposes of this subsection and may provide for payments, the furnishing of materials and services, and other assistance in amounts determined by the Secretary to be fair and reasonable, in consideration of the obligations undertaken by the farm and ranch owners and operators and the rights acquired by the Secretary: *Provided,* That any agreements entered into under this section after July 1, 1970, shall prohibit grazing of such acreage.

(B) Such acreage may be devoted to approved wildlife food plots or fish and wildlife habitat which are established in conformity with standards developed by the Secretary in consultation with the Secretary of the Interior, and the Secretary may compensate producers for such practices. The Secretary may also provide for payment in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit access, without other compensation, to all or such portion of the farm as the Secretary may prescribe by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations. The Secretary after consultation with the Secretary of the Interior shall appoint an Advisory Board consisting of citizens knowledgeable in the fields of agriculture and wildlife with whom he may consult on the wildlife practice phase of programs under this subsection, and the Secretary may compensate members of the Board and reimburse them for per diem and traveling expenses. The Secretary shall invite the several States to participate in wildlife phases of programs under this subsection by assisting the Department of Agriculture in developing guidelines for (a) providing technical assistance for wildlife and habitat improvement practices, (b) reviewing applications of farmers for the public land use option and selecting eligible areas based on desirability of wildlife habitat, (c) determining accessibility, (d) evaluating effects on surrounding areas, (e) considering esthetic values, (f) checking compliance by cooperators, and (g) carrying out programs of wildlife stocking and management on the acreage set aside. The Secretary shall consult with the Secretary of the Interior regarding regulations to govern the administration of those aspects of this subparagraph (B) that pertain to wildlife. Funds are authorized to be appropriated to the Secretary of the Interior for use in assisting the State wildlife agencies to carry out the provisions of this subparagraph and in administering such assistance.

(2) No agreement shall be entered into under this subsection covering land with respect to which the ownership has changed in the two year period preceding the first year of the contract period unless (a) the new ownership was acquired by will or succession as a result of the death of the previous owner, (b) the land becomes a part of an existing farm or ranch, or (c) the land is combined with other land as a farming or ranching enterprise which the Secretary determines will effectuate the purposes of the program: *Provided,* That this provision shall not prohibit the continuation of an agree-

ment by a new owner after an agreement has once been entered into under this subsection. The foregoing provision shall not prevent a producer from placing a farm in the program if the farm was acquired by the producer to replace an eligible farm from which he was displaced because of its acquisition by any Federal, State, or other agency having the right of eminent domain.

(3) The Secretary shall provide adequate safeguards to protect the farming opportunities and interests of tenants and sharecroppers, including provision for sharing, on a fair and equitable basis, in payments under this subsection.

(4) The Secretary may agree to such modification of agreements previously entered into as he may determine to be desirable to carry out the purposes of this subsection or to facilitate the practical administration of the program carried out pursuant to this subsection. Any agreement may be terminated by mutual agreement with the producer if the Secretary determines that such termination would be in the public interest.

(5) The Secretary shall issue such regulations as he determines necessary to carry out the provisions of this subsection. The Secretary may if he determines that such action will contribute to the effective and equitable administration of the program use an advertising-and-bid procedure in determining the lands in any area to be covered by agreements. The total acreage placed under agreements in any county or local community shall be limited to a percentage of the total eligible acreage in such county or local community which the Secretary determines would not adversely affect the economy of the county or local community. In determining such percentage the Secretary shall give appropriate consideration to the productivity of the acreage being retired as compared to the average productivity of eligible acreage in the county or local community.

(6) For the purpose of obtaining an increase in the permanent retirement of cropland to noncrop uses the Secretary may, notwithstanding any other provision of law, transfer funds available for carrying out the program to any other Federal agency or to States or local government agencies for use in rural areas in acquiring cropland for the preservation of open spaces, natural beauty, the development of wildlife or recreational facilities, or the prevention of air or water pollution under terms and conditions consistent with and at costs not greater than those under agreements entered into with producers, provided the Secretary determines that the purpose of the program will be accomplished by such action. The Secretary also is authorized to share the cost with State and local governmental agencies and other Federal agencies in the establishment of practices or uses which will establish, protect, and conserve open spaces, natural beauty, wildlife or recreational resources, or prevent air or water pollution under terms and conditions and at costs consistent with those under agreements entered into with producers, provided the Secretary determines that the purposes of the program will be accomplished by such action. No appropriation shall be made for any agreement under this paragraph (6) involving an estimated total Federal payment in excess of $250,000 unless such agreement has been approved by resolution adopted by the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(7) There is authorized to be appropriated such sums as may be necessary to carry out this subsection. The Secretary is authorized to utilize the facilities, services, authorities, and funds of the Commodity Credit Corporation in discharging his functions and responsibilities under this subsection including payment of costs of administration for the program authorized under this subsection: *Provided,* That after June 30, 1972, the Commodity Credit Corporation shall not make any expenditures for carrying out the purposes of this subsection unless the Corporation has received funds to cover such expenditures from appropriations made to carry out the purposes of this subsection. In carrying out the program, the Secretary shall not during any of the fiscal years ending June 30, 1971, through June 30, 1973, or during the period June 30, 1973, to December 31, 1973, (A) enter into agreements with producers which would require payments to producers in any calendar year under such agreements in excess of $10,000,000 plus any amount by which agreements entered into in prior fiscal years require payments in amounts less than authorized for such years, or (B) enter into agreements with States or local agencies under paragraph (6) which would require payments to such State or local government agencies in any calendar year under such agreements in excess of $10,000,000 plus any amount by which agreements entered into in prior fiscal years require payments in amounts less than authorized for such years. For purposes of applying the foregoing limitations, the annual payment shall be chargeable to the year in which performance is rendered regardless of the year in which it is made.

(f) Use of Commodity Credit Corporation in producer disbursements

The Secretary is authorized to use the services, facilities, and authorities of Commodity Credit Corporation for the purpose of making disbursements to producers under programs formulated pursuant to section 590h of this title and subsection (e) of this section: *Provided,* That no such disbursements shall be made by Commodity Credit Corporation unless it has received funds to cover the amount thereof from appropriations available for the purpose of carrying out such programs.

(g) 1963 agricultural conservation program

Notwithstanding any other provision of law—

(1) The Secretary shall formulate and carry out a special agricultural conservation program for 1963, without regard to provisions which would be applicable to the regular agricultural conservation program, under which, subject to such terms and conditions as the Secretary determines, conservation payments in amounts determined by the Secretary to be fair and reasonable shall be made to producers who divert acreage from the production of corn, grain sorghums, and barley to an ap-

proved conservation use and increase their average acreage of cropland devoted in 1959 and 1960 to designated soil-conserving crops or practices including summer fallow and idle land by an equal amount: *Provided*, That the Secretary may permit such diverted acreage to be devoted to the production of guar, sesame, safflower, sunflower, castor beans, and flax, when such crops are not in surplus supply and will not be in surplus supply if permitted to be grown on the diverted acreage, subject to the condition that payment with respect to diverted acreage devoted to any such crop shall be at a rate determined by the Secretary to be fair and reasonable, taking into consideration the use of such acreage for the production of such crops, but in no event shall the payment exceed one-half the rate which would otherwise be applicable if such acreage were devoted to conservation uses and no price support shall be made available for the production of any such crop on such diverted acreage. Such special agricultural conservation program shall require the producer to take such measures as the Secretary may deem appropriate to keep such diverted acreage free from erosion, insects, weeds, and rodents. The acreage eligible for payments in cash or in an equivalent amount in kind under such conservation program shall be an acreage equivalent to 20 per centum of the average acreage on the farm planted to corn, grain sorghums, and barley in the crop years 1959 and 1960 or up to twenty-five acres, whichever is greater. Payments in kind only may be made by the Secretary for the diversion of up to an additional 30 per centum of the average acreage on the farm planted to corn, grain sorghums, and barley, in the crop years 1959 and 1960. Payments may be made at the basic county support rate for the 1962 crop in effect at the time payment rates for the special feed grain program for 1963 are established, adjusted to reflect any changes between the national support rates for the 1962 and 1963 crops on an amount of the commodity not in excess of 50 per centum of the normal production of the acreage diverted from the commodity on the farm based on its adjusted average yield per acre for the 1959 and 1960 crop acreage. The Secretary may make such adjustments in acreage and yields for the 1959 and 1960 crop years as he determines necessary to correct for abnormal factors affecting production, and to give due consideration to tillable acreage, crop rotation practices, type of soil, soil and water conservation measures, and topography. The Secretary may also make such adjustments in yields as he determines necessary to reflect any increases in yields since the 1959 and 1960 crop years as the result of the adoption or the improvement of an irrigation system if such improvement or adoption of such irrigation system was made prior to the effective date of this sentence but such adjustment in yields shall apply only to payments with respect to acreage diverted pursuant to the requirements of section 105(c)(6) of the Agricultural Act of 1949, as amended. To the extent that a producer proves the actual acreages and yields for the farm for the 1959 and 1960 crop years, such acreages and yields shall be used in making determinations. The Secretary may make not to exceed 50 per centum of any payments to producers in advance of determination of performance. Notwithstanding any other provision of this subsection (g)(1), barley shall not be included in the program for a producer of malting barley exempted pursuant to section 105(c)(6) of the Agricultural Act of 1949 who participates only with respect to corn and grain sorghums and does not knowingly devote an acreage on the farm to barley in excess of 110 per centum of the average acreage devoted on the farm to barley in 1959 and 1960.

(2) There are authorized to be appropriated such amounts as may be necessary to enable the Secretary to carry out this subsection. Obligations may be incurred in advance of appropriations therefor and the Commodity Credit Corporation is authorized to advance from its capital funds such sums as may be necessary to pay administrative expenses in connection with such program during the fiscal year ending June 30, 1963, and to pay such costs as may be incurred in carrying out section 303 of the Food and Agriculture Act of 1962.

(3) The Secretary shall provide by regulations for the sharing of payments under this subsection among producers on the farm on a fair and equitable basis and in keeping with existing contracts.

(h) 1964 and 1965 feed grain crops; acreage diversion program; maximum reserves; authorization of appropriations; regulations; payments in kind; termination or modification of prior agreements

Notwithstanding any other provision of law—

(1) For the 1964 crop and the 1965 crop of feed grains, if the Secretary determines that the total supply of feed grains will, in the absence of an acreage diversion program, likely be excessive, taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices of feed grains and to meet any national emergency, he may formulate and carry out an acreage diversion program for feed grains, without regard to provisions which would be applicable to the regular agricultural conservation program, under which, subject to such terms and conditions as the Secretary determines, conservation payments in amounts determined by the Secretary to be fair and reasonable shall be made to producers who divert acreage from the production of feed grains to an approved conservation use and increase their average acreage of cropland devoted in 1959 and 1960 to designated soil-conserving crops or practices including summer fallow and idle land by an equal amount. Payments shall not be made in amounts in excess of 50 per centum of the estimated basic county support rate, including that part of the support price made available through payments in kind, on the normal production of the acreage diverted from the commodity on the farm based on its adjusted average yield per acre. Notwithstanding the foregoing provisions, the Secretary may permit such diverted acreage to be devoted to the production of guar, sesame, safflower, sunflower, castor beans, mustard

seed, and flax, if he determines that such crops are not in surplus supply and will not be in surplus supply if permitted to be grown on the diverted acreage, subject to the conditions that payment with respect to diverted acreage devoted to any such crop shall be at a rate determined by the Secretary to be fair and reasonable, taking into consideration the use of such acreage for the production of such crops, but in no event shall the payment exceed one-half the rate which would otherwise be applicable if such acreage were devoted to conservation uses, and no price support shall be made available for the production of any such crop on such diverted acreage. The base period for the purpose of determining the adjusted average yield in the case of payments with respect to the 1964 crop shall be the four-year period 1959–1962, and in the case of payments with respect to the 1965 crop shall be the five-year period 1959–1963. The term "feed grains" means corn, grain sorghums, barley, and, if for any crop the producer so requests for purposes of having acreage devoted to the production of wheat considered as devoted to the production of feed grains, pursuant to the provisions of section 1339c of title 7 the term "feed grains" shall include oats and rye: *Provided,* That acreages of corn, grain sorghums, and barley shall not be planted in lieu of acreages of oats and rye: *Provided further,* That the acreage devoted to the production of wheat shall not be considered as an acreage of feed grains for purposes of establishing the feed grain base acreage for the farm for subsequent crops. Such feed grain diversion program shall require the producer to take such measures as the Secretary may deem appropriate to keep such diverted acreage free from erosion, insects, weeds, and rodents. The acreage eligible for participation in the program shall be such acreage (not to exceed 50 per centum of the average acreage on the farm devoted to feed grains in the crop years 1959 and 1960 or twenty-five acres, whichever is greater) as the Secretary determines necessary to achieve the acreage reduction goal for the crop. Payments shall be made in kind. The average acreage of wheat produced on the farm during the crop years 1959, 1960, and 1961, pursuant to the exemption provided in section 335(f) of the Agricultural Adjustment Act of 1938, prior to its repeal by the Food and Agriculture Act of 1962, in excess of the small farm base acreage for wheat established under section 1335 of title 7, shall be considered as an acreage of feed grains produced in the crop years of 1959 and 1960 for purposes of establishing the feed grain base acreage for the farm, and the rate of payment for diverting such wheat shall be an amount determined by the Secretary to be fair and reasonable in relation to the rates of payment for diverting feed grains. The Secretary may make such adjustments in acreage and yields as he determines necessary to correct for abnormal factors affecting production, and to give due consideration to tillable acreage, crop-rotation practices, types of soil, soil and water conservation measures, and topography. To the extent that a producer proves the actual acreages and yields for the farm, such acreages and yields shall be used in making determinations. Notwithstanding any other provision of this subsection (*l*)(1), [1] the Secretary may, upon unanimous request of the State committee established pursuant to section 590h(b) of this title, adjust the feed grain bases for farms within any State or county to the extent he determines such adjustment to be necessary in order to establish fair and equitable feed grain bases for farms within such State or county. The Secretary may make not to exceed 50 per centum of any payments to producers in advance of determination of performance: *Provided,* That in no event shall the Secretary in the crop years 1964 or 1965 make payments to any producers under this subsection and under section 105(d) of the Agricultural Act of 1949, as amended, in excess of 20 per centum of the fair market value of any acreage involved. Notwithstanding any other provision of this subsection (h)(1), barley shall not be included in the program for a producer of malting barley exempted pursuant to section 105(d) of the Agricultural Act of 1949 who participates only with respect to corn and grain sorghums and does not knowingly devote an acreage on the farm to barley in excess of 110 per centum of the average acreage devoted on the farm to barley in 1959 and 1960.

(2) Notwithstanding any other provision of this subsection, not to exceed 1 per centum of the estimated total feed grain bases for all farms in a State for any year may be reserved from the feed grain bases established for farms in the State for apportionment to farms on which there were no acreages devoted to feed grains in the crop years 1959 and 1960 on the basis of the following factors: Suitability of the land for the production of feed grains, the past experience of the farm operator in the production of feed grains, the extent to which the farm operator is dependent on income from farming for his livelihood, the production of feed grains on other farms owned, operated, or controlled by the farm operator, and such other factors as the Secretary determines should be considered for the purpose of establishing fair and equitable feed grain bases. An acreage equal to the feed grain base so established for each farm shall be deemed to have been devoted to feed grains on the farm in each of the crop years 1959 and 1960 for purposes of this subsection except that producers on such farm shall not be eligible for conservation payments for the first year for which the feed grain base is established.

(3) There are hereby authorized to be appropriated such amounts as may be necessary to enable the Secretary to carry out this subsection.

(4) The Secretary shall provide by regulations for the sharing of payments under this subsection among producers on the farm on a fair and equitable basis and in keeping with existing contracts.

(5) Payments in kind shall be made through the issuance of negotiable certificates which

[1] So in original. There is no subsection (*l*)(1); probably should be "subsection (h)(1)."

the Commodity Credit Corporation shall redeem for feed grains and, notwithstanding any other provision of law, the Commodity Credit Corporation shall, in accordance with regulations prescribed by the Secretary, assist the producer in the marketing of such certificates. In the case of any certificate not presented for redemption within thirty days of the date of its issuance, reasonable costs of storage and other carrying charges, as determined by the Secretary, for the period beginning thirty days after its issuance and ending with the date of its presentation for redemption shall be deducted from the value of the certificate. Feed grains with which Commodity Credit Corporation redeems certificates pursuant to this paragraph shall be valued at not less than the current support price, minus that part of the current support price made available through payments in kind, plus reasonable carrying charges.

(6) Notwithstanding any other provision of law, the Secretary may, by mutual agreement with the producer, terminate or modify any agreement previously entered into pursuant to this subsection if he determines such action necessary because of an emergency created by drought or other disaster, or in order to prevent or alleviate a shortage in the supply of feed grains.

(i) 1966 to 1970 feed grain crops; acreage diversion program; maximum reserves; authorization of appropriations; regulations; payments in kind; termination or modification of prior agreements

Notwithstanding any other provision of law—

(1) For the 1966 through 1970 crops of feed grains, if the Secretary determines that the total supply of feed grains will, in the absence of an acreage diversion program, likely be excessive, taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices of feed grains and to meet any national emergency, he may formulate and carry out an acreage diversion program for feed grains, without regard to provisions which would be applicable to the regular agricultural conservation program, under which, subject to such terms and conditions as the Secretary determines, conservation payments shall be made to producers who divert acreage from the production of feed grains to an approved conservation use and increase their average acreage of cropland devoted in 1959 and 1960 to designated soil-conserving crops or practices including summer fallow and idle land by an equal amount. Payments shall be made at such rate or rates as the Secretary determines will provide producers with a fair and reasonable return for the acreage diverted, but not in excess of 50 per centum of the estimated basic county support rate, including the lowest rate of payment-in-kind, on the normal production of the acreage diverted from the commodity on the farm based on the farm projected yield per acre. Notwithstanding the foregoing provisions, the Secretary may permit all or any part of such diverted acreage to be devoted to the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, and flaxseed, if he determines that such production of the commodity is needed to provide an adequate supply, is not likely to increase the cost of the price support program, and will not adversely affect farm income subject to the condition that payment with respect to diverted acreage devoted to any such crop shall be at a rate determined by the Secretary to be fair and reasonable, taking into consideration the use of such acreage for the production of such crops, but in no event shall the payment exceed one-half the rate which otherwise would be applicable if such acreage were devoted to conservation uses. The term "feed grains" means corn, grain sorghums, and, if designated by the Secretary, barley, and if for any crop the producer so requests for purposes of having acreage devoted to the production of wheat considered as devoted to the production of feed grains, pursuant to the provisions of section 1339c of title 7, the term "feed grains" shall include oats and rye and barley if not designated by the Secretary as provided above: *Provided,* That acreages of corn, grain sorghums, and, if designated by the Secretary, barley, shall not be planted in lieu of acreages of oats and rye and barley if not designated by the Secretary as provided above: *Provided further,* That the acreage devoted to the production of wheat shall not be considered as an acreage of feed grains for purposes of establishing the feed grain base acreage for the farm for subsequent crops. Such feed grain diversion programs shall require the producer to take such measures as the Secretary may deem appropriate to keep such diverted acreage free from erosion, insects, weeds, and rodents. The acreage eligible for participation in the program shall be such acreage (not to exceed 50 per centum of the average acreage on the farm devoted to feed grains in the crop years 1959 and 1960 or twenty-five acres, whichever is greater) as the Secretary determines necessary to achieve the acreage reduction goal for the crop. Payments shall be made in kind. The acreage of wheat produced on the farm during the crop years 1959, 1960, and 1961, pursuant to the exemption provided in section 335(f) of the Agricultural Adjustment Act of 1938, prior to its repeal by the Food and Agriculture Act of 1962, in excess of the small farm base acreage for wheat established under section 1335 of title 7, may be taken into consideration in establishing the feed grain base acreage for the farm. The Secretary may make such adjustments in acreage as he determines necessary to correct for abnormal factors affecting production, and to give due consideration to tillable acreage, crop-rotation practices, types of soil, soil and water conservation measures, and topography. Notwithstanding any other provision of this subsection (i)(1), the Secretary may, upon unanimous request of the State committee established pursuant to section 590h(b) of this title, adjust the feed grain bases for farms within any State or county to the extent he determines such adjustment to be necessary in order to establish fair and equitable feed grain bases for farms within such State or county. The Secretary may make not to exceed 50 per centum of any payments to producers in advance of determi-

nation of performance. Notwithstanding any other provision of this subsection, barley shall not be included in the program for a producer of malting barley exempted pursuant to section 105(e) of the Agricultural Act of 1949, who participates only with respect to corn and grain sorghums and does not knowingly devote an acreage on the farm to barley in excess of 110 per centum of the average acreage devoted on the farm to barley in 1959 and 1960.

(2) Notwithstanding any other provision of this subsection, not to exceed 1 per centum of the estimated total feed grain base for all farms in a State for any year may be reserved from the feed grain bases established for farms in the State for apportionment to farms on which there were no acreages devoted to feed grains in the crop years 1959 and 1960 on the basis of the following factors: Suitability of the land for the production of feed grains, the past experience of the farm operator in the production of feed grains, the extent to which the farm operator is dependent on income from farming for his livelihood, the production of feed grains on other farms owned, operated, or controlled by the farm operator, and such other factors as the Secretary determines should be considered for the purpose of establishing fair and equitable feed grain bases. An acreage equal to the feed grain base so established for each farm shall be deemed to have been devoted to feed grains on the farm in each of the crop years 1959 and 1960 for purposes of this subsection except that producers on such farm shall not be eligible for conservation payments for the first year for which the feed grain base is established.

(3) There are hereby authorized to be appropriated such amounts as may be necessary to enable the Secretary to carry out this subsection.

(4) The Secretary shall provide by regulations for the sharing of payments under this subsection among producers on the farm on a fair and equitable basis and in keeping with existing contracts.

(5) Payments in kind shall be made through the issuance of negotiable certificates which the Commodity Credit Corporation shall redeem for feed grains in accordance with regulations prescribed by the Secretary and, notwithstanding any other provision of law, the Commodity Credit Corporation shall, in accordance with regulations prescribed by the Secretary, assist the producer in the marketing of such certificates. Feed grains with which Commodity Credit Corporation redeems certificates pursuant to this paragraph shall be valued at not less than the current support price made available through loans and purchases, plus reasonable carrying charges.

(6) Notwithstanding any other provision of law, the Secretary may, by mutual agreement with the producer, terminate or modify any agreement previously entered into pursuant to this subsection if he determines such action necessary because of an emergency created by drought or other disaster, or in order to prevent or alleviate a shortage in the supply of feed grains.

(B).

Subsec. (e)(2). Pub. L. 91-524, § 801(6), authorized producers to place farms in the program if the farm was acquired by the producer to replace an eligible

farm from which he was displaced through the exercise of the right of eminent domain.

Subsec. (e)(3). Pub. L. 91-524, § 801(12), inserted "farming opportunities and" preceding "interests of tenants and sharecroppers".

Subsec. (e)(4). Pub. L. 91-524, § 801(7), authorized the termination of agreements by mutual agreement with the producer if the Secretary determines that such termination would be in the public interest.

Subsec. (e)(5). Pub. L. 91-524, § 801(8), authorized the Secretary to use an advertising-and-bid procedure in determining the lands in any area to be covered by agreements and added provision for a percentage limitation on the total acreage placed under agreement in any county or local community.

Subsec. (e)(6). Pub. L. 91-524, § 801(9), added subsec. (e)(6). A prior subsec. (e)(6) had been repealed by Pub. L. 89-321 in 1965.

Subsec. (e)(7). Pub. L. 91-524, § 801(10), (11), substituted "June 30, 1972" for "June 30, 1963" as the date after which the Commodity Credit Corporation may not make expenditures unless it has received funds to cover such expenditures from appropriations made to carry out the purposes of this subsection, extended through Dec. 31, 1973, the period during which the Secretary may not enter into agreements with producers which would require payments to producers in any calendar year under such agreements in excess of $10,000,000, and added provisions covering agreements with State and local agencies under par. (6).

1969—Subsec. (b)(1). Pub. L. 91-118, § 1, extended the Great Plains conservation program ten years beyond Dec. 31, 1971, to Dec. 31, 1981; authorized contracts, with respect to lands other than farms or ranches, only where erosion is so serious as to make such contracts necessary for protection of farms or ranch lands; authorized contracts designed to make changes (in cropping systems or land uses) needed to develop, protect, and utilize the resources of farms, ranches, and other lands; provided for carrying out the practices needed under such changed systems and uses and conservation measures on land other than farm or ranch land; authorized practices and measures in the plan for enhancing fish and wildlife and recreation resources, promoting economic use of land, and reducing or controlling agricultural related pollution as an exclusive decision of the land owner or operator; made the basis for contracts the approved conservation plans of land owners and operators developed in cooperation with the soil and water conservation district in which their lands are situated; and among other changes in the text preceding cl. (i), substituted "owners and operators of land in the Great Plains area having such control as the Secretary determines to be needed of the farms, ranches, or other lands" for "producers in the Great Plains area determined by him to have control for the contract period of the farm or ranches", "designed to assist farm, ranch, or other land-owners or operators" for "designed to assist farm and ranch operators", "cropping systems or land uses" and "cropping systems or land use" for "cropping systems and land uses" and "cropping systems and land uses" "land-owner or operator shall furnish to the Secretary a plan of farming operations or land use" for "producer shall furnish to the Secretary a plan of farming operations", "climatic hazards of the are in which such land" for "climatic hazards of the area in which the farm"; provided for the agreement to be by the land owner or operator rather than the producer; included in cl. (i) effectuation of the plan for other land; inserted in cl. (ii) ", after considering the recommendations of the soil and water conservation district board," and substituted "violation by the owner or operator" for "producer's violation"; included in cl. (iii) right and interest in other land and substituted "any such land" for "the farm or ranch"; and in the par. following par. (1) substituted "landowner or operator" for "producer" and inserted "and measures" following "conservation practices", in two instances.

Subsec. (b)(2). Pub. L. 91-118, § 2, substituted "land owner or operator" and "owner or operator" for "producer" and authorized the Secretary to agree to such modification of contracts previously entered into as he may determine to be desirable to accomplish equitable treatment with respect to other similar conservation, land use, or commodity programs administered by the Secretary.

In connection with each such investigation, report, and finding, the Secretary shall consult with the Secretary of Agriculture regarding participation in the proposed project by the Department of Agriculture under the authority of sections 590z-3 and 590z-4 of this title; and the Secretary shall also transmit to the President a report by the Secretary of Agriculture to the President on the participation, if any, proposed by the Department of Agriculture. The project shall be deemed authorized and may be undertaken pursuant to this subchapter if (1) the Secretary finds and certifies to the President that the project has engineering feasibility and that the water users probably can repay, in accordance with the requirements of section 590z-2 of this title an amount equal to or in excess of that part of the estimated cost allocated by him to irrigation to be met by expenditure of moneys appropriated pursuant to section 590z-10(1) of this title; and (2) the President has approved said report and findings and has found that services, labor, materials, easements, and other property, including money, for the construction of the project, should be made available to the Department of the Interior by the Works Projects Administration or other Federal agencies, to the extent found necessary by the Secretary to make up the difference between the estimated cost of project construction and (i) the part thereof to be met by expenditure of moneys appropriated pursuant to section 590z-10(1) of this title, together with (ii) such services, materials, money, easements, and other property as non-Federal agencies or parties have agreed to contribute and the Secretary has found acceptable under section 590z of this title.

(b) Construction of physical features

No actual construction of the physical features of a project shall be undertaken unless and until (1) the Secretary has found that lands, or interests in lands, deemed necessary for the construction and operation of the major features of the projects have been secured, or sufficient progress made in their procurement

to indicate the probability that all these lands or interests in lands can be secured, with titles and at prices satisfactory to him; and (2) the Secretary has found (i) that water rights adequate for the purposes of the project have been acquired with titles and at prices satisfactory to him, or that such water rights have been initiated and in his judgment can be perfected in conformity with State law and any applicable interstate agreements and in a manner satisfactory to him; and (ii) that such water rights can be utilized for the purposes of the project in conformity with State law and any applicable interstate agreements and in a manner satisfactory to him.

(c) Division of project

Any part of a project hereunder may be designated as a division of the project by the Secretary if he, after consultation with the Secretary of Agriculture, deems this desirable for orderly and efficient construction or administration. The term "project", as used in subsection (b) of this section and section 590z-2 of this title, shall be deemed to mean also "division of a project", designated as provided in this subsection. Any project authorized for construction from appropriations under the head "Water Conservation and Utility Projects" in the Interior Department Appropriation Act, 1940 [c. 119] (53 Stat. 685), hereinafter called the 1940 water conservation appropriation, may be designated by the Secretary, upon agreement with the Secretary of Agriculture, a project under this subchapter, and shall thereupon be subject to all the provisions and requirements thereof, except those of subsections (a) and (b) of this section.

§ 590z-2. Repayment contracts

(a) Necessity

No water for irrigation may be delivered from the works of any project constructed under the authority of this subchapter until after the repayment contract or contracts required by this section have been executed. Where practicable in the judgment of the Secretary, the repayment contract shall be with a water users' organization or organizations satisfactory in form and powers to the Secretary; and otherwise the repayment contract shall be with the individual landowners. The contract or contracts shall contain such provisions as the Secretary deems necessary to carry out the purposes of this subchapter and to protect the interests of the United States.

(b) Reimbursable construction cost

The term "reimbursable construction costs" as used in this subchapter means that part of the costs of investigating, constructing, and operating and maintaining the project, which are allocated by the Secretary to irrigation, and which are met by expenditures of moneys therefor appropriated under the authority of section 590z-10(1) of this title, plus such amounts as the President, under section 590z(1) of this title, may determine to be reimbursable: *Provided*, That administrative expenses incurred in the District of Columbia in connection with the investigation construction, or operation and maintenance of a project shall not be included in the reimbursable construction costs nor shall they be charged to the water users in any way.

(c) Terms

The repayment contract or contracts for a project shall, in their aggregate, provide for repayment to the United States of the total amount of the reimbursable construction costs of the project allocated to irrigation. Each such contract shall provide, among other things, that—

(1) The Secretary shall fix a development period for each project of not to exceed ten years from and including the first calendar year in which water is delivered for the lands in said project; and during the development period water shall be delivered to the lands in the project involved at a charge per acre-foot, or other charge, to be fixed by the Secretary each year and to be paid in advance of delivery of water. Such charges shall be fixed with a view of returning such amounts as in the Secretary's judgment are justified by the rate of project development, including as a minimum the return over the full development

period of that part of the cost of operating and maintaining the project, during said period, allocated by the Secretary to irrigation; and collections of such charges in excess of the cost of the operation and maintenance during the development period, as thereafter determined by the Secretary, shall be credited to the reimbursable construction costs of the project in the manner determined by the Secretary.

(2) The United States shall operate and maintain the project during the development period fixed for it. After the development period, the United States shall operate and maintain the project or any part thereof as long as is deemed necessary by the Secretary, and shall be paid in advance for each year that part of the estimated cost of operating and maintaining the project for such year allocated by the Secretary to irrigation. In the event charges due the United States are not paid when due the United States may, at its election, suspend operations in whole or in part.

(3) The repayment of the reimbursable construction costs, except as to Indian lands which shall be repayable in accordance with existing law relating to Indian lands, shall be spread in not to exceed forty annual installments, of the number and amounts fixed by the Secretary; and the first annual installment under each contract shall become due and payable on the date fixed by the Secretary, in the year next following the last year of the development period fixed under subsection (c)(1) of this section: *Provided,* That the provisions of this subsection shall not be construed to modify the provisions of special legislation pertaining to any particular project.

(4) The water users or their organization will take such measures as the Secretary deems proper to secure the adoption of proper accounting, to protect the condition of project works, and to provide for the proper use thereof, and to protect project lands against deterioration due to improper use of water. Delinquencies in any payments due to the United States shall be penalized by a penalty of not less than one-half of 1 per centum per month. No water shall be delivered to or for any land or party while either said land or the organization in which it is located or said party is in arrears in the advance payment of operation and maintenance charges or development period charges under subsection (c)(1) of this section, or in arrears for more than twelve months in the payment of an installment of the reimbursable construction costs.

(5) The Secretary shall establish the size of farm units of irrigable lands on each project in accordance with his findings of the area sufficient in size for the support of a family on the lands to be irrigated. No water may be delivered to or for more than the farm unit area of irrigable lands in the project owned by a single landowner: *Provided,* That this subsection shall not apply to the United States or any agency or instrumentality thereof, corporate or otherwise. No water shall be delivered to or for any land, in a project area, transferred or disposed of subsequent to approval of the project by the President, and within three years from the time water becomes available, unless and until it has been shown to the satisfaction of the Secretary or his duly authorized representative that the land has been transferred or disposed of at a price not exceeding the appraised value as determined by the Secretary or his duly authorized representatives, and upon proof of fraudulent representation as to the true consideration involved the Secretary is authorized to cancel the water right attaching to the land involved: *Provided further,* That nothing herein shall be construed to create authority to interfere with the delivery of water under prior rights.

(Aug. 11, 1939, ch. 717, § 4, as added Oct. 14, 1940, ch. 861, 54 Stat. 1121, and amended July 16, 1943, ch. 242, § 5, 57 Stat. 567.)

The lease, purchase, or improvement contracts for each tract of land shall provide in the aggregate for the return, in not to exceed fifty years from the date the land is first settled upon, of the costs incurred by the United States in acquiring and improving such tract of land with funds appropriated under authority of section 590z-10(2) of this title, except administrative expenses incurred in the District of Columbia, together with interest on unpaid balances of said costs at not less than 3 per centum per annum. Such lease, purchase, or improvement contracts shall also provide for the fulfillment of such obligations related to reimbursable construction costs and operation and maintenance charges as may be applicable to such lands in accordance with the repayment contract or contracts required by section 590z-2 of this title.

(b) Utilization of other agencies

For the purposes of this section, the Secretary of Agriculture may utilize (1) in such manner as the President may direct, services, labor, materials, or other property, including money, supplied by the Work Projects Administration, the Civilian Conservation Corps, the Office of Indian Affairs, the Department of Agriculture, or any other Federal agency to the extent that the President, upon the report and recommendations of the Secretary of Agriculture, finds that the same should be supplied in assistance of such improvement work, and for which the United States shall be reimbursed in such amounts as the President may fix for each project; and (2) such services, labor, materials, easements, or other property, including money, as may be contributed by any State or political subdivision thereof State agency, municipal corporation, or other organization, or individuals. CODIFICATION

The first sentence of this section is from section 1 of act June 3, 1878.

The words of this section reading "bona fide residents of the States of Colorado, Nevada, New Mexico, Arizona, Utah, Wyoming, North Dakota, South Dakota, Idaho, or Montana," read in the original section, "bona fide residents of the State of Colorado, or Nevada, or either of the Territories of New Mexico, Arizona, Utah, Wyoming, Dakota, Idaho, or Montana."

A proviso at the close of section 1 of act June 3, 1878, was combined with a similar proviso in act Jan. 11, 1921, to form the last sentence of this section.

Act of Jan. 11, 1921, is the source of the remainder of the section.

As originally enacted that act began with the following language: "Section 1 of an Act entitled 'An Act authorizing the citizens of Colorado, Nevada, and the Territories to fell and remove timber on the public domain for mining and domestic purposes,' approved June 3, 1878, chapter 150, page 88, volume 20, United States Statutes at Large, and section 8 of an Act entitled 'An Act to repeal timber-culture laws, and for other purposes,' approved March 3, 1891, as amended by an Act approved March 3, 1891, chapter 559, page 1093, volume 26, United States Statutes at Large, and the several Acts amendatory thereof, be, and the same are hereby, extended so that," etc.

This language was omitted as having been given effect by the combination of the remaining language of the act with section 1 of act June 3, 1878, to form this section, by section 612 of this title.

"Such officer as the Secretary of the Interior may designate" was substituted for "the register and the receiver of any local land office", "Secretary of the Interior" for "Commissioner of the General Land Office", and "such officer" for "such register and receiver" on authority of Reorg. Plan No. 3 of 1946, set out in the Appendix to title 5.

(b) Reports and recommendations; consideration

In furtherance of such purposes, the reports and recommendations of the Secretary of the Interior on the wildlife aspects of such projects, and any report of the head of the State agency exercising administration over the wildlife resources of the State, based on surveys and investigations conducted by the United States Fish and Wildlife Service and such State agency for the purpose of determining the possible damage to wildlife resources and for the purpose of determining means and measures that should be adopted to prevent the loss of or damage to such wildlife resources, as well as to provide concurrently for the development and improvement of such resources, shall be made an integral part of any report prepared or submitted by any agency of the Federal Government responsible for engineering surveys and construction of such projects when such reports are presented to the Congress or to any agency or person having the authority or the power, by administrative action or otherwise, (1) to authorize the construction of water-resource development projects or (2) to approve a report on the modification or supplementation of plans for previously authorized projects, to which sections 661 to 666c of this title apply. The reporting officers in project reports of the Federal agencies shall give full consideration to the report and recommendations of the Secretary of the Interior and to any report of the State agency on the wildlife aspects of such projects, and the project plan shall include such justifiable means and measures for wildlife purposes as the reporting agency finds should be adopted to obtain maximum overall project benefits.

(c) Modification of projects; acquisition of lands

Federal agencies authorized to construct or operate water-control projects are authorized to modify or add to the structures and operations of such projects, the construction of which has not been substantially completed on the date of enactment of the Fish and Wildlife Coordination Act, and to acquire lands in accordance with section 663 of this title, in order to accommodate the means and measures for such conservation of wildlife resources as an integral part of such projects: *Provided,* That for projects authorized by a specific Act of Congress before the date of enactment of the Fish and Wildlife Coordination Act (1) such modification or land acquisition shall be compatible with the purposes for which the project was authorized; (2) the cost of such modifications or land acquisition, as means and measures to prevent loss of and damage to wildlife resources to the extent justifiable, shall be an integral part of the cost of such projects; and (3) the cost of such modifications or land acquisition for the development or improvement of wildlife resources may be included to the extent justifiable, and an appropriate share of the cost of any project may be allocated for this purpose with a finding as to the part of such allocated cost, if any, to be reimbursed by non-Federal interests.

(d) Project costs

The cost of planning for and the construction or installation and maintenance of such means and measures adopted to carry out the conservation purposes of this section shall constitute an integral part of the cost of such projects: *Provided,* That such cost attributable to the development and improvement of wildlife shall not extend beyond that necessary for (1) land acquisition, (2) facilities as specifically recommended in water resource project reports, (3) modification of the project, and (4) modification of project operations, but shall not include the operation of wildlife facilities.

(e) Transfer of funds

In the case of construction by a Federal agency, that agency is authorized to transfer to

the United States Fish and Wildlife Service, out of appropriations or other funds made available for investigations, engineering, or construction, such funds as may be necessary to conduct all or part of the investigations required to carry out the purposes of this section.

(f) Estimation of wildlife benefits or losses

In addition to other requirements, there shall be included in any report submitted to Congress supporting a recommendation for authorization of any new project for the control or use of water as described herein (including any new division of such project or new supplemental works on such project) an estimation of the wildlife benefits or losses to be derived therefrom including benefits to be derived from measures recommended specifically for the development and improvement of wildlife resources, the cost of providing wildlife benefits (including the cost of additional facilities to be installed or lands to be acquired specifically for that particular phase of wildlife conservation relating to the development and improvement of wildlife), the part of the cost of joint-use facilities allocated to wildlife, and the part of such costs, if any, to be reimbursed by non-Federal interests.

(g) Applicability to projects

The provisions of this section shall be applicable with respect to any project for the control or use of water as prescribed herein, or any unit of such project authorized before or after the date of enactment of the Fish and Wildlife Coordination Act for planning or construction, but shall not be applicable to any project or unit thereof authorized before the date of enactment of the Fish and Wildlife Coordination Act if the construction of the particular project or unit thereof has been substantially completed. A project or unit thereof shall be considered to be substantially completed when sixty percent or more of the estimated construction cost has been obligated for expenditure.

(h) Exempt projects and activities

The provisions of section 661 to 666c of this title shall not be applicable to those projects for the impoundment of water where the maximum surface area of such impoundments is less than ten acres, nor to activities for or in connection with programs primarily for land management and use carried out by Federal agencies with respect to Federal lands under their jurisdiction.

§ 668dd. National Wildlife Refuge System

(a) Designation; administration; continuance of resources-management-programs for refuge lands in Alaska; disposal of acquired lands; proceeds

(1) For the purpose of consolidating the authorities relating to the various categories of areas that are administered by the Secretary of the Interior for the conservation of fish and wildlife, including species that are threatened with extinction, all lands, waters, and interests therein administered by the Secretary as wildlife refuges, areas for the protection and conservation of fish and wildlife that are threatened with extinction, wildlife ranges, game ranges, wildlife management areas, or waterfowl production areas are hereby designated as the "National Wildlife Refuge System" (referred to herein as the "System"), which shall be subject to the provisions of this section, and shall be administered by the Secretary through the United States Fish and Wildlife Service. With respect to refuge lands in the State of Alaska, those programs relating to the management of resources for which any other agency of the Federal Government exercises administrative responsibility through cooperative agreement shall remain in effect, subject to the direct supervision of the United States Fish and Wildlife Service, as long as such agency agrees to exercise such responsibility.

(2) No acquired lands which are or become a part of the System may be transferred or otherwise disposed of under any provision of law (except by exchange pursuant to subsection (b)(3) of this section) unless—

(A) the Secretary of the Interior determines with the approval of the Migratory Bird Conservation Commission that such lands are no longer needed for the purposes for which the System was established; and

(B) such lands are transferred or otherwise disposed of for an amount not less than—

(i) the acquisition costs of such lands, in the case of lands of the System which were purchased by the United States with funds from the migratory bird conservation fund, or fair market value, whichever is greater; or

(ii) the fair market value of such lands (as determined by the Secretary as of the date of the transfer or disposal), in the case of lands of the System which were donated to the System.

The Secretary shall pay into the migratory bird conservation fund the aggregate amount of the proceeds of any transfer or disposal referred to in the preceding sentence.

(3) Each area which is included within the System on January 1, 1975, or thereafter, and which was or is—

(A) designated as an area within such System by law, Executive order, or secretarial order; or

(B) so included by public land withdrawal, donation, purchase, exchange, or pursuant to a cooperative agreement with any State or local government, any Federal department or agency, or any other governmental entity,

shall continue to be a part of the System until otherwise specified by Act of Congress, except that nothing in this paragraph shall be construed as precluding—

(i) the transfer or disposal of acquired lands within any such area pursuant to paragraph (2) of this subsection;

(ii) the exchange of lands within any such area pursuant to subsection (b)(3) of this section; or

(iii) the disposal of any lands within any such area pursuant to the terms of any coop-

'erative agreement referred to in subparagraph (B) of this paragraph.

(b) Administration; public accommodations contracts; acceptance and use of funds; exchange of properties; cash equalization payments

In administering the System, the Secretary is authorized—

(1) to enter into contracts with any person or public or private agency through negotiation for the provision of public accommodations when, and in such locations, and to the extent that the Secretary determines will not be inconsistent with the primary purpose for which the affected area was established.

(2) to accept donations of funds and to use such funds to acquire or manage lands or interests therein, and

(3) to acquire lands or interests therein by exchange (A) for acquired lands or public lands, or for interests in acquired or public lands, under his jurisdiction which he finds to be suitable for disposition, or (B) for the right to remove, in accordance with such terms and conditions as he may prescribe, products from the acquired or public lands within the System. The values of the properties so exchanged either shall be approximately equal, or if they are not approximately equal the values shall be equalized by the payment of cash to the grantor or to the Secretary as the circumstances require.

(c) Prohibited and permitted activities; application of mining and mineral leasing laws, hunting or fishing regulations, and State laws or regulations

No person shall knowingly disturb, injure, cut, burn, remove, destroy, or possess any real or personal property of the United States, including natural growth, in any area of the System; or take or possess any fish, bird, mammal, or other wild vertebrate or invertebrate animals or part or nest or egg thereof within any such area; or enter, use, or otherwise occupy any such area for any purpose; unless such activities are performed by persons authorized to manage such area, or unless such activities are permitted either under subsection (d) of this section or by express provision of the law, proclamation, Executive order, or public land order establishing the area, or amendment thereof: *Provided*, That the United States mining and mineral leasing laws shall continue to apply to any lands within the System to the same extent they apply prior to October 15, 1966, unless subsequently withdrawn under other authority of law. With the exception of endangered species and threatened species listed by the Secretary pursuant to section 1533 of this title in States wherein a cooperative agreement does not exist pursuant to section 1535(c) of this title, nothing in this Act shall be construed to authorize the Secretary to control or regulate hunting or fishing of resident fish and wildlife on lands not within the system. The regulations permitting hunting and fishing of resident fish and wildlife within the System shall be, to the extent practicable, consistent with State fish and wildlife laws and regulations. The provisions of this Act shall not be construed as affecting the authority, jurisdiction, or responsibility of the several States to manage, control, or regulate fish and resident wildlife under State law or regulations in any area within the System.

(d) Use of areas; administration of migratory bird sanctuaries as game taking areas; rights of way, easements, and reservations; payment of fair market value

(1) The Secretary is authorized, under such regulations as he may prescribe, to—

(A) permit the use of any area within the System for any purpose, including but not limited to hunting, fishing, public recreation and accommodations, and access whenever he determines that such uses are compatible with the major purposes for which such areas were established: *Provided*, That not to exceed 40 per centum at any one time of any area that has been, or hereafter may be acquired, reserved, or set apart as an inviolate sanctuary for migratory birds, under any law, proclamation, Executive order, or public land order may be administered by the Secretary as an area within which the taking of migratory game birds may be permitted under such regulations as he may prescribe; and

(B) permit the use of, or grant easements in, over, across, upon, through, or under any areas within the System for purposes such as but not necessarily limited to, powerlines, telephone lines, canals, ditches, pipelines, and roads, including the construction, operation, and maintenance thereof, whenever he determines that such uses are compatible with the purposes for which these areas are established.

(2) Notwithstanding any other provision of law, the Secretary of the Interior may not grant to any Federal, State, or local agency or to any private individual or organization any right-of-way, easement, or reservation in, over, across, through, or under any area within the system in connection with any use permitted by him under paragraph (1)(B) of this subsection unless the grantee pays to the Secretary, at the option of the Secretary, either (A) in lump sum the fair market value (determined by the Secretary as of the date of conveyance to the grantee) of the right-of-way, easement, or reservation; or (B) annually in advance the fair market rental value (determined by the Secretary) of the right-of-way, easement, or reservation. If any Federal, State, or local agency is exempted from such payment by any other provision of Federal law, such agency shall otherwise compensate the Secretary by any other means agreeable to the Secretary, including, but not limited to, making other land available or the loan of equipment or personnel; except that (A) any such compensation shall relate to, and be consistent with, the objectives of the National Wildlife Refuge System, and (B) the Secretary may waive such requirement for compensation if he finds such requirement impracticable or unnecessary. All sums received by the Secretary of the Interior pursuant to this paragraph shall, after payment of any necessary expenses incurred by him in administering this paragraph, be deposited into the Migratory Bird Conservation Fund and shall be available to carry out the provisions for land acquisition of the Migratory Bird Conservation Act (16 U.S.C.

715 et seq.) and the Migratory Bird Hunting Stamp Act (16 U.S.C. 718 et seq.).

(e) Penalties

Any person who violates or fails to comply with any of the provisions of this Act or any regulations issued thereunder shall be fined not more than $500 or be imprisoned not more than six months, or both.

(f) Enforcement provision; arrests, searches, and seizures; custody of property; forfeitures; disposition

Any person authorized by the Secretary of the Interior to enforce the provisions of this Act or any regulations issued thereunder, may, without a warrant, arrest any person violating this Act or regulations in his presence or view, and may execute any warrant or other process issued by an officer or court of competence jurisdiction to enforce the provisions of this Act or regulations, and may with a search warrant search for and seize any property, fish, bird, mammal, or other wild vertebrate or invertebrate animals or part or nest or egg thereof, taken or possessed in violation of this Act or the regulations issued thereunder. Any property, fish, bird, mammal, or other wild vertebrate or invertebrate animals or part or egg thereof seized with or without a search warrant shall be held by such person or by a United States marshal, and upon conviction, shall be forfeited to the United States and disposed of by the court.

(g) Regulations; continuation, modification, or rescission

Regulations applicable to areas of the System that are in effect on October 15, 1966, shall continue in effect until modified or rescinded.

(h) National conservation recreational area provisions; amendment, repeal, or modification

Nothing in this section shall be construed to amend, repeal, or otherwise modify the provision of the Act of September 28, 1962 (76 Stat. 653; 16 U.S.C. 460K-460K-4) which authorizes the Secretary of the Interior to administer the areas within the System for public recreation. The provisions of this section relating to recreation shall be administered in accordance with the provisions of said sections.

Such apportionments shall be adjusted equitably so that no State shall receive less than one-half of 1 per centum nor more than 5 per centum of the total amount apportioned. § 669e. Submission and approval of plans and projects

(a) Setting aside funds

Any State desiring to avail itself of the benefits of this chapter shall, by its State fish and game department, submit programs or projects for wildlife restoration in either of the following two ways:

(1) The State shall prepare and submit to the Secretary of the Interior a comprehensive fish and wildlife resource management plan which shall insure the perpetuation of these resources for the economic, scientific, and recreational enrichment of the people. Such plan shall be for a period of not less than five years and be based on projections of desires and needs of the people for a period of not less than fifteen years. It shall include provisions for updating at intervals of not more than three years and be provided in a format as may be required by the Secretary of the Interior. If the Secretary of the Interior finds that such plans conform to standards established by him and approves such plans, he may finance up to 75 per centum of the cost of implementing segments of those plans meeting the purposes of this chapter from funds apportioned under this chapter upon his approval of an annual agreement submitted to him.

(2) A State may elect to avail itself of the benefits of this chapter by its State fish and game department submitting to the Secretary of the Interior full and detailed statements of any wildlife-restoration project proposed for that State. If the Secretary of the Interior finds that such project meets with the standards set by him and approves said project, the State fish and game department shall furnish to him such surveys, plans, specifications, and estimates therefor as he may require. If the Secretary of the Interior approves the plans, specifications, and estimates for the project, he shall notify the State fish and game department and immediately set aside so much of said fund as represents the share of the United States payable under this chapter on account of such project, which sum so set aside shall not exceed 75 per centum of the total estimated cost thereof.

The Secretary of the Interior shall approve only such comprehensive plans or projects as may be substantial in character and design and the expenditure of funds hereby authorized shall be applied only to such approved comprehensive wildlife plans or projects and if otherwise applied they shall be replaced by the State before it may participate in any further apportionment under this chapter. No payment of any money apportioned under this chapter shall be made on any comprehensive wildlife plan or project until an agreement to partici-

pate therein shall have been submitted to and approved by the Secretary of the Interior.

(b) Definition

If the State elects to avail itself of the benefits of this chapter by preparing a comprehensive fish and wildlife plan under option (1) of subsection (a) of this section, then the term "project" may be defined for the purposes of this chapter as a wildlife program, all other definitions notwithstanding.

(c) Costs

Administrative costs in the form of overhead or indirect costs for services provided by State central service activities outside of the State agency having primary jurisdiction over the wildlife resources of the State which may be charged against programs or projects supported by the fund established by section 669b of this title shall not exceed in any one fiscal year 3 per centum of the annual apportionment to the State.

(Sept. 2, 1937, ch. 899, § 6, 50 Stat. 918; 1939 Reorg. Plan No. II, § 4(f), eff. July 1, 1939, 4 F.R. 2731, 53 Stat. 1433; Oct. 23, 1970, Pub. L. 91-503, title I, § 102, 84 Stat. 1099.)

The Secretary of the Interior may, in his discretion, from time to time, make payments on said project as the same progresses; but these payments, including previous payments, if any, shall not be more than the United States pro rata share of the project in conformity with said plans and specifications. If a State has elected to avail itself of the benefits of this chapter by preparing a comprehensive fish and wildlife plan as provided for under option (1) of subsection (a) of section 669e of this title, and this plan has been approved by the Secretary of the Interior, then the Secretary may, in his discretion, and under such rules and regulations as he may prescribe, advance funds to the State for financing the United States pro rata share agreed upon between the State fish and game department and the Secretary.

(b) Any construction work and labor in each State shall be performed in accordance with its laws and under the direct supervision of the State fish and game department, subject to the inspection and approval of the Secretary of the Interior and in accordance with rules and regulations made pursuant to this chapter. The Secretary of the Interior and the State fish and game department of each State may jointly determine at what times and in what amounts payments shall be made under this chapter. (b) The Secretary of the Interior shall implement the conservation and rehabilitation programs required under subsection (a) of this section on public land under his jurisdiction. The Secretary of the Interior shall adopt, modify, and implement the conservation and rehabilitation programs required under subsection (a) of this section on public land under the jurisdiction of the Chairman, but only with the prior written approval of the Atomic Energy Commission, and on public land under the jurisdiction of the Administrator, but only with the prior written approval of the Administrator. The Atomic Energy Commission was abolished and all functions of the Commission, the Chairman, the members of the Commission, and the officers and components of the Commission were transferred to and vested in the Administrator of the Energy Research and Development Administration, with certain exceptions by Pub. L. 93-438, Oct. 11, 1974, 88 Stat. 1233. See section 5814 of Title 42, The Public Health and Welfare.

§ 670h. Comprehensive plans for conservation and rehabilitation programs

(a) Development by Secretary of the Interior and Secretary of Agriculture; consultation with State agencies; prior written approval of concerned Federal agencies

(1) The Secretary of the Interior shall develop, in consultation with the State agencies, a comprehensive plan for conservation and rehabilitation programs to be implemented on public land under his jurisdiction and the Secretary of Agriculture shall do the same in connection with public land under his jurisdiction.

(2) The Secretary of the Interior shall develop, with the prior written approval of the Atomic Energy Commission, a comprehensive plan for conservation and rehabilitation programs to be implemented on public land under the jurisdiction of the Chairman and develop, with the prior written approval of the Administrator, a comprehensive plan for such programs to be implemented on public land under the jurisdiction of the Administrator. Each such plan shall be developed after the Secretary of the Interior makes, with the prior written approval of the Chairman or the Administrator, as the case may be, and in consultation with the State agencies, necessary studies and surveys of the land concerned to determine where conservation and rehabilitation programs are most needed.

(b) Development consistent with overall land use and management plans; hunting, trapping, and fishing authorized in accordance with applicable State laws and regulations

Each comprehensive plan developed pursuant to this section shall be consistent with any overall land use and management plans for the lands involved. In any case in which hunting, trapping, or fishing (or any combination thereof) of resident fish and wildlife is to be permitted on public land under a comprehensive plan, such hunting, trapping, and fishing shall be conducted in accordance with applicable laws and regulations of the State in which such land is located.

(c) Cooperative agreements by State agencies for implementation of programs; modification; contents; hunting, trapping and fishing authorized in accordance with applicable State laws and regulations; regulations

Conservation and rehabilitation programs developed and implemented pursuant to this subchapter shall be deemed as supplemental to wildlife, fish, and game-related programs conducted by the Secretary of the Interior and the Secretary of Agriculture pursuant to other provisions of law. Nothing in this subchapter shall be construed as limiting the authority of the Secretary of the Interior or the Secretary of Agriculture, as the case may be, to manage the national forests or other public lands for wildlife and fish and other purposes in accordance with the Multiple-Use Sustained-Yield Act of 1960 (74 Stat. 215; 16 U.S.C. 528–531) or other applicable authority.

(2) Any conservation and rehabilitation program included within a cooperative agreement entered into under this subsection may be modified in a manner mutually agreeable to the State agency and the Secretary concerned (and the Chairman or the Administrator, as the case may be, if public land under his jurisdiction is involved). Before modifying any cooperative agreement which affects public land under the jurisdiction of the Chairman, the Secretary of the Interior shall obtain the prior written approval of the Atomic Energy Commission and before modifying any cooperative agreement which affects public land under the jurisdiction of the Administrator, the Secretary of the Interior shall obtain the prior written approval of the Administrator.

(3) Each cooperative agreement entered into under this subsection shall—

(A) specify those areas of public land within the State on which conservation and rehabilitation programs will be implemented;

(B) provide for fish and wildlife habitat improvements or modifications, or both;

(F) if the issuance of public land area management stamps is agreed to pursuant to section 670i(a) of this title—

(i) contain such terms and conditions as are required under section 670i(b) of this title;

(ii) require the maintenance of accurate records and the filing of annual reports by the State agency to the Secretary of the Interior or the Secretary of Agriculture, or both, as the case may be, setting forth the amount and disposition of the fees collected for such stamps; and

(iii) authorize the Secretary concerned and the Comptroller General of the United States, or their authorized representatives, to have access to such records for purposes of audit and examination; and

(G) contain such other terms and conditions as the Secretary concerned and the State agency deem necessary and appropriate to carry out the purposes of this subchapter.

A cooperative agreement may also provide for arrangements under which the Secretary concerned may authorize officers and employees of the State agency to enforce, or to assist in the enforcement of, section 670j(a) of this title.

(4) Except where limited under a comprehensive plan or pursuant to cooperate agreement, hunting, fishing, and trapping shall be permitted with respect to resident fish and wildlife in accordance with applicable laws and regulations of the State in which such land is located on public land which is the subject of a conservation and rehabilitation program implemented under this subchapter.

(5) The Secretary of the Interior and the Secretary of Agriculture, as the case may be, shall prescribe such regulations as are deemed necessary to control, in a manner consistent with the applicable comprehensive plan and cooperative agreement, the public use of public land which is the subject of any conservation and rehabilitation program implemented by him under this subchapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 670g, 670j of this title.

§ 670i. Public land management area stamps; agreement between State agencies and Secretary of the Interior and Secretary of Agriculture requiring stamps for hunting, trapping, and fishing on public lands subject to programs; conditions of agreement

(a) Any State agency may agree with the Secretary of the Interior and the Secretary of Agriculture (or with the Secretary of the Interior or the Secretary of Agriculture, as the case may be, if within the State concerned all conservation and rehabilitation programs under this subchapter will be implemented by him) that no individual will be permitted to hunt, trap, or fish on any public land within the State which is subject to a conservation and rehabilitation program implemented under this subchapter unless at the time such individual is engaged in such activity he has on his person a valid public land management area stamp issued pursuant to this section.

(b) Any agreement made pursuant to subsection (a) of this section to require the issuance of public land management area stamps shall be subject to the following conditions:

(1) Such stamps shall be issued, sold, and the fees therefor collected, by the State agency or by the authorized agents of such agency.

(2) Notice of the requirement to possess such stamps shall be displayed prominently in all places where State hunting, trapping, or fishing licenses are sold. To the maximum extent practicable, the sale of such stamps shall be combined with the sale of such State hunting, trapping, and fishing licenses.

(3) Except for expenses incurred in the printing, issuing, or selling of such stamps, the fees collected for such stamps by the State agency shall be utilized in carrying out conservation and rehabilitation programs implemented under this subchapter in the State concerned and for no other purpose. If such programs are implemented by both the Secretary of the Interior and the Secretary of Agriculture in the State, the Secretaries shall mutually agree, on such basis as they deem reasonable, on the proportion of such fees that shall be applied by the State agency to their respective programs.

(4) The purchase of any such stamp shall entitle the purchaser thereof to hunt, trap, and fish on any public land within such State which is the subject of a conservation or rehabilitation program implemented under this subchapter except to the extent that the public use of such land is limited pursuant to a comprehensive plan or cooperative agreement; but the purchase of any such stamp shall not be construed as (A) eliminating the requirement for the purchase of a migratory bird hunting stamp as set forth in section 718a of this title, or (B) relieving the purchaser from compliance with any applicable State game and fish laws and regulations.

(5) The amount of the fee to be charged for such stamps, the age at which the individual is required to acquire such a stamp, and the expiration date for such stamps shall be mutually agreed upon by the State agency and the Secretary or Secretaries concerned; except that each such stamp shall be void not later than one year after the date of issuance.

(6) Each such stamp must be validated by the purchaser thereof by signing his name across the face of the stamp.

(7) Any individual to whom a stamp is sold pursuant to this section shall upon request exhibit such stamp for inspection to any officer or employee of the Department of the Interior or the Department of Agriculture, or to any other person who is authorized to enforce section 670j(a) of this title.

The President of the United States is authorized to designate such areas in the Wichita National Forest and in the Grand Canyon National Forest as should, in his opinion, be set aside for the protection of game animals and birds and be recognized as a breeding place therefor.

(Jan. 24, 1905, ch. 137, § 1, 33 Stat. 614; June 29, 1906, ch. 3593, § 1, 34 Stat. 607.)

(c) Waiver of right to relocation assistance by election of right of use and occupancy

(a) Establishment

In order to assure the preservation, conservation, and protection of the natural, scenic, hydrologic, floral and faunal, and recreational values of the Big Cypress Watershed in the State of Florida and to provide for the enhancement and public enjoyment thereof, the Big Cypress National Preserve is hereby established.

(b) Location; boundaries; publication in Federal Register; area

The Big Cypress National Preserve (hereafter referred to as the "preserve") shall comprise the area generally depicted on the map entitled "Big Cypress National Preserve", dated November 1971 and numbered BC-91,001, which shall be on file and available for public inspection in the Offices of the National Park Service, Department of the Interior, Washington, District of Columbia, and shall be filed with appropriate offices of Collier, Monroe, and Dade Counties in the State of Florida. The Secretary is authorized to acquire by donation, purchase with donated or appropriated funds, transfer from any other Federal agency, or exchange, any lands, waters, or interests therein which are located within the boundaries of the preserve: *Provided,* That any lands owned or acquired by the State of Florida, or any of its subdivisions, may be acquired by donation only: *Provided further,* That no Federal funds shall be appropriated until the Governor of Florida executes an agreement on behalf of the State which (i) provides for the transfer to the United States of all lands within the preserve previously owned or acquired by the State and (ii) provides for the donation to the United States of all lands acquired by the State within the preserve pursuant to the provision of "the Big Cypress Conservation Act of 1973" (Chapter 73-131 of the Florida Statutes) or provides for the donation to the United States of any remaining moneys appropriated pursuant to such Act for the purchase of lands within the preserve. The Secretary may, if he determines that the acquisition of any other subsurface estate is not needed for the purposes of the preserve, exclude such interest in acquiring any lands within the preserve. Notwithstanding the provisions of section 4651 of title 42 the Secretary (i) may evaluate any offer to sell land within the preserve by any landowner and may, in his discretion, accept any offer not in excess of $10,000 without an appraisal and (ii) may direct an appraisal to be made of any unimproved property within the preserve without notice to the owner or owners, thereof. The owner of an improved property on the date of its acquisition by the Secretary may, as a condition of such acquisition, retain for himself and his heirs and assigns a right of use of and occupancy of the improved property for a definite term of not more than twenty-five years or, in lieu thereof, for a term ending at the death of the owner or the death of his spouse, whichever is later. The owner shall elect the term to be reserved. Unless this property is wholly or partially donated to the United States, the Secretary shall pay the owner the fair market value of the property on the date of acquisition less the fair market value, on that date, of the right retained by the owner. A right retained pursuant to this section shall be subject to termination by the Secretary upon his determination that it is being exercised in a manner inconsistent with the purposes of sections 698f to 698m of this title, which shall include the exercise of such right in violation of any applicable State or local laws and ordinances, and it shall terminate by operation of law upon the Secretary's notifying the holder of the right of such determination and tendering to him an amount equal to the fair market value of that portion of the right which remains unexpired.

In making such designation the Secretary shall take into account the manner of use in which the building, accessory structures, and lands were customarily enjoyed prior to November 23, 1971.

(c) Waiver of right to relocation assistance by election of right of use and occupancy

Whenever an owner of property elects to retain a right of use and occupancy as provided in this section, such owner shall be deemed to have waived any benefits or rights accruing under sections 4623, 4624, 4625, and 4626 of title 42, and for the purposes of such sections such owner shall not be considered a displaced person as defined in section 4601(6) of title 42.

Amounts in the fund shall remain available until expended, and may be expended by the Secretary without further appropriation in the manner hereafter prescribed. The National Wildlife Refuge System (hereafter referred to as the "system") includes those lands and waters administered by the Secretary as wildlife refuges, lands acquired or reserved for the protection and conservation of fish and wildlife that are listed pursuant to section 1533 of this title as endangered species or threatened species, wildlife ranges, game ranges, wildlife management areas, and waterfowl production areas established under any law, proclamation, Executive, or public land order.

(b) Deduction of expenses

The Secretary may pay from the fund any necessary expenses incurred by him in connection with the revenue-producing measures set forth in subsection (a) of this section.

(c) Payments to counties

The Secretary, at the end of each fiscal year, shall pay, out of the net receipts in the fund (after payment of necessary expenses) for such fiscal year, which funds shall be expended solely for the benefit of public schools and roads as follows:

(1) to each county in which reserved public lands in an area of the System are situated, an amount equal to 25 per centum of the net receipts collected by the Secretary from such reserved public lands in that particular area of the System: *Provided,* That when any such area is situated in more than one county the distributive share to each county from the aforesaid receipts shall be proportional to its acreage of such public lands therein; and

(2) to each county in which areas in the System are situated that have been acquired in fee by the United States, either (A) three-fourths of 1 per centum of the cost of the areas, exclusive of any improvements to such areas made subsequent to Federal acquisition, such cost to be adjusted to represent current values as determined by the Secretary for the first full fiscal year after enactment of this Act and as redetermined by him at five-year intervals thereafter, or (B) 25 per centum of the net receipts collected by the Secretary from such acquired lands in that particular area of the System within such counties, whichever is greater. The determinations by the Secretary under this subsection shall be accomplished in such manner as he shall consider to be equitable and in the public interest, and his determinations hereunder shall be final and conclusive.

(d) Limitation on amount; reduction of payments

The payments under subsection (c) of this section to the counties in the United States for any one fiscal year shall not exceed the amount of net receipts in the fund for that fiscal year and, in case the net receipts are insufficient for a particular fiscal year to pay the aggregate amount of the payments for that fiscal year to the counties, the payment to each county shall be reduced proportionately.

(e) Use and transfer of surplus funds

Any moneys remaining in the fund after all payments under this section are made for any fiscal year shall be transferred to the Migratory Bird Conservation Fund and shall be available for land acquisition under the provisions of the Migratory Bird Conservation Act [16 U.S.C. 715 et seq.]; except that the funds available for the management of the National Wildlife Refuge System or for enforcement of the Migratory Bird Treaty Act [16 U.S.C. 703 et seq.] shall not be diminished by the amendments made to this subsection by the National Wildlife Refuge System Administration Act Amendments of 1974, unless by specific Act of Congress.

(f) Terms, conditions, and regulations for disposition of surplus products, grant of privileges, and execution of other activities resulting in collection of revenues

The disposition or sale of surplus animals, minerals, and other products, the grant of privileges, and the carrying out of any other activities that result in the collection of revenues within any areas of the System may be accomplished upon such terms, conditions, or regulations, including sale in the open markets, as the Secretary shall determine to be in the best interest of the United States. Further, the Secretary may dispose of such surplus animals by exchange of the same or other kinds, gift or loan to public institutions for exhibition or propagation purposes and for the advancement of knowledge and the dissemination of information relating to the conservation of wildlife in accordance with such regulations as he may prescribe.

(g) Supersedure and repeal of other provisions

Beginning with the first day of the next full fiscal year hereafter, the provisions of this Act shall supersede and repeal the provisions of the paragraph entitled "Management of National Wildlife Refuges" in the General Appropriation Act, 1951, approved September 6, 1950 (64 Stat. 595, 693 to 694).

EX. ORD. NO. 9634. ESTABLISHMENT OF FISHERY CONSERVATION ZONES

Ex. Ord. No. 9634, Sept. 28, 1945, 10 F.R. 12305, provided in part:

By virtue of and pursuant to the authority vested in me as President of the United States, it is hereby ordered that the Secretary of State and the Secretary of the Interior shall from time to time jointly recommend the establishment by Executive orders of fishery conservation zones in areas of the high seas contiguous to the coasts of the United States, pursuant to the proclamation entitled "Policy of the United States With Respect to Coastal Fisheries in Certain Areas of the High Seas" [Proc. No. 2668, Sept. 28, 1945, 10 F.R. 12304], this day signed by me, and said Secretaries shall in each case recommend provisions to be incorporated in such orders relating to the administration, regulation and control of the fishery resources of and fishing activities in such zones, pursuant to authority of law heretofore or hereafter provided.

§ 742a. Declaration of policy

The Congress declares that the fish, shellfish, and wildlife resources of the Nation make a material contribution to our national economy and food supply, as well as a material contribution to the health, recreation, and well-being of our citizens; that such resources are a living, renewable form of national wealth that is capable of being maintained and greatly increased with proper management, but equally capable of destruction if neglected or unwisely exploited; that such resources afford outdoor recreation throughout the Nation and provide employment, directly or indirectly, to a substantial number of citizens; that the fishing industries strengthen the defense of the United States through the provision of a trained seafaring citizenry and action-ready fleets of seaworthy vessels; that the training and sport afforded by fish and wildlife resources strengthen the national defense by contributing to the general health and physical fitness of millions of citizens; and that properly developed, such fish and wildlife resources are capable of steadily increasing these valuable contributions to the life of the Nation.

The Congress further declares that the fishing industry, in its several branches, can prosper and thus fulfill its proper function in national life only if certain fundamental needs are satisfied by means that are consistent with the public interest and in accord with constitutional functions of governments. Among these needs are:

(1) Freedom of enterprise—freedom to develop new areas, methods, products, and markets in accordance with sound economic principles, as well as freedom from unnecessary administrative or legal restrictions that unreasonably conflict with or ignore economic needs;

(2) Protection of opportunity—maintenance of an economic atmosphere in which domestic production and processing can prosper; protection from subsidized competing products; protection of opportunity to fish on the high seas in accordance with international law;

(3) Assistance—assistance consistent with that provided by the Government for industry generally, such as is involved in promoting good industrial relations, fair trade standards, harmonious labor relations, better health standards and sanitation; and including, but not limited to—

(a) services to provide current information on production and trade, market promotion and development, and an extension service,

(b) research services for economic and technologic development and resource conservation, and

(c) resource management to assure the maximum sustainable production for the fisheries.

The Congress further declares that the provisions of this Act are necessary in order to accomplish the objective of proper resource development, and that this Act shall be administered with due regard to the inherent right of every citizen and resident of the United States to engage in fishing for his own pleasure, enjoyment, and betterment, and with the intent of maintaining and increasing the public opportunities for recreational use of our fish and wildlife resources, and stimulating the development of a strong, prosperous, and thriving fishery and fish processing industry.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1534 of this title.

§ 742c. Loans for financing or refinancing of cost of purchasing, constructing, equipping, maintaining, repairing, or operating commercial fishing vessels or gear

(a) Authorization

The Secretary of the Interior is authorized, under such rules and regulations and under such terms and conditions as he may prescribe, to make loans for financing or refinancing of the cost of purchasing, constructing, equipping, maintaining, repairing, or operating new or used commercial fishing vessels or gear.

(b) Conditions

Any loans made under the provisions of this section shall be subject to the following restrictions:

(1) Bear an interest rate of not less than (a) a rate determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding Treasury obligations of comparable maturity, plus (b) such additional charge, if any, toward covering other costs of the program as the Secretary may determine to be consistent with its purpose.

(2) Mature in not more than ten years, except that where a loan is for all or part of the costs of constructing a new fishing vessel, such period may be fourteen years.

(3) No financial assistance shall be extended pursuant to this section unless reasonable financial assistance applied for is not otherwise available on reasonable terms.

(4) Loans shall be approved only upon the furnishing of such security or other reasonable assurance of repayment as the Secretary may require considering the objectives of this section which are to upgrade commercial fishing vessels and gear and to provide reasonable financial assistance not otherwise available to commercial fishermen. The proposed collateral for a loan must be of such a nature that, when considered with the integrity and ability of the management, and the applicant's past and prospective earnings, repayment of the loan will be reasonably assured.

(5) The applicant shall possess the ability, experience, resources, and other qualifications necessary to enable him to operate and maintain new or used commercial fishing vessels or gear.

(6) Before the Secretary approves a loan for the purchase or construction of a new or used vessel which will not replace an existing commercial fishing vessel, he shall determine that the applicant's contemplated operation of such vessel in a fishery will not cause economic hardship or injury to the efficient vessel operators already operating in that fishery.

(7) An applicant for a fishery loan must be a citizen or national of the United States.

(8) Within the meaning of this section, a corporation, partnership, or association shall not be deemed to be a citizen of the United States unless the Secretary determines that it satisfactorily meets all of the requirements set forth in section 802 of title 46, for determining the United States citizenship of a corporation, partnership, or association operating a vessel in the coastwise trade.

(9)(A) The nationality of an applicant shall be established to the satisfaction of the Secretary. Within the meaning of this section, no corporation, partnership, or association organized under the laws of American Samoa shall be deemed a national of the United States unless 75 per centum of the interest therein is owned by nationals of the United States, citizens of the United States, or both, and in the case of a corporation, unless its president or other chief executive officer and the chairman of its board are nationals or citizens of the United States and unless no more of its directors than a minority of the number necessary to constitute a quorum are nonnationals and noncitizens.

(B) Seventy-five per centum of the interest in a corporation shall not be deemed to be owned by nationals of the United States, citizens of the United States, or both, (i) if the title to 75 per centum of its stock is not vested in such nationals and citizens free from any trust or fiduciary obligation in favor of any person not a national or citizen of the United States; or (ii) if 75 per centum of the voting power in such corporation is not vested in nationals of the United States, citizens of the United States, or both; or (iii) if through any contract or understanding it is so arranged that more than 25 per centum of the voting power may be exercised, directly or indirectly, in behalf of any person who is not a national or citizen of the United States; or (iv) if by any other means whatsoever control of any interest in the corporation in excess of 25 per centum is conferred upon or permitted to be exercised by any person who is not a national or citizen of the United States.

(c) Fisheries loan fund; interest payments on appropriations available as capital to the fund less average undispersed cash balance

There is created a fisheries loan fund, which shall be used by the Secretary as a revolving fund to make loans for financing and refinancing under this section. Any funds received by the Secretary on or before September 30, 1980, in payment of principal or interest on any loans so made shall be deposited in the fund and be available for making additional loans under this section. The Secretary shall pay from the fund into the miscellaneous receipts of the Treasury, at the close of each fiscal year, interest on the cumulative amount of appropriations available as capital to the fund from and after July 1, 1965, less the average undispersed cash balance in the fund during the year. The rate of such interest shall be determined by the Secretary of the Treasury, taking into consideration the average market yield during the month preceding each fiscal year on outstanding Treasury obligations of maturity comparable to the average maturity of loans made from the fund. Interest payments may be deferred with the approval of the Secretary of the Treasury, but any interest payments so deferred shall themselves bear interest. Any funds received in the fisheries loan fund after September 30, 1980, and any balance remaining therein at the close of September 30, 1980 (at which time the fund shall cease to exist), shall be covered into the Treasury as miscellaneous receipts. There is authorized to be appropriated to the fisheries loan fund the sum of $20,000,000 to provide initial capital.

(d) Modification of loan contract

The Secretary, subject to the specific limitations in this section, may consent to the modification, with respect to the rate of interest, time of payment of any installment of principal, or security, of any loan contract to which he is a party.

(e) Chartering vessels; loans to Alaskan earthquake victims; termination date

The Secretary is authorized under such terms and conditions and pursuant to regulations prescribed by him to use the funds appropriated under this section to make loans to commercial fishermen for the purpose of chartering fishing vessels pending the construction or repair of vessels lost, destroyed, or damaged by the earthquake of March 27, 1964, and subsequent tidal waves related thereto: *Provided*, That any loans made under this subsection shall only be repaid from the net profits of the operations of such chartered vessels, which profits shall be reduced by such reasonable amount as determined by the Secretary for the salary of the fishermen chartering such vessels. The funds

authorized herein shall not be available for such loans after June 30, 1966.

Such apportionments shall be adjusted equitably so that no State shall receive less than 1 per centum nor more than 5 per centum of the total amount apportioned. Where the apportionment to any State under this section is less than $4,500 annually, the Secretary of the Interior may allocate not more than $4,500 of said appropriation to said State to carry out the purposes of this chapter when said State certifies to the Secretary of the Interior that it has set aside not less than $1,500 from its fish-and-game funds or has made, through its legislature, an appropriation in this amount of said purposes. FISCAL YEAR TRANSITION PERIOD OF JULY 1, 1976, THROUGH SEPTEMBER 30, 1976, DEEMED PART OF FISCAL YEAR BEGINNING OCTOBER 1, 1976

Fiscal year transition period of July 1, 1976, through Sept. 30, 1976, deemed part of fiscal year beginning Oct. 1, 1976, for purposes of this section, see section 205(3) of Pub. § 777e. Submission and approval of plans and projects

(a) Apportionment of funds

Any State desiring to avail itself of the benefits of this chapter shall, by its State fish and game department, submit programs or projects for fish restoration in either of the following two ways:

(1) The State shall prepare and submit to the Secretary of the Interior a comprehensive fish and wildlife resource management plan which shall insure the perpetuation of these resources for the economic, scientific, and recreational enrichment of the people. Such plan shall be for a period of not less than five years and be based on projections of desires and needs of the people for a period of not less than fifteen years. It shall include provisions for updating at intervals of not more than three years and be provided in a format as may be required by the Secretary of the Interior. If the Secretary of the Interior finds that such plans conform to standards established by him and approves such plans, he may finance up to 75 per centum of the cost of implementing segments of those plans meeting the purposes of this chapter from funds apportioned under this chapter upon his approval of an annual agreement submitted to him.

(2) A State may elect to avail itself of the benefits of this chapter by its State fish and game department submitting to the Secretary of the Interior full and detailed statements of any fish restoration and management project proposed for that State. If the Secretary of the Interior finds that such project meets with the standards set by him and approves said project, the State fish and game department shall furnish to him such surveys, plans, specifications, and estimates therefor as he may require. If the Secretary of the Interior approves the plans, specifications, and estimates for the project, he shall notify the State fish and game department and immediately set aside so much of said appropriation as represents the share of the United States payable under this chapter on account of such project, which sum so set aside shall not exceed 75 per centum of the total estimated cost thereof.

The Secretary of the Interior shall approve only such comprehensive plans or projects as may be substantial in character and design and the expenditure of funds hereby authorized shall be applied only to such approved comprehensive fishery plan or projects and if otherwise applied they shall be replaced by the State before it may participate in any further apportionment under this chapter. No payment of any money apportioned under this chapter shall be made on any comprehensive fishery plan or project until an agreement to participate therein shall have been submitted to and approved by the Secretary of the Interior.

(b) Definition

If the State elects to avail itself of the benefits of this chapter by preparing a comprehensive fish and wildlife plan under option (1) of subsection (a) of this section, then the term "project" may be defined for the purpose of this chapter as a fishery program, all other definitions notwithstanding.

(c) Costs

Administrative costs in the form of overhead or indirect costs for services provided by State central service activities outside of the State fish and game department charged against programs or projects supported by funds made available under this chapter shall not exceed in any one fiscal year 3 per centum of the annual apportionment to the State.

(Aug. 9, 1950, ch. 658, § 6, 64 Stat. 432; Oct. 23, 1970, Pub. L. 91-503, title II, § 202, 84 Stat. 1102.)

The Secretary of the Interior may, in his discretion, from time to time, make payments on said project as the same progresses; but these payments, including previous payments, if any, shall not be more than the United States' pro rata share of the project in conformity with said plans and specifications. (a) Preference

In issuing preliminary permits hereunder or licenses where no preliminary permit has been issued and in issuing licenses to new licensees under section 808 of this title the Commission shall give preference to applications therefor by States and municipalities, provided the plans for the same are deemed by the Commission equally well adapted, or shall within a reasonable time to be fixed by the Commission be made equally well adapted, to conserve and utilize in the public interest the water resources of the region; and as between other applicants, the Commission may give preference to the applicant the plans of which it finds and determines are best adapted to develop, conserve, and utilize in the public interest the water resources of the region, if it be satisfied as to the ability of the applicant to carry out such plans.

(b) Development of water resources by United States; reports

Whenever, in the judgment of the Commission, the development of any water resources for public purposes should be undertaken by the United States itself, the Commission shall not approve any application for any project affecting such development, but shall cause to be made such examinations, surveys, reports, plans, and estimates of the cost of the proposed development as it may find necessary, and shall submit its findings to Congress with such recommendations as it may find appropriate concerning such development.

(c) Assumption of project by United States after expiration of license

Whenever, after notice and opportunity for hearing, the Commission determines that the United States should exercise its right upon or after the expiration of any license to take over any project or projects for public purposes, the Commission shall not issue a new license to the original licensee or to a new licensee but shall submit its recommendation to Congress together with such information as it may consider appropriate.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 797 of this title.

§ 803. Conditions of license generally

All licenses issued under this subchapter shall be on the following conditions:

(a) Modification of plans, etc., to secure adaptability of project

That the project adopted, including the maps, plans, and specifications, shall be such as in the judgment of the Commission will be best adapted to a comprehensive plan for improving or developing a waterway or waterways for the use or benefit of interstate or foreign commerce, for the improvement and utilization of water-power development, and for other beneficial public uses, including recreational purposes; and if necessary in order to secure such plan the Commission shall have authority to require the modification of any project and of the plans and specifications of the project works before approval.

(b) Alterations in project works

That except when emergency shall require for the protection of navigation, life, health, or property, no substantial alteration or addition not in conformity with the approved plans shall be made to any dam or other project works constructed hereunder of an installed capacity in excess of two thousand horsepower without the prior approval of the Commission; and any emergency alteration or addition so made shall thereafter be subject to such modification and change as the Commission may direct.

(c) Maintenance and repair of project works; liability of licensee for damages

That the licensee shall maintain the project works in a condition of repair adequate for the purposes of navigation and for the efficient operation of said works in the development and transmission of power, shall make all necessary renewals and replacements, shall establish and maintain adequate depreciation reserves for such purposes, shall so maintain, and operate said works as not to impair navigation, and shall conform to such rules and regulations as the Commission may from time to time prescribe for the protection of life, health, and property. Each licensee hereunder shall be liable for all damages occasioned to the property of others by the construction, maintenance, or operation of the project works or of the works appurtenant or accessory thereto, constructed under the license and in no event shall the United States be liable therefor.

(d) Amortization reserves

That after the first twenty years of operation, out of surplus earned thereafter, if any, accumulated in excess of a specified reasonable rate of return upon the net investment of a licensee in any project or projects under license, the licensee shall establish and maintain amortization reserves, which reserves shall, in the discretion of the Commission, be held until the termination of the license or be applied from time to time in reduction of the net investment.

Such specified rate of return and the proportion of such surplus earnings to be paid into and held in such reserves shall be set forth in the license. For any new license issued under section 808 of this title, the amortization reserves under this subsection shall be maintained on and after the effective date of such new license.

(e) Annual charges payable by licensees

That the licensee shall pay to the United States reasonable annual charges in an amount to be fixed by the Commission for the purpose of reimbursing the United States for the costs of the administration of this subchapter; for recompensing it for the use, occupancy, and enjoyment of its lands or other property; and for the expropriation to the Government of excessive profits until the respective States shall make provision for preventing excessive profits or for the expropriation thereof to themselves, or until the period of amortization as herein provided is reached, and in fixing such charges the Commission shall seek to avoid increasing the price to the consumers of power by such charges, and any such charges may be adjusted from time to time by the Commission as conditions may require: *Provided,* That when licenses are issued involving the use of Government dams or other structures owned by the United States or tribal lands embraced within Indian reservations the Commission shall, subject to the approval of the Secretary of the Interior in the case of such dams or structures in reclamation projects and, in the case of such tribal lands, subject to the approval of the Indian tribe having jurisdiction of such lands as provided in section 476 of title 25, fix a reasonable annual charge for the use thereof, and such charges may with like approval be readjusted by the Commission at the end of twenty years after the project is available for service and at periods of not less than ten years thereafter upon notice and opportunity for hearing: *Provided further,* That licenses for the development, transmission, or distribution of power by States or municipalities shall be issued and enjoyed without charge to the extent such power is sold to the public without profit or is used by such State or municipality for State or municipal purposes, except that as to projects constructed or to be constructed by States or municipalities primarily designed to provide or improve navigation, licenses therefor shall be issued without charge; and that licenses for the development, transmission, or distribution of power for domestic, mining, or other beneficial use in projects of not more than two thousand horsepower installed capacity may be issued without charge, except on tribal lands within Indian reservations; but in no case shall a license be issued free of charge for the development and utilization of power created by any Government dam and that the amount charged therefor in any license shall be such as determined by the Commission. In the event an overpayment of any charge due under this section shall be made by a licensee, the Commission is authorized to allow a credit for such overpayment when charges are due for any subsequent period.

(f) Reimbursement by licensee of other licensees, etc.

That whenever any licensee hereunder is directly benefited by the construction work of another licensee, a permittee, or of the United States of a storage reservoir or other headwater improvement, the Commission shall require as a condition of the license that the licensee so benefited shall reimburse the owner of such reservoir or other improvements for such part of the annual charges for interest, maintenance, and depreciation thereon as the Commission may deem equitable. The proportion of such charges to be paid by any licensee shall be determined by the Commission. The licensees or permittees affected shall pay to the United States the cost of making such determination as fixed by the Commission.

Whenever such reservoir or other improvement is constructed by the United States the Commission shall assess similar charges against any licensee directly benefited thereby, and any amount so assessed shall be paid into the Treasury of the United States, to be reserved and appropriated as a part of the special fund for headwater improvements as provided in section 810 of this title.
